

BUDGET HIGHLIGHTS

FISCAL YEAR 2020

LAWRENCE J. HOGAN JR., GOVERNOR
BOYD K. RUTHERFORD, LT. GOVERNOR

January 18, 2019

The Honorable Thomas V. "Mike" Miller and the Senate of Maryland
The Honorable Michael E. Busch and the Maryland House of Delegates
The People of Maryland

Dear Mr. President, Mr. Speaker, Members of the Maryland General Assembly, and Fellow Marylanders:

Over the past four years, our state has been moving in the right direction, bringing new opportunities for growth and success for all Marylanders. Our administration came into office with a plan to put our state economy back on track, attract new businesses, create jobs, and budget our resources prudently and responsibly - and that's exactly what we have done.

Over the next four years we have a tremendous opportunity, not only to build upon the success we're already experiencing, but to continue to make truly transformative changes all across our state.

Just last month, we announced our brand new Building Opportunity Fund - a historic five-year investment of \$3.5 billion in school construction projects all across the state. Reflecting that new commitment, this year's school construction budget totals more than \$438 million, the most ever in one year.

In addition, for the fifth consecutive year, we are providing record funding for K-12 education, with a \$6.9 billion state investment in our public schools, going above and beyond the levels required by state aid programs. Aid to local schools grows by \$347 million, which is our largest increase to date. Our budget also reserves \$200 million in state funding to implement the recommendations of the Kirwan Commission.

Since taking office, our administration has delivered on our promise to grow our private sector, be more friendly to both businesses and working families, create jobs, and turn our economy around. We have gone from losing 100,000 jobs to gaining more than 120,000 jobs, we have delivered \$1.2 billion in tax, toll, and fee relief, and new this year, we are encouraging investments in Opportunity Zones throughout the state by dedicating \$56.5 million toward attracting new or expanding businesses and developing our workforce.

Just as in our previous four budgets, this budget is fiscally responsible and structurally balanced. It also meets the four major requirements set forth by the Legislature's Spending Affordability Committee. Because we understand that the economy has experienced the longest sustained period of growth since the 1990s, we have outlined a prudent short-term budgetary plan that saves for the future while making important one-time investments in maintenance and infrastructure, many of which are long overdue. We've set aside more than \$1.3 billion to guard against any potential downturn in the economy, while still investing \$3.3 billion in Maryland's Transportation network and nearly \$250 million for a wide range of improvements to government facilities or projects that provide services to our citizens, including \$63 million in critical maintenance funding to Maryland higher education institutions.

We are also continuing our commitment to our world-class higher education system, providing \$1.45 billion in state funds for the University System of Maryland, a 4.2 percent increase over last year. This includes \$20 million, twice the level of last year, to develop academic programs in science, engineering, cybersecurity, and other critical areas. We are also, for the fourth year in a row, limiting undergraduate tuition growth at Maryland's public four-year institutions to 2 percent. In addition, this budget includes record funding for the 15 local community colleges funded through the Cade formula, and provides funding for the Community College Promise Scholarship and the Governor's Promise Plus Scholarship. Further, the capital budget includes \$325 million for higher education projects.

As in previous years, the budget continues to ensure that Maryland's most vulnerable citizens have access to critical healthcare services and other important programs. The budget includes nearly \$11.5 billion for Maryland's Medicaid program, which provides health coverage to nearly 1.4 million Marylanders, including more than 153,000 children through the Maryland Children's Health Program. We are also providing \$1.3 billion for developmental disabilities community services, including an additional \$46 million to expand services and nearly \$15 million to continue two waiver programs to reduce the waiting list. The budget also contains nearly a quarter billion dollars for substance use disorder services, an increase of 20 percent over last year.

Our budget also reaffirms our commitment to environmental stewardship. We are once again fully funding important environmental programs including Program Open Space, the Chesapeake and Atlantic Coastal Bays 2010 Trust Fund, and the Maryland Park Service, and increasing incentives for electric vehicles.

This budget also invests in our dedicated state employees, who do important and challenging work every day, providing at least a 3 percent raise to every one of our workers. Further, in order to improve the recruitment and retention of our vital correctional officers at state facilities, we are allocating \$13.1 million toward an additional 4 percent raise for these officers, along with \$7.6 million to extend a bonus program through the rest of the current year. Similarly, the budget includes nearly \$4 million to make salaries of psychiatrists in state behavioral health facilities more competitive with the marketplace, along with \$4.4 million to provide salary adjustments for registered nurses, alcohol and drug abuse counselors, mental health counselors, and epidemiologists, improving recruitment and retention of these hard-to-fill positions.

Our current budget situation also allows us the opportunity to continue to provide reasonable and targeted tax relief, including expanding the More Jobs for Marylanders tax credit to Opportunity Zones, expanding our Hometown Heroes program, expanding the definition of retirement income that is excluded from taxation to include other retirement investment types, and to help all Marylanders make college more affordable, we are proposing to increase the deduction for contributions to a 529 investment plan from \$2,500 to \$5,000 and increasing the permitted tax deduction on student loan interest to 100 percent.

With your help, we will continue to make Maryland a better place to live, work, raise a family, and retire. We look forward to working with you this session to continue Changing Maryland for the Better.

Sincerely,

A handwritten signature in black ink, appearing to read "Larry Hogan", written in a cursive style.

Budget in Brief

Governor Hogan's Fiscal Year 2020 budget continues a legacy of fiscal responsibility and structural balance while making vital investments in education, healthcare, and job creation. This budget makes prudent use of what is likely a one-time surplus to save for the future and to invest in the state's infrastructure. Highlights of Governor Hogan's FY 2020 budget include the following:

- A record level of K-12 education funding that goes above levels mandated by legislative formulas, including full funding of \$125 million for year one of the constitutional amendment on Education Trust Fund dollars,
- Establishment of the Building Opportunity Fund to provide \$3.5 billion in school construction funding over the next five years while creating 27,000 new jobs in the process,
- Encouraging investments in Opportunity Zones throughout the state by providing \$56.5 million in new incentives in the operating and capital budgets and through the More Opportunities for Marylanders Act of 2019, and
- Setting aside more than \$1.3 billion to prepare for a potential future downturn in the economy, including a Rainy Day Fund balance equal to 6.5 percent of annual revenues, more than \$276 million above the 5 percent required by state law.

Framing the FY 2020 Budget Outlook

The state closed FY 2018 with a surplus of \$589 million--nearly \$400 million larger than estimated. The budget surplus was primarily the result of higher than estimated revenues, and secondarily because state agencies returned more funds back to the Treasury than estimated for the fourth consecutive year. When combined with moderating enrollment in entitlement programs such as Medicaid and Temporary Assistance for Needy Families, this has set the stage for a smoother than anticipated short-term budget outlook than just one year ago.

However, understanding that the economy has experienced the longest sustained period of growth since the 1990s and that much of the additional revenue is attributable to volatile revenue sources, the administration has outlined a sustainable short-term budgetary plan that seeks to save for the future and make prudent one-time investments in infrastructure.

Strong Financial Stewardship

- The governor's budget complies with all four major recommendations made by the General Assembly's Spending Affordability Committee.
- The governor's plan eclipses the Spending Affordability recommendation by leaving 6.5 percent of revenues in the state's Rainy Day Fund at the end of FY 2020 rather than the recommended 6 percent. This is \$276 million more than the statutory requirement of 5 percent of general fund revenues.
- When combined with the FY 2020 surplus of \$105 million, the state will have approximately \$1.32 billion in reserve, equal to slightly more than 7 percent of revenues.
- The FY 2020 budget also continues the Hogan Administration's commitment to shoring up the pension system. The FY 2020 budget includes a total of \$1.71 billion in pension funding, which is \$125 million more than actuarially required. Since FY 2014, the funded ratio of the pension system has increased from 68.7 percent to 71.6 percent and is on a path to meeting the 80 percent funded benchmark of a financially sound pension system.
- The FY 2020 revenue estimate is the first one where revenues are reduced by an amount (almost \$94 million) to account for volatility in non-withholding personal income tax revenue. Doing so is a conservative approach to revenue estimating and provides a cushion should revenues not meet the estimate.

Budget in Brief

- The budget continues to reserve \$200 million to help fund future costs associated with the recommendations of the Kirwan Commission.
- The governor is investing additional funds to ensure Maryland is prepared for a natural disaster by increasing the balance in the Catastrophic Event Account to \$10 million.
- The size of the executive branch is the smallest it has been since 1986 and on a per capita basis it is the lowest it has been since 1972.

Infrastructure Investments

Governor Hogan's FY 2020 Capital Budget makes critical investments in infrastructure totaling \$5.16 billion. Included in the Capital Budget is almost \$200 million in general fund pay-as-you-go (PAY-GO) construction funding and \$65 million in public school construction funding attributable to the Education Trust Fund constitutional amendment. Highlights of the FY 2020 Capital Budget and Capital Improvement Program (CIP) include:

- Record funding for school construction of more than \$438 million in FY 2020. Funding for school construction over the five-year CIP, including the Building Opportunity Fund, will total more than \$3.5 billion.
- Higher education capital funding of \$325 million, including funds for the completion of a new Science Facility at Towson University and the new Student Services Support building at Morgan State University.
- Investments in Maryland's Transportation network totaling \$3.3 billion include almost \$1.7 billion for state highways, \$221 million for the Purple Line Transitway, and \$167 million in capital improvements for the Washington Metropolitan Area Transit Authority (WMATA).
- Almost \$250 million for a wide range of improvements to government facilities or projects that provide services to citizens. Critical maintenance funding of \$63 million is provided to higher education institutions for infrastructure and capital maintenance projects, and \$35 million is provided for similar projects administered by the Department of General Services.
- Operational funding for critical maintenance projects totaling \$18.5 million across several executive branch agencies.

Promises Made, Promises Kept

- The FY 2020 budget continues the administration's commitment to not using dedicated revenue sources to balance the budget.
- In FY 2020, local governments will see an increase in aid for transportation of \$24 million, or 10 percent, primarily driven by the Highway User Revenue formula.
- Governor Hogan's FY 2020 budget includes full funding of \$125 million for the first year of the constitutional mandate regarding additional funding for education from casino revenues.
- In addition to the \$125 million in supplemental funding for education, the existing education funding formulas are fully funded and a historic level of funding is provided. Despite the calculations in the formulas, no jurisdiction will receive less in formula funding in FY 2020 compared to FY 2019.
- The governor's budget fully funds every mandated spending obligation enacted by the General Assembly.

Budget in Brief

Environmental Stewardship

- Continuing the governor's commitment to Bay restoration efforts, the Chesapeake Bay 2010 Trust Fund and Program Open Space are both fully funded again.
- In addition to full funding for Program Open Space, the FY 2020 budget includes \$44 million to pay back transfers from prior years.
- Governor Hogan is also proposing to double the tax credit for zero-emissions vehicles from \$3 million to \$6 million.

Tax Relief

Governor Hogan continues to provide tax relief to Marylanders. In the 2019 Session, Governor Hogan will submit the following legislative proposals:

- To help make college more affordable for all Marylanders, Governor Hogan is doubling the deduction for contributions to 529 investment plans to \$5,000 and increasing to 100 percent the deduction on student loan interest.
- Expanding the definition of retirement income that is excluded from taxation to include other retirement investment types.
- Expanding the More Jobs for Marylanders tax credit to include Opportunity Zones.
- Expanding the Hometown Heroes tax credit.

Budget Accomplishments

- The FY 2020 budget makes many important investments in Maryland programs. This includes historic funding of \$6.9 billion for K-12 education, an increase of \$347 million or 5.3 percent more than FY 2019. For the fourth consecutive year, Governor Hogan's education budget goes above and beyond required statutory funding formulas to ensure that every Maryland jurisdiction receives more direct education aid than the prior fiscal year. Overall, aid to local governments totals \$8.1 billion in FY 2020, an increase of \$407 million or 5.2 percent.

- The budget ensures that Maryland's most vulnerable populations have access to critical healthcare and social services to address their needs. The budget contains almost a quarter of a billion dollars for substance use disorder services, an increase of 20 percent over FY 2019. Additional funding of \$29 million is included to expand treatment access for those with the Hepatitis C virus. The budget also contains new funding of \$6 million to help recipients of public assistance transition to employment.
- The governor's commitment to college affordability continues with the submission of the FY 2020 budget. Resident undergraduate tuition at all Maryland's public four-year institutions is held to 2 percent for the fourth consecutive year. Additionally, funding for student financial assistance is growing almost \$27 million to \$141 million in the FY 2020 budget.
- Governor Hogan's FY 2020 budget also ensures that the individuals who make Maryland State government function are rewarded for their hard work. To that end, the budget includes funding to ensure that every state employee receives at least a 3 percent cost-of-living-adjustment in FY 2020. Also included is funding to provide salary adjustments to help in the recruitment and retention of hard to fill positions, particularly nurses and correctional officers. Finally, the budget contains \$8 million for a new student loan repayment assistance program for state employees in certain shortage fields. These salary adjustments are in addition to a combined 2.5 percent cost-of-living-adjustment and \$500 bonus being provided to all state employees in FY 2019.

Economic Development and Jobs

More Opportunities and Jobs for Marylanders

- As part of a series of initiatives proposed by Governor Hogan to further expand Maryland's Opportunity Zone program, the FY 2020 operating budget includes \$56.5 million in new funding to attract businesses and development and to continue to invest in Maryland's workforce.
- \$16 million is provided to create the Maryland Technology Infrastructure Fund under TEDCO, as part of a long-term plan to leverage more than \$500 million in planned investment over the next decade.
- An additional \$6 million in tax credits will be made available for companies that locate or expand in a Maryland Opportunity Zone--an amount increasing to \$24 million over time.
- \$3 million is being invested to establish "Opportunity Works," a job training program for businesses located in Opportunity Zones as part of the state's nationally recognized Employment Advancement Right Now (EARN) program.
- \$31.5 million will be made available by the Department of Housing and Community Development to support projects in Opportunity Zones, including \$20 million for Rental Housing Works, \$8 million for the Neighborhood BusinessWorks program, and \$3.5 million for the statewide Strategic Demolition Fund.

- Governor Hogan's FY 2020 budget also includes \$8 million for tax credits for manufacturing employers that create jobs in qualifying high-unemployment zones, established under the More Jobs for Marylanders Act of 2017.
- The new public school construction initiative announced by Governor Hogan is estimated to create more than 27,000 new jobs during the five-year construction period.

Business Investment and Assistance

- The governor's budget provides \$28 million in FY 2020 for the Maryland Economic Development Assistance Authority and Fund, the state's most powerful economic development tool, a \$3 million increase over the current year.
- The FY 2020 budget includes a second \$5 million payment from the Sunny Day Fund to Marriott International as part of a multi-year \$20 million commitment to ensure the company's headquarters remains in Maryland.
- To facilitate the development of Maryland's small businesses, the budget includes a \$5 million deficiency for the Maryland Small Business Development Financing Authority.

Economic Development and Jobs

- Governor Hogan's budget provides first-time funding of \$1 million toward TEDCO's Minority Pre-Seed Investment Fund, which provides financial and operational support for entrepreneurs from socially or economically disadvantaged backgrounds.
- The FY 2020 allowance provides more than \$650,000 in additional funds to support efforts related to implementation of the Sick and Safe Leave Act.

Workforce Development

- In addition to the \$3 million for Opportunity Works, the FY 2020 budget includes \$8 million for the EARN program, which continues as a leader of innovative and industry-led workforce development initiatives for the state.
- \$2.5 million is included to launch the new Cyber Warrior Diversity program to train students at the state's historically black colleges and universities (HBCUs) and Baltimore City Community College for computer networking and cybersecurity careers.
- The FY 2020 allowance includes more than \$500,000 in increased federal support for apprenticeship and training in Maryland, a direct result of aligning the program with other workforce development programs to expand its reach.

- An additional \$285,000 is provided to support a new "Life Skills" correctional education program focused on career and life development and to purchase replacement equipment and supplies.
- The budget includes a continuation of \$1 million in funding for Workforce Development Sequence Scholarships to help Marylanders strengthen their work skills.
- The budget includes \$300,000 to establish three new P-TECH schools in Maryland, bringing total funding for P-TECH schools to \$1.2 million. A Hogan administration initiative, graduates from Maryland's P-TECH schools will earn their high school diploma and a two-year postsecondary degree in a STEM field from an accredited community college.

Emerging Technologies

- Governor Hogan's budget maintains \$12 million for the Biotechnology Investment Incentive Tax Credit and \$2 million for the Cybersecurity Investment Incentive Tax Credit. In addition, businesses purchasing cybersecurity technology or services from Maryland companies will be eligible for up to \$4 million in tax credits in 2019.
- The budget increases funding for the Center for Economic and Entrepreneurship Development to \$6 million, a \$2 million increase over FY 2019, and maintains \$4 million for the Center for Maryland Advanced Ventures, both at University of Maryland campuses.
- The governor continues his commitment to emerging technology commercialization programs, with \$5 million for the Maryland Technology Incubator Program and Technology Commercialization Fund, \$4.8 million for the Maryland Innovation Initiative, \$1 million for Morgan State University's Office of Technology Transfer, and \$900,000 for the Cybersecurity Investment Fund.

Economic Development and Jobs

Higher Education

- The governor's budget includes a record \$1.45 billion in state funds for the University System of Maryland (USM), a \$58.5 million or 4.2 percent increase over FY 2019. This includes \$20 million – twice the level of funding USM received in FY 2019 -- to develop academic programs in science, engineering, cybersecurity, and other critical areas, continuing the governor's multi-year commitment to strengthen the state's workforce.
- Other USM enhancements include: \$5.8 million to assist campuses operating new facilities; \$5 million to retain highly regarded faculty and to implement additional student success initiatives at UMBC; \$4 million, distributed evenly between TU and UMBC, to help ensure that the institutions are funded at levels comparable to their peer institutions; \$2.5 million for immunotherapy research at the University of Maryland School of Medicine; and \$500,000 to help establish the Tuberous Sclerosis Complex Center at the University of Maryland, Baltimore Campus.
- Morgan State University receives \$100.9 million in state funds, a \$4.1 million increase from the current year. Nearly half of this increase will support deferred maintenance efforts to improve campus facilities and the remainder will be used for accreditation efforts, laboratory facility

enhancements, and conversion of contractual employees to regular employees.

- Statutory funding for St. Mary's College of Maryland grows by 3.5 percent to \$25.9 million.
- The governor's budget includes record funding for the 15 local community colleges funded through the Cade formula. The governor's FY 2020 budget includes \$268 million, a \$7 million or 2.7 percent increase over FY 2019, in formula and non-formula grant funding.
- The budget also includes \$3.8 million in new funding to assist community colleges in repairing and modernizing existing campus facilities.
- Baltimore City Community College (BCCC) receives \$40.2 million in state support in FY 2020.
- The Sellinger program for Maryland's independent colleges and universities is funded at a record \$59.4 million, or \$3.2 million over FY 2019.

College Affordability and Student Loan Debt Relief

- For the fourth year in a row, growth in resident undergraduate tuition at Maryland's public four-year institutions is held to 2 percent.
- During the 2019 session, Governor Hogan will propose a comprehensive series of initiatives to make a college education more affordable and to provide relief to Marylanders burdened by student debt.

Economic Development and Jobs

- Administration legislation will expand the Maryland Community College Promise Scholarship Program to include four-year Maryland public institutions. The FY 2020 budget includes first year funding of \$15 million for the Community College Promise Scholarship and \$8 million for the Governor's Promise Plus Scholarship.
- In addition, the governor is proposing to allow Marylanders to deduct 100 percent of the interest paid on their student loans from their income tax return and to double the deduction for families participating in Maryland 529 savings plans from \$2,500 to \$5,000. These proposals combined are projected to save Maryland taxpayers an estimated \$13 million in FY 2020.
- The governor's budget includes an additional \$3.3 million in both FY 2019 and FY 2020 to match eligible donations to Maryland 529 accounts under the state's Save4College State Contribution Program, bringing total funding to \$6.3 million in each year.
- An additional \$8 million is provided for Smart-Work, a new student loan repayment assistance program for state employees in certain shortage fields.

Student Financial Assistance

- Funding for student financial aid totals \$141 million in FY 2020, a \$26.9 million or 23.5 percent increase over FY 2019. In addition to new funding for the Promise programs, the governor's budget includes \$1 million for a new scholarship program at the HBCUs as well as \$1.2 million in enhanced funding for the Conroy Program to meet student demand.
- The governor's budget includes a \$1.7 million or 2 percent increase for the Educational Excellence Awards to offset tuition growth, bringing total program funding for the state's largest need-based financial aid program to \$86.4 million.

Tourism and Arts Promotion

- The Maryland State Arts Council grows by \$1.7 million, to \$24.4 million in total funds.
- In addition, Governor Hogan's budget provides an additional \$610,000 for the Tourism Development Board, bringing total funding to \$10.2 million.
- The Maryland Public Broadcasting Commission receives an additional \$1.3 million in base support in FY 2020, bringing total state support to \$10 million.

Transportation Infrastructure

- The Department of Transportation's FY 2020 budget includes capital funding of more than \$3.3 billion, slightly more than half of which is dedicated to improving roads across Maryland.
- Funding of more than \$700 million is included in the budget to support mass transit capital projects, including \$221 million for the Purple Line Transitway. On the operating side, the Maryland Transit Administration's budget increases by \$37 million, including funding for local transit, personnel, and \$19 million for MARC, Mobility, and maintenance.
- Consistent with the state's commitment, the FY 2020 budget includes a \$167 million capital investment to improve safety and reliability for the Washington Metropolitan Area Transit Authority (WMATA).
- The FY 2020 budget includes \$255.9 million in Highway User Revenue (HUR) funds to local jurisdictions.

Quality of Life

K-12 Education

- For the fifth consecutive year, the Hogan administration is providing record funding for K-12 education. The FY 2020 budget includes a \$6.9 billion state investment in Maryland's public schools, fully funding state aid programs. Direct aid to local schools grows by \$311.7 million or 5.3 percent, the largest increase to date under Governor Hogan.
- The governor's education budget goes above and beyond required statutory funding formulas to ensure that every Maryland jurisdiction receives more direct education aid than in FY 2019. Baltimore City will receive an additional \$11.1 million and Cecil County nearly \$800,000.
- Consistent with passage of the constitutional amendment establishing the education "lock-box," \$125 million in gaming revenues are dedicated to the following educational enhancements: \$65 million for school construction (including \$20 million to start a revolving loan fund to assist local jurisdictions), \$15 million for prekindergarten expansion, \$4.5 million for Learning in Extended Academic Programs (LEAP) to provide extended academic programming for at-risk students at schools, \$2.5 million for the Maryland Early Literacy Initiative, \$2 million for innovative Career Technology Edu-

cation programs, \$250,000 to expand teacher recruitment and outreach, and \$35.8 million for future initiatives as determined by the Kirwan Commission on Innovation and Excellence in Education.

- In addition, \$200 million in state funding remains reserved to implement recommendations of the Kirwan Commission.

School Safety and Accountability

- The safety of Maryland's children is a top Hogan administration priority. In 2018, the governor launched a series of initiatives supporting school safety, including new funding, an executive order, a new tip line and mobile app, and emergency legislation.
- The FY 2020 budget continues this commitment with \$10 million in capital grants to local school systems to make safety-related improvements to school facilities; an additional \$3.5 million is included for safety improvements at non-public schools.
- \$10.6 million is provided for local school systems to hire school resource officers and to implement other best practices; approximately \$400,000 is provided to support new school resource officers at the Maryland School for the Deaf.
- The governor's budget doubles to \$2 million the amount available for upgrades and security personnel for schools and child care centers in Maryland deemed at-risk for hate crimes.
- An additional \$1.4 million and 11 positions are included to support the newly created Education Monitoring Unit and Office of Compliance and Oversight, enabling the Maryland State Department of Education and the State Board of Education to evaluate and investigate allegations of misconduct and corruption in local school systems.

Quality of Life

Early Childhood Education

- \$20 million in state funding is included in the FY 2020 budget to expand access to prekindergarten throughout the state, bringing total state enhancement funding to \$43.5 million. Under the Hogan administration, state funding to expand access to prekindergarten education has grown by 1,011 percent.
- The Hogan administration has taken great strides this past year to enhance the Child Care Subsidy program, raising subsidy rates by 8 percent, eliminating the waitlist, and doubling income eligibility requirements. The FY 2020 budget includes an additional \$34 million for the program to implement these policy changes and further increase subsidy rates.
- State aid for local Head Start programs grows to \$3 million in FY 2020, an increase of \$1.2 million compared to FY 2019.

Other Education Programs

- The Broadening Options and Opportunities for Students Today (BOOST) Program grows by \$3 million to \$10 million, fulfilling the governor's commitment to double funding for the program over three years. BOOST provides scholarships for low-income students from areas with under-performing schools to attend non-

public schools, giving them the opportunity for a better education.

- The budget contains \$1.8 million in additional state funds for school lunch and breakfast programs, including \$1.1 million to make all reduced-price meals free for students and \$650,000 to expand the Maryland Meals for Achievement program. This brings total state support to \$12.3 million in FY 2020.
- The Division of Rehabilitation Services (DORS), which promotes the employment and independence of individuals with disabilities, receives \$122.8 million in FY 2020. Due in part to enhancement funding provided by the administration, the wait list for DORS has fallen by 41 percent in the past two years.
- The budget fully funds the state aid formula for the Maryland School for the Deaf at \$33.1 million and the Maryland School for the Blind at \$23.9 million.
- The budget includes a \$3 million or 3.7 percent increase to fully fund aid to local libraries at \$84 million.

School Construction

- School construction projects total \$438.1 million, comprised of: \$280 million for the traditional public school construction program, \$65 million from dedicated education lockbox revenues, an additional \$43.5 million from the General Fund, \$40 million in supplemental funding for public school districts with high enrollment growth or relocatable classrooms, and a combined \$9.6 million between the Aging Schools and the Non-Public Aging Schools Programs.

Quality of Life

- The budget also includes \$30 million for the Healthy School Facility Fund, \$10 million for the Public School Safety Improvements Grant Program, and \$20 million for the Local Share of School Construction Cost Funds, which will assist local governments with financing the required matching funds. At least four percent of the funding for the Healthy School Facility Fund will be available for charter schools.
- \$1 million and 11 positions are provided to the Interagency Commission on School Construction, Maryland State Department of Education, and the Maryland Department of Planning to enhance state support of local school maintenance and construction efforts.

Healthcare

- The FY 2020 budget includes nearly \$11.5 billion for Maryland's Medicaid program, which provides basic health coverage to nearly 1.4 million Marylanders, including more than 153,000 children through the Maryland Children's Health Program.
- The governor's budget for Medicaid includes an additional \$77 million in total funds for Community First Choice services to keep elderly and disabled adults out of nursing homes, \$29.3 million to expand treatment access for those

with Hepatitis C virus, nearly \$6 million in new funding for a pilot program to reduce the incidence of diabetes, and an additional \$4.2 million to provide a limited dental benefit to adults under the age of 65 who are dual eligible for Medicare and Medicaid.

- Nearly \$130 million is provided in FY 2020 to fund a 3.5 percent rate increase for behavioral health and developmental disabilities service providers and a 3 percent rate increase for most other healthcare providers. Included in this total is \$42.5 million for the Developmental Disabilities Administration to benefit direct-care workers serving some of Maryland's most vulnerable individuals.
- The FY 2020 budget provides \$1.3 billion for developmental disabilities community services, including an additional \$46 million to expand services and nearly \$15 million to continue two waiver programs to reduce the waiting list.
- The governor's budget includes an additional \$6 million over two years to address increasing costs in the Breast and Cervical Cancer Diagnosis and Treatment Program.
- The FY 2020 budget includes \$15 million to continue operating support for the new University of Maryland Capital Region Medical Center in Prince George's County.

Quality of Life

- The FY 2020 budget also includes \$55.4 million in funding for aid to local health departments, an increase of \$2.7 million or 5 percent compared to FY 2019.

Opioids and Substance Abuse

- The FY 2020 governor's allowance includes \$247.8 million in general funds for substance use disorder services, a \$41.8 million or 20 percent increase over FY 2019 levels. Demonstrating the state's commitment to combating the heroin/opioid epidemic, the number of substance use treatment beds licensed by the Behavioral Health Administration has more than doubled from nearly 1,500 in January 2017 to more than 3,300 in September 2018.
- Funding dedicated to existing non-Medicaid substance abuse disorder and addiction programs totals nearly \$172 million in FY 2020.
- The budget includes \$66 million over two years in new federal grants to initiate and expand opioid prevention and treatment services.
- In keeping with the governor's five-year \$50 million commitment, the FY 2020 budget includes the third installment of \$10 million to fund the activities of the Opioid Operational Command Center, which will now be housed within the Maryland Emergency Management Agency.
- To expand behavioral health crisis response programs and services, the governor's budget provides \$3 million for grants to local behavioral health authorities.
- The governor's capital budget includes more than \$6 million to support the development of addiction treatment centers and \$2 million for recovery centers.

Health Staffing

- To expand the state's ability to investigate allegations of neglect and harm at nursing homes and other healthcare facilities, the FY 2020 budget includes 10 new positions and associated funding in the Office of Health Care Quality.
- The FY 2020 budget includes nearly \$4 million to make salaries of psychiatrists in state behavioral health facilities more competitive with the marketplace, improving recruitment and retention of these hard-to-fill positions.
- To improve recruitment and retention of other hard-to-fill positions in state health facilities, the budget includes \$4.4 million in general funds to provide salary adjustments for registered nurses, alcohol and drug abuse counselors, mental health counselors, and epidemiologists.
- The budget includes 86 new positions to bring previously outsourced functions in house, saving the state more than \$1 million annually.

Services for Vulnerable Populations

- The FY 2020 budget includes \$931 million in federal Supplemental Nutrition Assistance Program (SNAP) benefits for more than 346,000 households and \$4.1 million in supplemental SNAP benefits for more than 24,000 households with a member age 62 or older.
- The budget also includes \$120.1 million in heating and electricity assistance benefits for 201,000 households, and \$27 million to provide cash, medical, and housing benefits to 11,000 people with disabilities.

Quality of Life

- While Temporary Cash Assistance caseloads have continued to decline over the past four years largely due to a strong economy and successful job placements, the budget includes a nearly 5 percent inflation-based increase in the monthly benefit for recipients.
- The FY 2020 budget includes \$6.3 million to help mitigate the impact of the “benefit cliff” for newly employed recipients of public assistance. The new initiative will provide continued assistance for up to three months as clients transition to new employment, aligning closely with the recommendations of the Two-Generation Family Economic Security Commission.
- The budget includes \$5 million to fund a 3 percent rate increase for out-of-home residential service and foster care providers.
- An additional \$2.6 million is included for the Temporary Disability Assistance Program (TDAP) to increase the monthly benefit by 10 percent.
- The budget also provides \$1.4 million to launch a new statewide Durable Medical Equipment program to collect, repair, sterilize, and redistribute used equipment such as wheelchairs, walkers, and adaptive devices.
- To help meet the goal of ending youth homelessness in Maryland, the FY 2020 budget includes \$1 million in enhancement funding to provide short-term rental subsidies and case management services for youth experiencing homelessness.
- The governor’s budget includes an additional \$1 million over two years to establish 15 Community for Life locations around the state. A Community for Life provides home maintenance, transportation, and service navigation to older Marylanders living in defined geographic locations.

Public Safety and Veterans

- The FY 2020 budget provides \$1.42 billion to house and rehabilitate a population of more than 18,000 inmates in correctional facilities, to detain arrestees and house pretrial offenders, and to supervise more than 70,000 individuals in the community. This year, the correctional population is projected to fall below 18,500 for the first time since 1991.
- In accordance with the Justice Reinvestment Act of 2016, the budget reinvests \$3.8 million in evidence-based strategies to decrease crime and reduce recidivism.
- To improve the recruitment and retention of correctional officers at state facilities, an additional \$13.1 million is provided in FY 2020 to institute a new salary plan for correctional officers, and \$7.6 million is allocated to extend a bonus program through FY 2019.
- The FY 2020 budget includes nearly \$268 million for community and residential operations providing direct care services to youth under Department of Juvenile Services’ supervision.

Quality of Life

- Since Governor Hogan took office, spending to upgrade and replace the State Police vehicle fleet totals more than \$40 million, including \$8.4 million in FY 2020. In addition, the budget provides funding for two trooper classes to maintain trooper strength in the field.
- In keeping with the recently negotiated 3-year agreement to improve recruitment and retention, the FY 2020 budget includes \$21.3 million to fund a 5 percent cost of living increase and salary increment for sworn officers.
- As part of the Violence Intervention and Prevention Program, the Maryland State Police will receive \$466,600 in FY 2020 to create a unit specially trained and equipped to address crimes involving firearms.
- The FY 2020 budget includes more than \$7.1 million across two years for veterans cemetery improvements, including 17 new positions and contracts to raise and realign headstones. In addition, the budget provides funds to open a new Veterans Benefits Service Office in Annapolis serving Anne Arundel County veterans.
- New this year, the FY 2020 budget includes \$3 million to implement additional security measures at houses of worship at risk of hate crimes.
- \$3 million is provided across two years for the Office of the Public Defender to continue progress toward meeting attorney caseload standards, which are expected to meet goals for the first time since they were established in 2005.

Local Law Enforcement

- In FY 2020, Police Aid to Local Governments is funded at \$74.8 million and Local Law Enforcement Grants are funded at \$47.7 million. New this year are \$3.6 million for Baltimore City Safe Streets and \$1.9 million for Violence Intervention and Prevention programs, which include Baltimore City LEAD, Baltimore City State's Attorney's Office, and Baltimore City Strategic Decision Support Centers.

- In FY 2020, Governor Hogan is launching a comprehensive set of initiatives totaling nearly \$13 million to address violent crime in Baltimore City. This program strategically addresses crime through increased enforcement efforts and collaboration as well as additional support for prosecution and witness protection.

Environment and Natural Resources

- The fiscal year 2020 budget continues Governor Hogan's commitment to fully fund transfer tax programs – including Program Open Space – with no diversions of special fund revenue to the General Fund.
- Programs funded by the transfer tax receive \$267.5 million, an increase of \$14.5 million from FY 2019. This includes repayment of past transfers totaling \$43.9 million, which provides additional support for state and local land preservation programs, Maryland Park Service operations, and capital maintenance and development projects in State Parks.
- The Chesapeake and Atlantic Coastal Bays 2010 Trust Fund receives \$53.6 million in FY 2020, marking the fourth year in a row that the Hogan administration has fully funded Bay restoration efforts.

Quality of Life

- In support of the state's efforts to restore the health of the Chesapeake Bay, the FY 2020 budget includes \$4 million in Bay Restoration Funds authorized by the Clean Water Commerce Act to purchase cost-effective nitrogen, phosphorus, or sediment load reductions.
- The governor's FY 2020 budget includes \$3.5 million in Payments in Lieu of Taxes (PILOTs) for counties with the highest acreage of state-owned protected and preserved lands.
- For the third year in a row, \$2.5 million is provided to help young farmers acquire farmland to implement sustainable agricultural practices under the Next Generation Farmland Acquisition program.
- Governor Hogan is also proposing to double the tax credit for zero-emissions vehicles from \$3 million to \$6 million.
- The FY 2020 budget also includes \$200,000 to match county contributions toward efforts to control nuisance insects.

Energy Programs

- The governor's FY 2020 budget includes a total of \$20.2 million for renewable energy programs, \$13.7 million for energy efficiency programs, and \$2 million for the Jane E. Lawton Conservation Loan Program and the State Agency Loan Program. Included in this is \$3.2 million for a new federally funded State Buildings Energy Efficiency Grant Program.
- In FY 2020, the Maryland Energy Administration will begin executing the \$30.3 million settlement of the Alta Gas acquisition of Washington Gas Light Co. for the promotion of natural gas infrastructure.

Government and Infrastructure Improvements

- The governor's budget includes \$7.5 million to restore the balance in the Catastrophic Event Account to \$10 million, ensuring Maryland remains prepared for any adverse weather or emergency events.
- To promote good stewardship of state-owned assets, the Hogan administration is dedicating an additional \$2.5 million in FY 2019 and \$5 million in FY 2020 for critical maintenance and preventative maintenance projects, with an aim to reduce the instances of emergency maintenance projects at state facilities. To help expedite this work, four new positions are included for the Department of General Service's Critical Maintenance Program.
- The governor's budget provides \$6 million over two years for critical maintenance and facilities upgrades at state health facilities, and an additional \$1.1 million to fund the development of a health facilities master plan
- To enhance the state's cybersecurity efforts, the budget includes \$5 million to complete a state-wide cybersecurity status assessment to begin addressing critical areas of need.
- \$5 million in funding is being awarded to local governments and nonprofits for the 2020 census, which will fund marketing and other promotional efforts to encourage state residents to respond to the census. An additional \$1.5 million is provided to the Maryland Department of Planning to assist with census-related activities.
- In addition to \$9.7 million in the capital budget, the FY 2020 operating budget includes \$2 million to continue efforts to expand broadband internet access to rural communities.
- The FY 2020 budget includes an investment of nearly \$72 million to begin and continue strategic information technology development projects.

Maryland's Capital Budget

The FY 2020 capital budget totals \$5.2 billion. The capital budget funds the construction of buildings, infrastructure, and development of other long-term assets for the state. Governor Hogan's proposed capital budget launches a groundbreaking initiative to catch up on Maryland's long backlog of school construction needs. It emphasizes fixing and renewing aging buildings and infrastructure that have been long neglected. It provides needed investments in public services, higher education, environmental quality, economic revitalization, and cultural resources.

Most of the capital budget--\$3.3 billion--supports transportation projects, including roads and mass transit. These are funded from fuel taxes, other transportation-related revenues, and federal funds. Highlights of the transportation budget, which are discussed in greater detail in the next section of Budget Highlights, include \$1.7 billion for roads and highways, \$221 million for the Purple Line in the Washington area, and \$167 million in dedicated funding for Washington Metropolitan Transit Authority improvements.

The remaining \$1.9 billion of the capital budget, discussed in this section, covers education projects, environmental projects, and other facilities to support public services and communities throughout Maryland. Fifty-seven percent of state general obligation bond funding is directed to education.

A Fiscally Responsible Capital Plan

The FY 2020 capital budget proposes \$1.085 billion in new debt, an increase of less than 1 percent from last year. This is the amount recommended by the Spending Affordability Committee, and it will keep Maryland's debt levels well within the criteria used by the Capital Debt Affordability Committee.

The capital budget also uses almost \$200 million in general fund PAYGO. This provides a valuable and prudent one-time use for a portion of the state's one-time surplus. The PAYGO funding will be principally used for the Washington METRO transit system, community revitalization efforts, new school construction initiatives, and community college facility maintenance projects.

The full amount of state transfer tax revenues--\$217 million--is budgeted for its intended purposes of funding Program Open Space and other land preservation, recreational facility, and related uses. Moreover, \$44 million from state general funds are provided to repay part of the funds that were diverted from Program Open Space dating back to FY 2006. The paybacks will continue through FY 2029.

Other sources of capital funds include federal grants, revenue bonds issued by the University System of Maryland and other, legally-dedicated special funds.

Maryland's Capital Budget

K-12 Education

The FY 2020 capital budget for school construction totals a new record level of \$438 million. FY 2020 begins a new initiative to significantly reduce the state's backlog of school construction needs. The Building Opportunity Fund initiative will provide \$1.9 billion in new school construction funding over five years. This proposed new funding is in addition to the \$1.6 billion in public school construction funding currently included in the state's five-year Capital Improvement Program, bringing the total proposed state investment to more than \$3.5 billion over five years.

Legislation passed in the 2018 session created a ballot initiative to ensure casino revenues are used to provide additional funding for Maryland schools. Maryland's voters approved the ballot referendum. The referendum specifies "public school construction and public school capital improvement" as one of the targeted uses for this additional funding.

In FY 2020, \$65 million of the \$125 million in dedicated casino revenues will be used for school construction projects and a loan fund to assist local governments in meeting matching fund requirements. Beginning in FY 2021, funding for the Building Opportunity Fund initiative will come

from revenue bonds funded by casino gaming revenues.

The Building Opportunity Fund, along with traditional school construction dollars, will provide funding to cover more than 90 percent of the projects requested by local school systems from 2020 to 2024. The new construction projects are estimated to create more than 27,000 new jobs over the five-year construction period.

In addition, the budget allocates \$329 million in GO Bonds for school construction projects; and \$43 million in general funds for health and safety related projects at schools, including security improvements and heating and cooling system replacements.

Maryland's Capital Budget

Higher Education

Maryland's strong and diverse higher education system is a key to economic success. The capital budget includes \$325 million for higher education projects. Major building projects at state colleges and universities include:

- \$68 million to complete construction of the \$184 million new Science Facility at the Towson University,
- \$22 million to complete construction of the \$88 million Morgan State University Student Services Support Building, and
- \$12.5 million to continue construction of the University of Maryland College Park's new Public Policy Building.

Community colleges receive \$70 million, funding 16 projects at 11 community colleges. The list includes:

- \$22 million for the Anne Arundel Community College Health Sciences and Biology Building, and
- \$17 million for the Community College of Baltimore County Carol Eustice Center for Health Professions.

The budget's focus on facility renewal and upkeep extends to higher education projects. The budget includes \$63 million for the following infrastructure and capital maintenance projects at colleges and universities:

- \$28 million for facility renewal projects across the University System of Maryland's 11 campuses,
- \$13 million to replace electrical systems at the University of Maryland Baltimore,
- \$10 million for deferred maintenance at Morgan State University,
- \$4 million for utility upgrades at the University of Maryland-Baltimore County,
- \$3.8 million for campus infrastructure upgrades at St. Mary's College of Maryland,
- \$3.8 million of facility renewal projects at local community colleges, and
- \$1 million for flood protection at the University of Maryland-Eastern Shore.

The capital budget also provides \$9.6 million for projects at four private institutions: The Johns Hopkins University in Baltimore City, Stevenson University in Baltimore County, and Hood College and Mount St. Mary's University in Frederick County. Another \$6 million completes the state's commitment to Stevenson University's redevelopment of the former Rosewood property.

Environment, Natural Resources, Energy, and Land Preservation

Maryland has committed a significant portion of its capital budget to protecting its natural resources. Environmental projects total approximately \$479 million in FY 2020 authorizations, broken down as follows:

- \$233 million for protecting the Chesapeake Bay and the quality of water for Marylanders through various programs,

Maryland's Capital Budget

- \$195 million to meet the goals of land preservation programs such as the Agricultural Land Preservation Program, Program Open Space, and Rural Legacy--marking the second year in a row that all state property transfer tax revenues are fully dedicated to their intended purposes of land preservation and recreation,
 - \$127 million for the Water Quality Revolving Loan Fund,
 - \$70 million for the Bay Restoration Fund,
 - \$34 million for the Drinking Water Revolving Loan Fund and water supply assistance to local governments,
 - \$15 million for the Septic System Upgrade Program,
 - \$9 million from Maryland Environmental Service for water quality and utility projects at state facilities, and
 - \$9 million for the Maryland Agricultural Cost-Share Program in order to further prevent nutrient runoff.
- \$9 million for other University of Maryland Medical System projects,
 - \$9 million for the Community Health Facilities Grant Program and Federally Qualified Health Centers, which will help fund 11 projects for community-based primary and preventive care, behavioral health, and disability services,
 - \$5.5 million to the Maryland Hospital Association to assist nine private hospitals in eight jurisdictions,
 - \$3 million for other local hospital projects, and
 - \$2 million for recovery homes to help recovering substance abusers remain drug-free--\$1 million each in the Department of Health and the Department of Housing and Community Development.

Healthcare and Vulnerable Marylanders

The capital budget devotes \$86 million toward hospitals and other healthcare resources as follows:

- \$56 million to construct the University of Maryland Capital Region Medical Center in Prince George's County--completing the \$208 million state commitment to the project,

Public Safety

The capital budget includes \$104 million for projects related to public safety. \$30 million continues the development of the Statewide Public Safety Communication System ("700 megahertz" system). \$23 million continues demolition of the antiquated and dangerous Baltimore City Detention Center. In FY 2021, planning begins on a new Baltimore Treatment Center to be constructed on part of the site. Other public safety projects include:

- \$9 million to complete construction of a new State Police barracks in Cumberland,
- Four local jail projects totaling \$8 million, and
- \$2.2 million to fund renovations to house the Special Operations Group – an intergovernmental law enforcement team focused on reducing violent crime in Baltimore City.

Maintaining Public Assets and Modernizing State Services

The capital budget includes \$180 million for a wide range of improvements to government facilities or projects that provide services to citizens.

Maryland's Capital Budget

The maintenance and upkeep of Maryland's public buildings and infrastructure have been underfunded for decades. The result is poor conditions for customers and employees; unnecessarily high costs for repairs and upkeep; disruption to state services; and in some cases, health and safety issues. The capital budget includes substantial increases in facility renewal and infrastructure funding, including:

- \$35 million for state facility renewal projects managed by the Department of General Services, including roof replacements and heating and cooling upgrades,
- \$15 million for utility projects - \$6 million at state parks and \$9 million at other state facilities,
- \$11 million for critical maintenance projects at state parks and forests, and
- \$6 million to replace underground utilities at the State House complex.

The budget includes building and renovation projects to provide modern facilities for ongoing state functions, for example:

- \$24 million for the National Guard maintenance facilities in Havre de Grace,
- \$12 million to complete the Department of Agriculture's Animal Health Laboratory in Salisbury, and
- \$2 million in design funds to renovate an existing state building for the District Court in Baltimore City.

Economic Development and Jobs

The capital budget includes \$170 million for community revitalization and housing projects administered by the Department of Housing and Community Development and \$42 million for other projects to improve downtowns and promote tourism and the arts.

Project C.O.R.E. (Creating Opportunities for Renewal and Enterprise in Baltimore City) is a multi-

year initiative to address blight in Baltimore. The first installment of Project C.O.R.E. funding provided \$75 million and accomplished the clearance or demolition of 4,000 blighted properties. The FY 2020 capital budget includes \$19 million to initiate a second wave of Project C.O.R.E. funding, which will total \$48 million over four years. In addition, the Capital Improvement Plan includes \$5.5 million in FY 2020, plus \$10.5 million over the next three years, for local strategic demolition projects outside Baltimore City.

Maryland has established 149 Opportunity Zones to leverage federal tax credits to attract new economic investment. The budget includes \$56.5 million in capital and operating funding to help attract new businesses and development and invest in Maryland's workforce. As part of this initiative, the Department of Housing and Community Development has up to \$32 million available in its capital programs to support eligible projects in Opportunity Zones.

The FY 2020 budget includes \$10 million to begin a new initiative to extend broadband data access to the state's rural areas. The five-year Capital Improvement Plan for this initiative totals \$46 million.

The budget provides assistance to revitalize communities across Maryland and support their growth. Project locations include Hagerstown, Cumberland, and Frederick. State funding will be provided for projects at the Maryland Zoo and Lexington Market, both in Baltimore City, and the Patterson House and Museum in Calvert County, which will attract visitors and create jobs. The state continues to demonstrate its dedication to history, culture, and the arts by supporting projects for the Maryland Historical Society, Historic Annapolis, and seven museums and theater groups. Finally, the budget reserves \$15 million to fund local projects selected by the members of the General Assembly.

Capital Budget for Transportation

The proposed FY 2020 capital budget for Maryland Department of Transportation projects totals \$3.3 billion. The budget includes funding to build and maintain the entire range of Maryland's transportation infrastructure, including roads and bridges, motor vehicle facilities, mass transit networks, mobility services, the Port of Baltimore, and BWI Thurgood Marshall Airport, as well as various small airports.

The transportation capital budget is primarily funded through state sources and federal aid. The state sources consist of taxes, fees, and bonds. In FY 2020, state sources comprise \$1.6 billion of the capital budget, or 49.5 percent, and federal aid for highways, mass transit, aviation, and port security makes up \$1.2 billion, or 36.5 percent. Other sources of funding, including user fees and federal funds received directly by WMATA, comprise \$465 million or 14 percent.

State Highway Administration (SHA)

SHA projects constitute \$1,688.6 million, the largest share of the FY 2020 capital program for transportation. The SHA capital program is funded with \$842.6 million in state revenue and \$651.3 million in federal aid. Major economic projects by region include:

Suburban Washington Region

- \$40 million to support the Traffic Relief Plan along I-270 and I-495 in Frederick, Montgomery and Prince George's counties,
- \$32.2 million to continue the congestion mitigation project along I-270 in Frederick and Montgomery counties,
- \$31 million for a new interchange on MD-4 at Suitland Parkway in Prince George's County,
- \$23.1 million to construct a new interchange on I-270 at Watkins Mill Road in Montgomery County,
- \$14.8 million for the interchange at MD-85 and I-270 in Frederick County,
- \$10 million to relocate MD-97 around Brookville in Montgomery County,
- \$10 million to finish a new interchange on MD-210 at Kerby Hill/Livingston Roads in Prince George's County, and
- \$3.9 million to reconstruct the MD-180 bridge over US-15/US-340 in Frederick County.

Baltimore Region

- \$35.2 million to widen MD-32 west of MD-108 in Howard County,
- \$31.6 million for construction of new congestion relief on I-695 in Baltimore County,
- \$17.3 million for BRAC improvements near Ft. Meade in Anne Arundel County,
- \$16.7 million for various bridge and widening improvements along I-695,
- \$8.5 million to finish improvements to MD-30 in Hampstead in Carroll County,
- \$6.9 million for replacing the US-1 bridge over CSX in Baltimore County, and
- \$3.6 million to finish BRAC improvements near Aberdeen Proving Ground in Harford County.

Capital Budget for Transportation

Southern Maryland

- \$14.3 million to finish widening MD-2/4 (Phase 2) in Prince Frederick in Calvert County,
- \$10.3 million to widen MD-5 to Point Lookout State Park in St. Mary's County,
- \$7.8 million to finish a new interchange just north of Charles County along MD-5 at MD-373, and
- \$2.9 million for intersection improvements at Abell/Moakley streets in St. Mary's County.

Western Maryland

- \$15.5 million for constructing US-219 improvements in Garrett County, and
- \$13.2 million to finish the widening and rehabilitation of the I-81 bridges over the Potomac River in Washington County.

Eastern Shore

- \$19.4 million to finish the last segment of US-113 in Worcester County and
- \$3.1 million to finish the MD-273 bridge over Big Elk Creek in Cecil County.

SHA's budget also includes \$100 million for two programs to construct stormwater mitigation measures as part of Maryland's Watershed Implementation Plan.

Maryland Transit Administration (MTA)

MTA's FY 2020 capital budget totals \$713.4 million, with \$490.3 million, or 68.7 percent, coming from federal sources. Major projects include:

- \$221 million for Purple Line Transitway construction in the Washington area
- \$83.2 million for Metro overhauls and vehicle replacements, \$49.3 million for bus procurements, \$45.7 million for rail safety and systems upgrades, \$39.8 million for the Kirk bus facility replacement, and \$25.2 million for mid-life overhaul of light rail cars in the Baltimore area,

- \$49.8 million for MARC commuter rail improvements on and \$31 million for coach and locomotive overhauls and replacements to the Camden, Brunswick and Penn lines, and
- \$29.4 million is provided for capital assistance to a variety of locally operated transit systems around the state.

Washington Metropolitan Area Transit Authority (WMATA)

WMATA's FY 2020 capital budget totals \$450 million. This includes \$99.9 million in federal funds that go directly to WMATA. Maryland's state funding includes \$167 million in dedicated funding. The other state funding is mostly for the WMATA capital improvement program and Maryland's match to the Passenger Rail Investment and Improvement Act safety program, assuming the continuation of that program through FY 2024.

With this guaranteed, bondable revenue source in place, WMATA will be able to make critical safety and reliability improvements to its transit system. The customer experience will also improve as enhancements to the transit system are realized. Rail passengers will soon enjoy free wi-fi at every station, on-time performance will continue to improve as the aging fleet – both rail and bus – is replaced, and new bus shelters will provide riders with better protection from the elements.

Maryland Aviation Administration (MAA)

MAA's FY 2020 capital budget totals \$212.4 million and includes the following major projects for BWI/Thurgood Marshall Airport:

- \$46.4 million for improvements to Concourse A,
- \$31.9 million for infrastructure improvements to accommodate a new aircraft maintenance facility,
- \$21.7 million for improvements to the midfield cargo facility, and
- \$11.7 million for shuttle bus replacements.

Capital Budget for Transportation

Maryland Port Administration (MPA)

MPA's FY 2020 capital budget totals \$153.4 million, including:

- \$77.1 million for projects related to dredging for the Port of Baltimore,
- \$23.2 million for the Seagirt Marine Terminal Modernization project with a BUILD grant, and
- \$6 million for the reconstruction of berths at various terminals.

The Secretary's Office (TSO)

TSO's FY 2020 capital budget totals \$57 million and includes:

- \$10.1 million in the form of a federal grant for the study of MAGLEV between Washington and Baltimore,

- \$4 million for an Innovative Storm Water Management Pilot,
- \$3.8 million for the Bikeways Network Program,
- \$1.6 million for a Port of Baltimore Incentive Program.

Motor Vehicle Administration (MVA)

MVA's FY 2020 capital budget totals \$43.9 million. \$6.3 million of this funding is for building improvements, and \$25 million is for upgrading MVA's enterprise-wide IT system, Customer Connect.

Primary and Secondary Education

Foundation Program: The foundation program is the largest single local aid program and is fully funded in FY 2019. Under the program, aid is distributed on the basis of public school enrollment and equalized for taxable wealth so that jurisdictions with smaller per pupil tax bases receive proportionately more aid. Additional funding of \$11.8 million is provided to ensure that every jurisdiction receives at least \$100,000 more formula funding in FY 2020 than in FY 2019.

Compensatory Education: The compensatory education program is directed toward the education of children who are economically and environmentally disadvantaged. The Bridge to Excellence Act directs the aid according to the number of students receiving free or reduced price meals.

Special Education: Aid for special education is provided to school systems to help cover the additional cost of educating students with needs for special services. These funds are allocated on a formula basis for students in local schools and to support children placed in nonpublic special education schools. The FY 2020 budget reflects the state's share at 70 percent of the cost of nonpublic placements over a certain amount.

Student Transportation: This program provides aid for the transportation of students to and from school, including a specific grant aid for transporting special needs students.

Other Education Aid: Other education aid includes \$311 million to support students with limited English proficiency, \$125 million in operating funds for school construction, and \$43.7 million for the Guaranteed Tax Base program, which provides grants to those subdivisions that have less than 80 percent of the state-wide average wealth per pupil and that provide local education funding above the local share required by the foundation program.

State Retirement System: In addition to direct aid for education, the state pays a portion of pension and retirement benefits for teachers, principals, administrators, and other eligible employees on behalf of each board of education.

Libraries

Library Aid Formula: The state supports the current operating and capital expenses of local library systems. Aid is distributed on the basis of population and is equalized so that jurisdictions with smaller per capita tax bases receive more aid per capita. During the 2016 Legislative Session, legislation passed increasing the per capita calculation for library aid and phasing in this change through FY 2022.

State Library Network: The library network program provides aid for the State Library Resource Center at the Enoch Pratt Central Library in Baltimore and the three regional resource centers in non-metropolitan areas. During the 2016 Legislative Session, legislation passed increasing the per resident calculation for library network funding and phasing in this change through FY 2022.

State Retirement System: In addition to direct aid for libraries, the state pays the entire cost of pension and retirement benefits for eligible librarians and other employees on behalf of the library systems. There is an exception for Montgomery County where librarians have elected to remain in the Montgomery County Retirement System rather than in the state system, in which case the state remits the lesser of the cost of retirement for the county or the state systems.

Community Colleges

Current Expense Formula: The current expense formula bases funding on a percentage of the appropriation per FTE student at four-year public higher education institutions.

Unrestricted Grants and Special Programs: The budget includes \$6.7 million for small community colleges, \$6.0 million to fund a statewide program for out-of-county or out-of-state students in regional or health manpower shortage programs, \$5.2 million for the English for Speakers of Other Languages program, and \$375,430 for other out-of-county and out-of-state student agreements.

Optional Retirement: The state distributes funds directly to the community colleges to reimburse them for the employer cost of members of the Optional Retirement System, a vendor operated, defined contribution plan offered as an alternative to the state's defined benefit pension and retirement systems.

State Retirement System: In addition to direct aid to community colleges, the pays the entire cost of pension and retirement benefits for eligible teachers, administrators, and other employees on behalf of each community college.

Police, Fire, and Public Safety

Aid for Police Protection: The state gives grants to the subdivisions to help provide for police protection services, which are distributed through a formula based on population and population density. Grants are shared between counties and municipalities on the basis of expenditures, and municipalities receive an additional grant based on the number of police officers.

Aid for Fire, Rescue, and Ambulance Systems: Counties and municipalities receive grants for fire, rescue and ambulance equipment and capital renovations.

Special Grants: The budget includes funding to Baltimore City for the War Room, Safe Street program, a \$2 million grant to the Baltimore City State's Attorney's office, and \$9.2 million in general support for the City's police department. In Prince George's County, funds are provided for drug enforcement, violent crime grant programs, and \$1.3 million for the State's Attorney's office. Additional general funds are provided for STOP Gun Violence grants, the domestic violence unit, the Internet Crimes Against Children program, police recruitment and retention grants, and the Maryland Criminal Intelligence Network. Also included are special funds awarded by the Vehicle Theft Prevention Council and grants from the state's telephone surcharge for the "911" emergency system.

Transportation

Highway User Revenues: The motor vehicle fuel tax, motor vehicle registration fees, a share of the motor vehicle titling tax, and a share of the corporate income tax are designated as Highway User Revenues (HUR). The state shares these revenues with the counties and municipalities to help fund the construction and maintenance of local roads. Baltimore City receives 8.3% in FY 2020. The remaining counties and municipalities receive 3.2% and 2% respectively in FY 2020. The distribution is made according to a formula based on locally maintained road mileage and vehicle registrations.

Elderly and Disabled Transportation: Grants are provided to fund local transportation services for elderly and disabled persons, with 60 percent of the money distributed equally among the counties and Baltimore City and 40 percent based on the distribution of the elderly and disabled populations. In addition, funding is included to help defray the cost of providing paratransit services required under the federal Americans with Disabilities Act.

Miscellaneous

Local Health Grants: This program funds a wide range of preventive health services such as family planning, maternity and child care assistance, cancer control, and AIDS education and outreach.

Disparity Grants: Grants are distributed to subdivisions whose per capita income tax revenues are less than 75 percent of the statewide average. Beginning in FY 2011, funding to any county is not required to exceed the FY 2010 grant. The formula was modified during the 2013 legislative session to add a minimum grant amount based on the local tax effort of eligible counties and raises from 2.4% to 2.6% the local income tax rate required to be eligible to receive a grant. Legislation passed in 2016 increased the minimum grant from 60% to 67.5% for jurisdictions with a 3.2% tax rate.

Program Open Space: This program provides for the acquisition and development of parks and other conservation areas.

Retirement Contributions

Under this statutory program the state pays, on behalf of each county board of education a portion of pension and retirement benefits for eligible teachers, principals and other eligible school employees. The state pays the entire cost of pension and retirement benefits on behalf of community colleges and the library system. There is an exception for Montgomery County where librarians have elected to remain in the Montgomery County Retirement System rather than in the state system, in which case the state remits the lesser of the cost of retirement for the county or the state systems.

There is no distribution of funds directly to the subdivisions, but rather lump sum payments are made to the state's retirement board. Each subdivision's share of the state's retirement appropriation, however, can be estimated based on county-by-county salary data.

FY 2018 - 2024 FORECAST

General Fund Summary

All projections of revenues and expenditures are based on existing State laws and the current economic outlook unless otherwise noted. Revenues from Video Lottery Terminals and spending from the Education Trust Fund (ETF) are not included in the General Fund forecast as they are considered Special Fund revenues and expenditures, respectively. Revenues from Video Lottery Terminals deposited into the Education Trust Fund are expected to total \$528 million in FY 2020 and increase to \$537 million in FY 2024.

Revenues - Projections are based on the December 2018 Board of Revenue Estimates (BRE) report. Overall, the BRE expects revenues to increase by \$697 million, or 4.0%, in FY 2019 before increasing \$553 million, or 3.1%, in FY 2020. Outyear revenue growth is estimated to be 2.9%, 3.1%, 3.6% and 3.6% for FY 2021 through 2024, respectively reflecting moderate and consistent revenue growth. FY 2020 is the first year that revenues are reduced to reflect the volatility of revenue associated with non-withholding income. This "revenue volatility" provision is phased in over time which depresses revenue growth through FY 2022. The forecast does make several assumptions regarding revenue. In FY 2019, approximately \$50 million will be transferred to the General Fund relating to settlement revenue from a Medicaid IT project. In FY 2020, revenues assume \$35 million in business filing fees due to a delay in legislation and \$9 million more in Lottery revenue. Beginning in FY 2020, and throughout the forecast period, revenues are adjusted to reflect the Administration's proposals for tax relief. Specific proposals include a 529 Contribution Deduction, Student Interest Loan Deduction, Retirement Income, Hometown Heroes, Parental Leave Act, and More Jobs for Marylanders – Opportunity Zones. These proposals are phased in over time. The forecast also assumes tax credit reimbursement in each year of the forecast.

Expenditures - Expenditures are categorized by: general obligation bond debt service payments, local aid programs, entitlements, State operations, and Capital (PAYGO) projects. Overall, the budget for FY 2020 increases by \$1.6 billion or 8.9% compared to FY 2019. The FY 2020 budget fully funds every mandate passed by the legislature. Debt service payments total \$287 million in FY 2020, a decrease of 0.3% compared to FY 2019. Debt service is the fastest growing category of expenditure in the out-years growing by an average of almost 15.5% per year and reaching \$511 million in FY 2024.

General Fund Aid to Local Governments is expected to increase by \$386 million, or 5.7%, in FY 2020. K-12 education is funded at \$6.3 billion in FY 2020, a historic level. There is \$125 million in new funding as a result of the Constitutional Amendment relating to the ETF. Other local aid also experiences an increase due to mandates and a crime initiative in Baltimore City. For FY 2021 through 2024, local aid, including education aid, is expected to grow by 4.3% annually. The forecast does reflect the Constitutional Amendment relating to the ETF being fully phased in as well as normal growth for education aid and community colleges. Funding for recommendations from the Commission on Innovation and Excellence in Education ("Kirwan Commission") are not included in the forecast.

Entitlements, including Foster Care Payments and Medicaid, are expected to increase 3.5% in FY 2020. Most of the growth is tied to increases in Medicaid from increased enrollment and provider payments, including Managed Care Organizations. Growth in entitlement spending for the FY 2020 through 2024 period will average 6.9% a year. The rate of growth in Medicaid accelerates in future years because of rate adjustments and an increase in the State share of the cost of the Medicaid expansion population. Growth in other entitlements is expected to be modest.

APPENDIX F

FY 2018 - 2024 FORECAST

Mandated State operations include funding for the legislative and judicial branches of government, St. Mary's College of Maryland and Baltimore City Community College, several scholarship programs, the Maryland School for the Deaf, Historic St. Mary's City Commission, and tourism/arts programs. Only about a quarter of the general fund budget is actually devoted to non-mandated, ongoing State operations. These include public safety, health, human services, and higher education. Out year budget growth in non-mandated State Operations and higher education is largely driven by increased employee costs including health insurance and retirement rates. Higher education institutions are expected to receive an average increase in State support of 4.0% per year for FY 2021 through FY 2024.

The fiscal year 2020 budget includes funding for a cost-of-living adjustment of 3% starting July 1, 2019. Increases for employee pay increments are included in the out-year forecast period. Other than health insurance and retirement rate contribution adjustments, no inflation has been included for the out-years.

The budget includes a net general fund deficiency appropriation of \$53 million for fiscal year 2019. The largest deficiency appropriation is in the Maryland Department of Health for provider payments and State employee salary expenses.

APPENDIX F

FY 2018 – FY 2024 FORECAST

Higher Education Fund Summary

Reporting of revenues and expenditures utilizes uniform standards of the National Association of College and University Business Officers (NACUBO) and the American Institute of Certified Public Accountants (AICPA). Standardized fund accounting facilitates comparisons with other public and private institutions. Financial accounting for non-profit education entities provides information about resources and obligations rather than the tracking of net income.

There are multiple fund classifications as to purpose and source: Current, Loan, Endowment, Annuity, Plant, and Agency. Only Current Funds, Unrestricted and Restricted, are considered in the operating budget appropriation process and utilized in the five-year projections. Unless "restricted" by an outside donor, grantor or contractor, all other funds support missions through single-year operations.

Tuition and Fees – FY 2020 undergraduate resident tuition rates are projected to increase by 2% at University System of Maryland (USM) institutions, Morgan State University and St. Mary's College of Maryland (SMCM). The FY 2020 budget also includes fee increases at some institutions. Tuition and fee revenues from FY 2021 through FY 2024 are projected to continue to increase by 2% per year. This plan expects non-residents to pay at least 100% of educational and general (E&G) costs per student. Similar relationships have been developed for part-time student rates.

State Appropriations –The State appropriation includes Higher Education Investment Fund (HEIF) special funds and general funds. There is a total of \$72.4 million in HEIF special funds in the FY 2020 budget. The FY 2020 budget provides a 4.2% increase to both USM and Morgan. USM and Morgan's budgets for FY 2021 through FY 2024 assume an average increase in additional State appropriations of 4% per year. Baltimore City Community College's FY 2020 State appropriation decreases by 0.4% from the FY 2019 level and is projected to grow by an average of 0.3% in the out years. SMCM's FY 2020 State appropriation under the statutory formula grows by 3.5%. Out years for SMCM reflect projected increases in the implicit price deflator (IPD) averaging 1.2% per year.

Grants and Contracts – Federal grants and contracts are expected to be flat and private gifts and State and local grants and contracts are projected to grow an average of 1.0% per year in the out years due to minimal growth in spending.

Other Unrestricted Funds - Sales and services of auxiliary enterprises are projected to increase 3% per year due to both the rates charged and the population served by dorms and dining halls. Sales and services of educational activities are projected to grow by an average of 2% annually. Other sources are projected to remain flat in the out years.

Transfers (to) / from Fund Balance - This category includes reserves and revenues from one year's operations being used for expenditures in another year. For example, it is common for fund balances to differ from actual year to current year due to the carryover of unfinished business because higher education uses accrual accounting versus the State's cash accounting.

Fund Balance – Most of the fund balances are from other than State-supported operations. For example, auxiliary enterprises are normally self-supported through revenues other than general funds. Operating "reserves" equivalent to outstanding debt are recommended to maintain favorable bond ratings. Finally, long-term facility renewal and replacement require a set-aside for future projects, even though no major uses are reported.

Restricted Funds – Restricted funds in total are assumed to increase by an average of 0.8% per year.

APPENDIX F

FY 2018 – 2024 FINANCIAL PLAN

Transportation Trust Fund Summary

The Maryland Department of Transportation's (MDOT) revenue and operating cost projections are based on a long-term "moderate growth" scenario for the nation's economy. The major trends and assumptions are as follows: bond interest rates are projected to fluctuate from 4.0% to 4.2% and inflation rates will vary from 2.2% to 2.5% annually. Normal business cycles are anticipated with moderate economic growth expected to continue for the next six years. There are no major changes in law, operating responsibilities or external events other than those changes enacted in the 2018 Legislative Session.

Revenues – Motor Fuel Tax is projected to total \$7.1 billion over the six-year period. This projection includes both the base rates on gasoline (23.5 cents per gallon) and diesel fuel (24.25 cents per gallon) and the revenue components provided by the Transportation Infrastructure Investment Act of 2013. The Consumer Price Index (CPI) effect is estimated to average 3.6 cents per gallon over the program period. The sales and use tax equivalent piece has been fully phased in and is estimated to average 10.6 cents per gallon. Growth in motor fuel usage is expected to average 0.6%, reflecting increasing fuel efficiency of vehicles and slower growth in vehicle miles traveled.

Motor Vehicle Titling Tax is projected to yield \$5.6 billion from the 6% of fair market value, less an allowance for trade-in, paid on the sale of all new and used vehicles as well as on new residents' vehicles. This revenue source follows the cycle of auto sales with periods of decline and growth. It is projected that this six-year planning period will follow a normal business cycle around an underlying upward trend. Motor Vehicle Registration, Miscellaneous and other fees are projected to generate \$4.0 billion based mainly on an average 1.5% biennial increase in revenues from vehicles registered. This amount also includes the rental vehicle sales tax.

Transportation's share of Corporate Income Tax revenues is expected to be \$1.2 billion. Federal Aid is projected to contribute \$6.5 billion for operating and capital programs, excluding the \$599 million received directly by Washington Metropolitan Area Transit Authority (WMATA). The majority of federal aid supports the capital program.

Operating Revenues are projected to provide a six-year total of \$3.0 billion. MDOT Maryland Transit Administration (MDOT MTA) revenues (\$1.1 billion) primarily include rail and bus fares. MDOT Maryland Port Administration revenues (\$337 million) include terminal operations, the World Trade Center, and other port-related revenues. MDOT Maryland Aviation Administration revenues (\$1.6 billion) include flight activities, rent and user fees, parking, airport concessions, and other aviation-related fees.

Bond Proceeds are assumed at \$2.9 billion from issuances in the six-year period based on the supporting net revenues of the Department. The remaining sources provide \$641 million from trust fund investment income, reimbursements, and other miscellaneous revenues.

Expenditures - Normal expenditure projections utilize CPI for growth unless otherwise noted.

Debt Service reflects payment cycles of the planned bond issuances as of fiscal year 2019 and thereafter. In fiscal year 2020, the budget for transportation business unit operations increases by approximately \$70 million (3.3%). The growth is due to higher costs related to funding standard operating cost increases in Maryland's transportation systems.

The capital expenditures shown are in agreement with the Department's six-year Consolidated Transportation Program (CTP). Capital expenditures also are directly related to the level of revenues available for bond sale coverage. The bond outstanding ceiling is controlled by legislation and is adjusted when and as appropriate.

New this year, the Maryland Metro/Transit Funding Act requires increased spending on WMATA, requires MDOT MTA's operating expenditures to increase by at least 4.4% for fiscal years 2020 – 2022, and requires additional MDOT MTA capital spending in fiscal years 2020 – 2022. There is a General Fund contribution of \$125 million in FY 2020 and \$167 million from FY 2021-FY 2024 for WMATA capital. The Budget Reconciliation and Financing Act of 2018 requires MDOT to use the five-year average annual rate of change in the operating expenses of the Department as the future growth rate assumption. This growth may not increase or decrease by more than 0.5% from the growth rate in the previous forecast. The Highway User Revenues Distribution Act of 2018 altered the funding of highway user funds from a revenue distribution to a capital grant and increased the percentage of grants for the locals for fiscal years 2020 – 2024.

Closing Fund Balances – The Department's goal is to transition to a \$175 million fund balance over the program period to accommodate working cash-flow requirements during the year.

APPENDIX I
RECOVERIES OF INDIRECT COSTS FOR FISCAL YEAR 2018 (\$)

¹ Expressed as a percentage of total recoveries.

² A single indirect cost recovery rate is negotiated for usage by all Executive Department agencies.

³ Separate recovery rates are negotiated for each of the agency's programmatic units.

⁴ The Department of Human Services utilizes a Federally Approved Public Assistance Cost Allocation Plan as required by OMB circular A-87 and does not have a fixed recovery rate.

⁵ The Department of Labor, Licensing and Regulation data is based on federally approved FY 2012 plan.

⁶ The Department of Public Safety and Correctional Services data is based on federally approved FY 2013 plan.

⁷ The State Department of Education has separate recovery rates, for each type of funding, that are approved annually by the U.S. Department of Education. Beginning in FY 2016, funding is included in MSDE's budget to allow reversion of federal attainment relative to the SWCAP.

⁸ The Department of Housing and Community Development data is based on federally approved FY 2010 plan.

⁹ Older rates are utilized due to the delay in finalizing proposals, the Department of State Police data is based on federally approved FY 2013 plan. MSP submits yearly requests for rates unlike others that are given rates three years out.

APPENDIX N

MAJOR INFORMATION TECHNOLOGY DEVELOPMENT PROJECTS

Major Information Technology Development Projects (MITDPs) are separate, budgeted projects spread throughout the State Budget. The individual MITDPs are identified separately within each program for those agencies with MITDPs. The MITDPs are presented separately in this section in a manner similar to the Capital Budget Program.

An MITDP is any information technology development project that meets one or more of the following criteria:

- a) The estimated total cost of development equals or exceeds \$1 million
- b) The project is undertaken to support a critical business function associated with the public health, education, safety, or financial well being of the citizens of Maryland
- c) The Secretary of the Department of Information Technology (DoIT) determines that the project requires the special attention and consideration given to a major IT development project due to the significance of the project's potential benefits or risks, the impact of the project on the public or local governments, the public visibility of the project, or other reasons as determined by the Secretary

Separate budget programs for information technology development spending are created during the budget cycle. The term "development" has been defined as follows:

- a) "Development" means all expenditures for a new information technology system or an enhancement to an existing system, including system planning, procurement, creation, installation, testing, and initial training
- b) "Development" does not include ongoing operating costs, software or hardware maintenance, routine upgrades, or modifications that merely allow for the continuation of the existing level of functionality
- c) "Development" does not include expenditures made after a new or enhanced system has been legally accepted by the user and is being used for the business process for which it was intended

Each information technology budget sub-program is based on spending for individual MITDPs. Individual project sheets are provided for each project. The aggregated costs of these projects equals the total proposed spending in the MITDP budget program for each agency.

For fiscal year 2020, all General Fund allowances are contained in the MITDP Fund financial agency (F50A01). General Funds will be appropriated in F50A0101 and transferred by DoIT to the agency major IT project program in accordance with the oversight responsibilities contained in State Finance and Procurement Article § 3A-309. Projected operations and maintenance expenditures, excluding the first year, are not reflected in reported amounts.

The cost of fiscal year 2020 Oversight Project Management (including all tiers of the oversight program) has been allocated to participating projects within the funding amounts indicated. DoIT and the participating agency will transfer funds at the end of the fiscal year to cover oversight expenses.

All MITDPs for the Maryland Department of Transportation are captured within the Capital Budget Program, and thus are not included in this section.

C80 - Office of the Public Defender

Project Title: Case Management Replacement

Appropriation Code: C80B0005

Sub-Program Code: 0000

Project Summary:

This project replaces the Office of the Public Defender (OPD)'s ten-year-old case management system (Prolaw). Prolaw no longer meets OPD's needs: It is slow and impedes productivity. It is rigid and cannot be adapted to fulfill new business needs. Its design cannot support real time data exchange, preventing OPD from revolutionizing its business practices by importing data currently entered manually. It fails state security requirements. It is unsupported and incompatible with current applications. It is inaccessible outside OPD's offices where OPD employees work. The FY 2020 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

OPD's core business function is the processing of cases. The volume of cases it handles in Baltimore City and in every county in Maryland cannot be handled without a case management system. This project is designed to support and enhance OPD's capability to manage the processing of these cases at every level: from initial intake, through representation, and ultimately to the generation of the statistics justifying OPD's funding. Replacing a failing system that is critical to OPD's ability to function with a one that enhances the Office's capabilities while reducing its costs serves OPD's mission, goals, and objectives.

APPENDIX N

C81 - Office of the Attorney General

Project Title: Case Management Replacement

Appropriation Code: C81C0001

Sub-Program Code: 0000

Project Summary:

This project replaces the Office of Attorney General (OAG)'s fifteen-year-old case management system (CTS) and miscellaneous other means of tracking case information. They no longer meets OAG's needs: They are inefficient and slow and impede productivity. They are rigid and cannot be adapted to fulfill new business needs. Their design cannot support real time data exchange, preventing OAG from revolutionizing its business practices by importing data currently entered manually. They are unsupported and incompatible with current applications. They are only somewhat accessible from outside OAG's offices where OAG employees work. The FY 2020 Allowance includes \$75,000 for oversight.

APPENDIX N

C98 - Worker's Compensation Commission

Project Title: Enterprise Modernization

Appropriation Code: C98F0002

Sub-Program Code: 1000

Project Summary:

This project is a modernization of a current aging and complex system, coupled with an Enterprise Modernization of WCC's business practices to achieve truly paperless administration of all provisions of Maryland Workers' Compensation Law. These outdated and inflexible systems are critical to the daily work of WCC employees. This project will enhance supported business processes and functions by a low-code platform which will nominally solve current challenges associated with lack of software coding resources and processes. Once the new system is implemented, employees will no longer have to juggle interactions with two, three, or more simultaneous applications in order to facilitate their workflow and complete tasking. The FY 2020 Allowance includes \$149,188 for oversight.

Program Strategic Goals:

WCC seeks to improve the effectiveness and timely delivery of services provided to WCC customers by the following: (1) maintaining the setting of 90 percent or more of all non-permanency hearings within 60 days of the date when issues are filed; (2) maintaining a conformance rate of at least 95 percent for the issuance of Commission Orders within 30 days after the conclusion of a hearing; and (3) maintaining an average of no more than 10 days between the hearing date and the first award issued by the Commission.

D38 - State Board of Elections

Project Title: Agency Election Management System (AEMS) Modernization Project

Appropriation Code: D38I0103

Sub-Program Code: 1500

Project Summary:

The Maryland State Board of Elections (SBE) has set out to redevelop the ballot functionality of the current legacy Agency Election Management System (AEMS) on a new platform. The AEMS Modernization project will provide all existing capabilities of the legacy system, add new capabilities, and ensure more user friendliness and flexibility. Additionally, the upgraded AEMS system will provide a more economical and sustainable platform and reduce risk due to better management control. It will also offer control over the changes to the application functionality and the system data. Project costs shown here reflect only PPR. The FY 2020 Allowance includes \$25,000 for oversight.

APPENDIX N

D53 - Maryland Institute for Emergency Medical Services Systems

Project Title: Statewide Emergency Management Communication System Upgrade

Appropriation Code: D53T0002

Sub-Program Code: 1100

Project Summary:

The primary purpose of this project is to upgrade the MIEMSS EMS radio communications systems and capabilities to meet current and future needs. Particular attention must be given to identifying single points of failure and eliminating these vulnerabilities. It is MIEMSS' goal is to have a highly reliable, next generation communications system which is built on a uniform platform, is IP-based, uses proven and scalable technology, and integrates with the State's public safety answering points (PSAPs). The upgrade plan shall: (a) allow for geo-diverse operations and be fully functional from any physical site including the locations from which MIEMSS currently operates, (b) have performance meeting or exceeding current capabilities, (c) retain current analog subscriber and base station infrastructure, (d) incorporate wired and wireless video technologies, (e) integrate with the State's planned 700 MHz communications system, and (f) include consideration of wireless broadband technologies.

D80 - Maryland Insurance Administration

Project Title: Enterprise Complaint Tracking System (ECTS)

Appropriation Code: D80Z0102

Sub-Program Code: 1200

Project Summary:

The MIA has identified the need to replace the current Enterprise Complaint Tracking System (ECTS) with a browser based document management technology that automates workflow by routing electronic documents and notifications across the organization, and enables on-line data entry, form creation, standard reports, ad-hoc queries and data exchange with internal and external systems. Project costs shown here reflect those for the PPR and PIR phases only.

APPENDIX N

E00 - Comptroller of Maryland

Project Title: Integrated Tax System (ITS)

Appropriation Code: E00A0402

Sub-Program Code: 0431

Project Summary:

The Integrated Tax System (ITS) project will replace the Agency's State of Maryland Tax (SMART) system, Computer Assisted Collection System (CACS) and other outdated tax processing systems and integrate with a robust data warehouse to both continue and expand revenue generating projects and provide enhanced reporting functionality. The integrated system will allow the Comptroller to efficiently administer all taxes and fees required by law. This includes the processing and collection of personal income tax and sales and use tax, the State's largest sources of revenue. Successful implementation will bring the Comptroller of Maryland (COM) a modernized system which makes use of current technologies and is supported by and adaptable to the mainstream IT workforce. Uniformity in processing across tax types will simplify compliance by taxpayers and allow for a more dynamic use of Comptroller staff. The FY 2020 Allowance includes \$250,000 for oversight and \$500,000 for IV&V.

Program Strategic Goals:

This project supports the primary mission of the COM – executive leadership for Maryland's financial management services through the fair and efficient collection of taxes, regulation of businesses, accurate forecasting and accounting of revenues and expenses, and the provision of technological services to State agencies. The ITS will allow for efficient tax processing and collection necessary to support this mission and the Agency's strategic goals: (1) provide public services in ways that achieve the highest level of individual and business customer satisfaction; (2) take advantage of existing and emerging IT applications to enhance business processes that currently use little or no technology, and improve the infrastructure for efficient implementation of these new technologies; and (3) vigorously enforce tax laws essential to the fair treatment of all taxpayers. Internal analysis has shown that the ITS will support, improve, and streamline nearly all COM business processes.

APPENDIX N

E20 - State Treasurer

Project Title: Financial Systems Modernization

Appropriation Code: E20B0102

Sub-Program Code: 1800

Project Summary:

The State Treasurer's Office must replace the core financial interface and insurance management system with a modern Treasury Management System and Insurance Management System. The current system will not be serviced beyond 2018 when it will reach end-of-service. The solution to replace the core financial system will be a scalable solution that can be leveraged across the state by other Agencies. Normalizing the data and solution to a centralized scalable solution will provide greater ROI and allow for streamlined maintenance. The FY 2020 Allowance includes \$63,967 for oversight.

E50 - State Department of Assessments & Taxation

Project Title: Strategic Enterprise Application Network (SEAN)

Appropriation Code: E50C0009

Sub-Program Code: 4100

Project Summary:

Project SEAN allows for the migration and/or redevelopment of its mainframe applications onto a Cloud Platform to develop user-centric applications for internal and external customers. It is a fully compliant section 508c, web-enabled solution that is accessible on multiple browsers and platforms, that will allow applicants to securely enter in their own tax credit application data and upload supporting documentation at any time of the day or night on any of web enabled device. It is compatible with assistive technology products such as screen readers and screen enlargement software to accommodate users with disabilities. The FY 2020 Allowance includes \$50,000 for oversight.

Project Title: Statewide Personnel System (SPS)

Appropriation Code: F50B0406

Sub-Program Code: P006

Project Summary:

The purpose of the SPS project is to obtain commercial off-the-shelf (COTS) solutions to replace the State's legacy personnel systems. The new SPS will have high "cultural impact" on agencies and their users statewide. Because of this, to help lower the overall project risk profile, a multi-phased implementation strategy has been adopted, breaking the large project into two smaller project phases. No funds for oversight.

Project Summary:

Phase 2 of the CCU IT Modernization Project will support operations and maintenance for the initial implementation in addition to improving customer service and operational efficiencies for new capabilities. The Operations and Maintenance was not funded in the initial project which consists of several new components such as the primary Debt Collection System (FICO Debt Manager), multiple Bank of America payment transaction systems, document management and 25+ operational interfaces with State agencies. The FY 2020 Allowance includes \$310,060 for oversight.

Project Title: Enterprise Budgeting System (EBS)

Appropriation Code: F50B0406

Sub-Program Code: P010

Project Summary:

In 2005, DoIT commissioned the Statewide Application Risks Assessment (SARA) of 12 legacy statewide systems, including those supporting human resources, timekeeping, benefits, budgeting, purchasing, accounting, central collections and payroll. Three of those systems were assessed as high risk - human resources, budgeting and timekeeping. The high risk factor was assessed because these systems were at the end of their useful lives and based on old technologies, with a recommendation for replacement. Project costs shown here reflect those for both the PPR and PIR phases.

Project Title: Statewide Grant System

Appropriation Code: F50B0406

Sub-Program Code: P010

Project Summary:

The Governor's Grants Office provides resources, training, research, and guidance to state agencies, local governments, nonprofit organizations, businesses, and academia on all aspects of federal grants and federal funds. Currently, there is no statewide grants management system. Tracking of federal grants relies on manually gathering information across disparate federal, state, local, and non-profits. Financial performance and tracking also relies on self-reporting by the different state agencies and other levels of government, that all have different levels of monitoring and systems in place. No funds for oversight.

Project Title: Enterprise Solutions Planning Initiative (ESPI)

Appropriation Code: F50A0101

Sub-Program Code: F009

Project Summary:

This project will provide integrated planning support to numerous IT solutions requests received across multiple agencies. This ITPR combines the planning activities that traditionally have occurred in siloed projects in order to assess Enterprise needs. The proper planning for these requests will be critical in engaging agencies with common needs and data, developing appropriate strategies and architecture, leveraging process improvements, identifying acquisitions, and determining technologies and systems for implementation. Individual agency planning ITPR's will no longer be submitted because large upfront planning to document all project requirements is no longer desirable in an agile environment. No funds for oversight.

Program Strategic Goals:

The goal is to: 1) Centralize the planning for ITPRs within DoIT; reduced number of planning ITPRs and the management of planning dollars through minimal sources, 2) Ensure solutions are scaled at the appropriate level; enterprise modeling and the reduction of duplicative systems, 3) Support for the lean agile approach in managing and executing solutions, 4) Influence common modeling, designing, and coding practices for systems architecture, 5) Ensure priority solutions/needs are addressed in a timely process and appropriately funded and; 6) Meet the needs of State agencies objectives to align with the Statewide IT Master Plan.

Project Title: Statewide Voice over IP (VoIP) Phone Services Transition Project

Appropriation Code: F50A0101

Sub-Program Code: F010

Project Summary:

This project is a modernization of the State's current voice services infrastructure. Over the last several years the telecommunications industry Public Switched Telephone Network (PSTN) has been transitioning from a traditional Time Division Multiplexing (TDM) technology to an IP-based infrastructure. DoIT has begun to transition the State's voice network services to IP in concert with the transition of the PSTN. The transition shall include the majority of telephone services utilized throughout the State today. In addition DoIT will replace and/or retrofit its multi-agency telephony system(s) in order to ensure that the systems are compatible with the changes in the telephone network, meet the State's reliability requirements, as well as enhance the State's ability to deliver constituent services across multiple communications channels. The FY 2020 Allowance includes \$250,000 for oversight.

Project Title: eMaryland Marketplace

Appropriation Code: F50A0101

Sub-Program Code: F013

Project Summary:

DoIT has engaged in the implementation of a Statewide Enterprise Procure-to-Pay system and replacement of ADPICS solution. This single statewide procurement system will provide a user-friendly portal for both suppliers and end-users to do business with the State of Maryland. Additionally, an end-to-end procurement system will increase transparency and accountability on purchases, improve customer service, decrease cycle times and reduce "maverick" spending and operating cost. Maryland will have an "eProcurement cloud" for strategic sourcing, contract management and procure-to-pay solutions for use across all agencies and local political subdivisions. The system is a complete procure-to-pay solution, providing support for all procurement-related processes and system requirements, including: sourcing, receiving, vendor registration and management, solicitation, quotes, accounts payable, government-to-business punch-outs, and requisitioning. BuySpeed also has the flexibility to adapt to multiple third-party systems, making it easy to fully integrate the eProcurement solution with any financial system. As a result, users gain broader visibility into their organization's budget spend, allowing them to make data-driven procurement decisions. The FY 2020 Allowance includes \$150,000 for oversight.

Program Strategic Goals:

This initiative is cross cutting and supports multiple agencies. The State has a pressing and permanent need for clear, accurate, and detailed budget and accounting records. In order to provide a standard framework for managing integrations to financial systems, the project has developed a comprehensive Financial System Integration, designed to provide consistency in accounting functions, standard data formats, and integration using industry accepted standards.

Appropriation Code: F50A0101

Sub-Program Code: F012

Project Summary:

The Department of Public Safety and Correctional Services (DPSCS), and the Department of Information Technology (DoIT) are looking to implement a Drone Detection and Response System to warrant against unlawful entry of contraband into the State of MD Prison System. This Project is a two (2) phase approach, Phase 1 is for a sole source contract to get a SME to write the requirements for the RFP. Phase 2, is to procure a vendor who will deliver and implement a system. This implementation is for only 2 pilot sites in Hagerstown.

F50 - Information Technology, Department of

Project Title: ONE Portal
Appropriation Code: F50A0101
Sub-Program Code: F014

Project Summary:

Maryland currently has over 1,000 forms online spread across state agency web sites. Many of these forms are only available for download, print, and people are then required to mail them back in to each respective agency. DoIT is planning to convert these forms to electronic forms and allow people to fill and submit them online, whether it's on a home computer or their mobile phones and tablets. DoIT plans to convert up to 100+ of these forms during the first year of the project, with the remaining spread between the second and third year of the project. After people submit the paper-based applications via mail, many agencies are utilizing personnel to either manually scan or type the application data into outdated state legacy applications and databases. Many of these applications are expensive to maintain and present cyber security risks since they still utilize outdated platforms and technologies. As part of the effort, DoIT will collaborate with state agencies to convert them to online applications hosted in a FedRAMP-compliant government cloud that will also interface directly with the ONE Portal. This will allow users to seamlessly submit forms online and have the data sent to the correct agency systems and databases. The FY 2020 Allowance includes \$50,000 for oversight.

G20 - State Retirement and Pension System

Project Title: Business Process Reengineering and Support Technology (MPAS-3)

Appropriation Code: G20J0102

Sub-Program Code: 4001

Project Summary:

Beginning in FY 2018, the Agency will reengineer the business processes in its Retirement Administration and Finance divisions. This initiative will examine the flow of activity through the Agency, improving efficiency and streamlining process flow, including those between the Agency and members / employers it serves. A public pension industry process-consulting contract will be awarded to obtain expertise and leverage experiences of peer pension funds. Where appropriate, technology will be selectively acquired and/or adapted to support re-defined internal business processes and external relationships. The Maryland Pension Administration System (MPAS), a custom-developed system, along with several applications based around commercial software packages, will be adapted to reengineered business operations. The MPAS strategy initiated in 2005 envisioned three phases: MPAS-1 to replace the mainframe Legacy Pension System, MPAS-2 to cleanse data and improve data integrity, and now MPAS-3 to reengineer business operations, adapt existing programs, and acquire new technology to support those operational changes. The FY 2020 Allowance includes \$313,121 for oversight.

Program Strategic Goals:

The Agency is primarily focusing on creating operational efficiencies, with long-planned extension of transactional functions to members / employers over the Internet. Technology will support or facilitate business operational changes. Many employer functions are already addressed in existing automated programs – these programs will be consolidated onto a new employer portal. By contrast, member business is currently transacted using paper form submissions, batch data entry, and hard copy output mailed to the member. Therefore, the strategic goal for member relations is to extend online real-time viewing of existing records, along with online transactions, to the membership over the Internet. The last strategic goal is to create interfaces among existing Agency applications that were developed and implemented in stand-alone mode, further improving operating efficiency.

Project Title: Computerized Hospital Record & Information System (CHRIS) formerly Statewide Electronic Health Records (EHR)

Appropriation Code: M00A0108

Sub-Program Code: A806

Project Summary:

MDH plans to modernize its hospital information management system. The intent is to: 1) Acquire Subject Matter Experts (SMEs) to conduct an analysis of the existing Health Management Information System (HMIS). 2) Have the SMEs perform a Needs Assessment identifying requirements for an internet-based COTS EHR HMIS, 3) evaluate other states that have implemented an internet-based COTS EHR HMIS. 4) Produce a States Evaluation Report identifying systems that could be considered a good fit for MDH. Reports must include implementation and recurring costs incurred. 5) Perform a Gap Analysis comparing MDH EHR HMIS requirements against systems that have been implemented in other states, including the hardware and infrastructure needs of MDH, and assessment of staff requirements. 6) Create RFP identifying mandatory requirements, deliverables and milestones of an internet-based COTS EHR HMIS. The FY 2020 Allowance includes \$200,000 for oversight.

Program Strategic Goals:

In addition to maintaining current revenue patterns, the major goals of the project are to replace an aging legacy system with a modern hospital information management system that will improve operational efficiency, hospital planning, evaluation and accreditation, patient care and safety, and data security as well as reduce the cost of administering a large multi-hospital system. Will enable eligible professionals, hospitals and Local Health Departments to submit public health data to MDH electronically and to support MDH program goals to increase the transition from paper to electronic reporting.

Project Title: Integrated Electronic Vital Records Registration System

Appropriation Code: M00A0108

Sub-Program Code: A807

Project Summary:

This project will modify the code for the existing California Integrated Vital Records System (Cal-IVRS) to Maryland's specifications and port it to run on the MD Think platform. This integration will support the existing user accounts that are currently in use at all Maryland medical facilities and funeral facilities. The integrated system will support the export of new records in specified formats for electronic transfer to the National Center for Health Statistics. It will also support the sending of social security numbers to/from the Social Security Administration. The system will provide for restricted search and issuance capabilities for use by local Health Departments and by the Motor Vehicle Administration. The solution will support the import of all legacy data from Maryland's current vital records systems. The FY 2020 Allowance includes \$121,712 for oversight.

Program Strategic Goals:

In addition to maintaining current revenue patterns, the major goals of the project are to replace an aging legacy system with a modern hospital information management system that will improve operational efficiency, hospital planning, evaluation and accreditation, patient care and safety, and data security as well as reduce the cost of administering a large multi-hospital system. Will enable eligible professionals, hospitals and Local Health Departments to submit public health data to MDH electronically and to support MDH program goals to increase the transition from paper to electronic reporting.

Project Title: MDH Licensing and Regulatory Management System Project

Appropriation Code: M00A0108

Sub-Program Code: A805

Project Summary:

The project is in the Initiation Phase. The scope of the planning encompasses the collection of requirements, the assessment of COTS options, the development of a justification for investment in implementation, and the draft of a preliminary RFP document. This project is a continuation of the IT Licensing project initiated by the Board of Physicians in 2015. The FY 2020 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

For MDH and the Health Occupation Boards, procure and implement an ELRM solution that will assure quality care through the efficient licensure and effective discipline of health providers. The Department desires an Enterprise solution to assure, advance and protect the public's health and welfare through proper credentialing, permitting, licensing, examination, inspection, and discipline of health providers, distributors and facilities. This new system will also help enforce regulations and legislation, resolve complaints and educate the public.

Project Title: Medicaid Management Information System (MMIS II)

Appropriation Code: M00Q0108

Sub-Program Code: T810-T812

Project Summary:

The State is required to align with the federally mandated Medicaid Information Technology Architecture requirements. This project will modernize existing system functions and significantly enhance the goals of the MMIS ensuring that eligible individuals receive the health care benefits to which they are entitled and that providers are reimbursed promptly and efficiently. MDH intends to replace its legacy MMIS claims processing system with a new MMIS system, which will also support coordination of benefits, surveillance and utilization review, federal and management reporting, and case management. In conjunction with the MMIS replacement, MDH intends to add a Decision Support System (DSS); improve and enhance the Pharmacy e-Prescriber solution; implement a Service Oriented Architecture (SOA) Integration Framework, and develop an eligibility portal. No funds for oversight. FY 2020 includes \$300,000 for IV&V.

Project Title: Long Term Supports and Services Tracking System (LTSS)

Appropriation Code: M00Q0108

Sub-Program Code: T807 and T808

Project Summary:

Maryland Medicaid implemented a crucial Long Term Care reform system that increases federal matching funds (FMAP) by over \$140M. Specifically, Maryland implemented a tracking system (LTSS), a standardized assessment instrument (interRAI-HC), and an in-home services verification system (ISAS). LTSS is an integrated care management tracking system that houses real-time medical and service information regarding Medicaid participants. The scope of work for the development and delivery of the LTSS system was determined by the functionality necessary to meet the federal Balancing Incentive Program (BIP) and Community First Choice (CFC) program requirements. Additional waiver programs are added to the LTSS via modules of developed software. The FY 2020 Allowance includes \$200,000 for oversight.

Allow users to seamlessly submit forms online and have the data sent to the correct agency systems and databases.

Shortcomings in our current system have been identified in both the 2011 Sunset Evaluation and an independent review (the Perman Report). The proposed system will correct these deficiencies and also greatly improve the work efficiency for the Board.

Project Title: Automated Financial System (AFS)

Appropriation Code: N00F0002

Sub-Program Code: 6B13

Project Summary:

The AFS is a computerized fiscal tracking system that allows DHS's fiscal users to set up, print and track payments to various vendors, including payments to child care and foster care providers, maintains a history of financial transactions, generates a variety of fiscal reports including the 302A for assistance and the General Ledger; and produces annual 1099 data on disk for submission to Financial Management Information System (FMIS). AFS is written in an antiquated and unsupported Delphi technology. The application is outdated, prone to sensitive errors and difficult to enhance. Skills to support the application are not readily available. The system cannot take advantage of the newer technologies until it is moved to a more robust application language and the User Interface is modernized. Project costs shown here reflect those for the PPR phase only. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PPR phase. The FY 2020 Allowance includes \$77,923 for oversight.

Program Strategic Goals:

This application is used statewide by the locals' finance offices. The primary agency mission, goals or objectives that this project would support is the standardization of the development environment. With the completion of this project, DHS will be able to centralize hardware, functionality and data to increase performance and decrease the cost associated with trying to maintain 24 instances of the same application running on six different physical servers.

Project Title: Shared Human Services Platform

Appropriation Code: N00F0002

Sub-Program Code: 6B16

Project Summary:

DHS along with our partner organizations (DLLR, DJS, DOA, MHBE, DHCD & others) is embarking on an integrated Shared Human Services Platform to serve constituents holistically and create a true integrated environment. DHS's human services systems will be integrated with human services systems of the partner organizations to eliminate the siloed program centric environments of the current legacy systems. This modern "client-centric" integrated platform will provide employees, partner providers, and constituents of Maryland's social services agencies an efficient, effective platform for delivering collaborative services. The FY 2020 Allowance includes \$250,000 for oversight and \$450K for IV&V

Program Strategic Goals:

The goal of the modernization effort is three- fold. First, the applications will be optimized to allow case workers to more efficiently and effectively serve the people of Maryland, and allow our constituents a single point of entry for a streamlined application and eligibility determination process. Second, DHS and other collaborative agencies will effectively share data, reducing redundant caseworker actions, and enable comprehensive analytics to help guide future strategies to more effectively serve the people of Maryland. Third, the systems will be much more adaptable to continually changing requirements, as per statutory, programs, user, and constituent needs, allowing agencies to be much more responsive to the customers' enhancement times from a current DHS range of 9 to18 months to markedly decreased time frames. This will provide the State a significant improved time-to-value metric on service delivery.

Project Title: Enterprise Resource Planning Implementation Project (MCE-ERP)

Appropriation Code: Q00A0107

Sub-Program Code: 1133

Project Summary:

This initiative will provide the ability for Maryland Correctional Enterprises (MCE) to revise and update its backend IT infrastructure, paper driven financial and manufacturing processes to better meet the needs of Maryland's correctional industries program. This initiative will allow more efficient management of an agency that currently generates over \$50M per year in sales and services and employs over 2,000 inmates daily in Maryland's correctional facilities. The current paper driven process and computing platform cannot keep up with the volume of information and sales being generated by MCE. Total Project Cost (TPC) will be better understood upon RFP award. The FY 2020 Allowance includes \$50,000 for oversight.

Program Strategic Goals:

This initiative supports the following DPSCS goals: 1. Good Management: Ensure the Department operates efficiently. Meet and/or exceed the technology business needs of the Department, Criminal Justice guidelines, policies and standards, for the use and implementation of existing and emerging technologies. 2. Safe Communities: Help to keep Maryland communities safe. Provide technology that quickly identifies offenders. Provide a comprehensive and efficient method that identifies warrants issued throughout the State. Better warrant tracking processes allow law enforcement officials to continue to serve warrants, which help to remove potentially dangerous individuals from Maryland's streets.

Project Title: Electronic Patient Health Record (EPHR) Replacement

Appropriation Code: Q00A0107

Sub-Program Code: 1740

Project Summary:

The Department of Public Safety and Correctional Services, Information Technology and Communications Division (DPSCS/ITCD) is currently looking to replace the outdated electronic health record (EHR) with a new, more robust system that will meet the needs of the Office of Inmate Health Services (OIHS). The FY 2020 Allowance includes \$75,000 for oversight.

Program Strategic Goals:

The mission of the Department's Health Care Program is to prevent illness, promote health and provide care to the sentenced and detained population (inmates) through a competent, efficient and effective system that improves the health of inmates and assists in transitional planning and care management consistent with the interests of DPSCS. A more efficient and complete EHR will allow DPSCS Office of Inmate Health Services (OIHS) to meet their strategic goals and objectives. The healthcare providers would have a comprehensive health record for review and provide the continuity of care for individuals in the inmate population. This initiative will be developed using the Agile Methodology and the Scrum Framework. The Scrum framework for project management emphasizes teamwork, accountability and iterative progress towards a well-defined goal.

Project Title: MD Automated Fingerprinting Identification System Upgrade (MAFIS)

Appropriation Code: Q00A0107

Sub-Program Code: 1790

Project Summary:

The Department of Public Safety and Correctional Services, Information Technology and Communications Division (DPSCS/ITCD) is currently looking to upgrade the existing framework of MAFIS (MD Automated Fingerprint Identification System) with more up-to-date technologies. The MAFIS system is in its ninth year of operation and requires refreshment to both (a) replace legacy operating system software and server hardware and (b) accommodate the continued growth of the identification databases and system workloads. Key server components are nearing end-of-life, and manufacturer support has either been, or will soon be, discontinued. Manufacturer support has already been discontinued for some of the system's critical software components (including Oracle version 10g), which impacts system maintainability, and increases extended loss-of-services risk to ongoing system operations. This new system will not be cloud based. It will reside in the DPSCS data center. The FY 2020 Allowance includes \$50,000 for oversight.

Project Title: e911 to Text (e911)

Appropriation Code: Q00A0107

Sub-Program Code: 1410

Project Summary:

The Maryland Emergency Number Systems Board (ENSB) is responsible for overseeing Maryland's E9-1-1 system and administering the 9-1-1 Trust Fund in a fiscally responsive fashion. As part of these responsibilities, it is the intent of the ENSB to establish and implement a technologically responsive and resilient emergency E9-1-1 system that will provide citizens with rapid, direct access to public safety agencies in a price-effective manner.

R00 - State Department of Education

Project Title: Maryland Direct Certification System (MDCS)

Appropriation Code: R00A0106

Sub-Program Code: F600

Project Summary:

The Maryland State Department of Education (MSDE), Office of School and Community Nutrition Programs (OSCNP) will improve the Direct Certification (DC) matching process by upgrading the Maryland Direct Certification System's (MDCS) matching process. Maryland has been awarded a Tier 2 DC Improvement Grant by the USDA. The current decentralized DC matching processes will be discontinued at the local level and hosted by the State Agency. An improved DC web-portal, based on The State of Florida's solution will be developed and accept the LEA enrollment data to be uploaded for processing. Besides the accepting data uploads, the DC web-portal will offer a real-time look-up feature for DC matching. The MDSC will employ complex algorithms and probabilistic matching routines to increase the match success rate and exceed the HHFKA-mandated SNAP match of 95%. Statistical reports will be generated from LEA matching activity providing for accurate State Agency oversight of LEA match success rates matching frequency, and technical assistance for both internal and external users. Standardizing the matching processes and moving the process to the State Agency will eliminate the need for LEA manual matching and increase the frequency of matching for small LEAs with inadequate IT support. LEA enrollment files will be matched against the entire Maryland State Department of Human Services (DHS) file. The DHS has agreed to work with MSDE to streamline the delivery method and increase the frequency of the SNAP/TANF/FOSTER files. The FY 2020 allowance includes \$11,250 for oversight.

R60 - Maryland 529

Project Title: Maryland 529 Prepaid Trust Account Holder Management System (MD529)

Appropriation Code: R60H0041

Sub-Program Code: 829

Project Summary:

Maryland 529 is seeking a COTS (Commercial off-the-shelf) product to support the agency's needs and requirements. Maryland 529 provides flexible and affordable 529 plans to help Maryland families save for future college expenses and reduce dependence on student loans later. Maryland 529 is an independent, State agency that offers two 529 college saving plans: (1) MPCT, which first opened for enrollment in 1998 and (2) Maryland College Investment Plan (MCIP), which launched in 2001 and current program manager is T. Rowe Price. Both plans are administered by the Maryland 529 Board which includes eleven (11) members, six (6) are State officials or their designee and five (5) are appointed by the Governor to (4) four-year terms.

R95 - Baltimore City Community College

Project Title: Enterprise Resource Planning (ERP) System

Appropriation Code: R95C0006

Sub-Program Code: 0000

Project Summary:

Baltimore City Community College (BCCC) will be replacing its administrative system, which consists of archaic and unsupported discrete siloed modules. This legacy system was cobbled together beginning in the late 90's and is mainframe and COBOL based. Maintaining this system is no longer a viable option, as companies that developed these systems are no longer providing support or are no longer in business. This project is funded by current restricted/unrestricted funds. Total Project Cost (TPC) will be better understood upon RFP award. This project is funded with current unrestricted/restricted funds. The FY 2020 Allowance includes \$100,906 for oversight and \$150,000 for IV&V.

Project Title: Lead Rental Certification and Accreditation

Appropriation Code: U00A1002

Sub-Program Code: 3206

Project Summary:

The Maryland Department of the Environment's (MDE) Lead Poisoning Prevention Program ("LPPP" or "Program") provides oversight for community education to parents, tenants, rental property owners, home owners, and healthcare providers to enhance their role in lead poisoning prevention. The Program currently uses a collection of legacy Lead Rental Certification and Accreditation (LRCA) systems and databases to maintain accreditation entities, property certificates issued to property owners, and the enforcement cases against the property owners, accredited individuals and entities, and others. There is a need to convert and migrate the legacy systems and databases to a new system to achieve operational efficiencies while incorporating the changes to laws related to LPPP.

Project Title: Environment Permit Tracking System Modernization

Appropriation Code: U00A1002

Sub-Program Code: 3205

Project Summary:

The Environmental Permit Tracking System Modernization Project will modernize how MDE currently captures Departmental permit data through the use of .NET technologies. This modernization effort will update the existing PowerBuilder user interface (UI) with one developed using current .NET technologies. This project also supports the Web Revamp Project by making services such as ePermitting and eCommerce accessible to Maryland citizens, businesses, and other stakeholders through the use of an interactive, customer-centric, web-based portal.

Program Strategic Goals:

MDE's goal is to reduce the level of effort required to enter data into the Department's centralized permit tracking system and ensure the technologies that support MDE's mission are cost effective and sustainable. Modernization will enable MDE to utilize current web technologies and developer tools that are not part of the Power Builder technology. The newer technology will make it easier to make changes to the data entry process keeping pace with the Department's evolving business requirements and online permitting initiatives.

Project Title: Automated Licensing and Registration Tracking System (ALRTS)

Appropriation Code: W00A0112

Sub-Program Code: 1133

Project Summary:

The Firearm Safety Act has mandated that the Maryland State Police (MSP) automate and streamline the process by which a citizen of Maryland requests approval to purchase or carry a firearm. This will involve automating the entire firearm application process, from Dealers applying to the MSP to selling firearms in the State, to a web accessible form submitted electronically to the Agency, processing of the application via the new electronic system, billing and reconciliation of fees, to providing real time or near real time reporting and metrics. This will involve automating the 77R process, replacing the hardcopy application form with a web accessible form that may be submitted electronically to MSP headquarters. Project costs shown here reflect those for the PPR and PIR phases. Full project design and implementation costs will be determined as part of the planning process, and total project cost will be adjusted at the conclusion of the PIR phase. The FY 2020 Allowance includes \$50,000 for oversight.

Glossary

Appropriated Positions: Synonymous with “authorized positions” (see below).

Appropriation: The amount of spending for an item legally authorized by the General Assembly.

Authorized Positions: The number of full-time equivalent employees that may be employed at any one time on the regular state payroll. The number of authorized positions includes vacant positions. An agency may not exceed its total of authorized positions. Only the state’s Board of Public Works may increase the number of authorized positions during the fiscal year.

Budget Bill: Presents the governor’s allowance as a bill that will become the legally enacted budget after the General Assembly approves it, including any amendments.

Budget Book Appropriation: Reflects the Legislative appropriation plus/minus amendments approved during the fiscal year prior to the budget submission. The amount appears in the annual Budget Books.

Budget Books: A series of volumes published each January that present the governor’s allowance to the General Assembly for all appropriated programs in the budget as well as information on non-budgeted agencies.

Capital Expenditure: An expenditure for the acquisition or construction of buildings or other fixed assets, or for other tangible assets with a useful life of at least 15 years.

Contractual Positions: The number of full-time equivalent employees working under employment contracts. Agencies generally use contractual employees for tasks of a limited duration or seasonal

nature. Contractual employees are not eligible for most state fringe benefits.

Current Restricted Funds: Funds that may be used by higher education institutions only for restricted purposes. These consist principally of research grants and donations for particular purposes (i.e., student aid).

Current Unrestricted Funds: Funds that may be used by higher education institutions without restriction. These consist principally of the state appropriation, tuition and student fees.

Deficiency Appropriation: An appropriation for an expense in the current fiscal year that is not covered by the existing budget. Deficiency appropriations usually occur when workloads exceed projected amounts, new legislation requires expenditures not provided in the budget or unanticipated needs arise. The Fiscal Year 2020 budget proposal includes deficiency appropriations for Fiscal Year 2019.

Federal Funds: Grants and other payments from the federal government that flow through the state budget and are subject to applicable federal laws and regulations. Federal funds often require a state funding match. Medicaid and transportation programs are the largest sources of federal funding in the state budget.

Fiscal Digest: Book published annually by July 1 which reflects the state budget enacted by the Legislature for the new fiscal year.

Fiscal Year (FY): The calendar on which the state operates for financial purposes. Maryland’s fiscal year begins on July 1 and ends on June 30. Thus, Fiscal Year 2020 (FY 2020) begins on July 1, 2019 and continues until June 30, 2020.

Glossary

Full-Time Equivalent (FTE): A method of calculating employment, workloads, enrollments or caseloads to adjust for part-time or part-year participation. For example, part-time or part-year employees are factored according to the share of a full 2,080-hour year during which they are employed. A seasonal employee who works 20 hours a week for one-half of the year would count as a 0.25 full-time equivalent.

General Fund: State funds that may be used for any activity of the state. State income and sales tax revenues are the primary sources of General Funds. About half of state spending is attributable to the General Fund.

Governor's Allowance: The amount proposed by the governor for an item in the state budget. In most instances the General Assembly may subtract from but may not add to the allowance.

Non-budgeted Funds: Some agencies have independent authority to make expenditures without legislative appropriations. Examples include the Injured Workers' Insurance Fund (which provides workers' compensation insurance) and the Maryland Transportation Authority (which operates certain bridges, tunnels and other transportation facilities). These agencies have independent revenue sources (i.e., insurance premiums, toll revenues) and are presented in the budget for information purposes only.

Operating Expenditure: As distinguished from "capital expenditures," these are expenses of ongoing operations of government and other expenditures that do not result in a tangible fixed asset with a useful life of at least 15 years.

Reimbursable Funds: Funds transferred among agencies as payments for services provided by one agency to another. This designation is used to avoid double-counting funds on a statewide basis as

reimbursable funds are not generally included in budget totals. An example is telephone service. Each operating agency pays the Department of Information Technology for the actual cost of its telephone usage from its general, special or federal funds. The Department of Information Technology, in turn, pays the telephone service provider with reimbursable funds.

Request: In the fall state agencies submit a budget request at a targeted amount specified for the next fiscal year.

Special Funds: Revenues dedicated to a specific purpose, such as licensing fees or certain tax revenues that may only be used for the purposes designated by law.

Acknowledgments

The FY 2020 budget as proposed continues to reflect Governor Hogan's unwavering dedication to maintaining sound budgeting principles that focus on making prudent, targeted investments in the areas of state government that will reap the most rewards for all Marylanders. Maryland experienced a historic economic turnaround during the governor's first term in office thanks in part to these budgetary ideals, and we anticipate that a continued commitment to those standards will yield continued economic success.

Nowhere is this more evident than in the record funding he is once again providing for K-12 education throughout the state—in terms of both school operational costs and new school construction dollars. Today's students will be tomorrow's leaders, and this budget equips them, their teachers, and their schools with the funding necessary to ensure that every child has the same opportunities to succeed along whatever path their education and their career eventually take them.

But just as it takes time and effort for students to achieve their full potential, so too is the process of crafting a new budget lengthy and laborious. While I am proud to have played my role in this effort, I am prouder still of the immensely talented team that we have assembled without whom none of this would be possible, including the Office of the Governor, our colleagues in agencies throughout state government, and—as always—our amazing staff at the Department of Budget and Management.

The named individuals below began their work on the FY 2020 budget early last fall and have been working since to finalize every little detail of this budget—oftentimes clocking in early and clocking out late until their work was complete, even through the holidays. I consider myself privileged that I will be able to continue working with each and every one of them as we strive from a budgetary perspective to honor Governor Hogan's call to keep changing Maryland for the better.

A15000.01 Disparity Grants

Program Description

Section 16-501 of the Local Government Article authorizes disparity grants to address the differences in the capacities of Baltimore City and certain counties to raise revenue from the local income tax. In general, the grants are the lesser of an amount to raise the jurisdiction's per capita income tax revenues to 75% of the state average or the fiscal year 2010 cap. The formula was modified during the 2013 legislative session to add a minimum grant amount based on the local tax effort of eligible counties and raises from 2.4% to 2.6% the local income tax rate required to be eligible to receive a grant.

C00A00.01 Court of Appeals

Program Description

The Court of Appeals is the State's highest court and generally exercises only appellate jurisdiction. The Chief Judge of the Court of Appeals is the administrative head of the judicial system of the State. The Court's appellate jurisdiction is almost fully discretionary with virtually all initial appeals heard by the Court of Special Appeals. In addition to its appellate adjudicatory functions, the Court of Appeals admits to the bar all persons eligible to practice law in the State; disciplines, suspends, and disbars lawyers subject to such action; and makes rules and regulations to govern practice, procedure, and judicial administration in all courts of the State.

C00A00.03 Circuit Court Judges

Program Description

The Circuit Courts for the 23 counties and Baltimore City are provided for in Article IV of the Constitution and various provisions of the Courts Article of the Code. These courts are Maryland's trial courts of general jurisdiction. They have original jurisdiction in the more serious criminal matters and the more substantial civil cases. In all counties but Montgomery, these courts exercise juvenile jurisdiction. These courts handle appeals from the District Court and from certain administrative agencies.

C00A00.04 District Court

Program Description

Article IV, Section 1 of the Maryland Constitution, created the District Court of Maryland as a Court of Record, with a Seal to be used in the authentication of process being issued by the Court. Section 1-601, of the Courts and Judicial Proceedings Article of the Annotated Code of Maryland, established the District Court of Maryland as a court of limited jurisdiction. Sections 41B-41I of Article IV, of the Maryland Constitution provide for the appointment of a Chief Judge, as well as judicial and non-judicial personnel, necessary to the functioning of the District Court of Maryland. CJ 1-620 divides the State into twelve districts and lists the composition of each district. The District Court of Maryland is currently administered by a Chief Judge. Assisting the Chief Judge with the daily operation of the Court is a Chief Clerk, four Assistant Chief Clerks, Chief Internal Auditor, and a Coordinator of Commissioner Activity. The Chief Judge also receives assistance from the Administrative Judge, the Administrative Clerk, and the Administrative Commissioner in each district.

C00A00.06 Administrative Office of the Courts

Program Description

Section 13-101 of the Courts and Judicial Proceeding Article of the Annotated Code provides for the establishment of an Administrative Office of the Courts, its personnel, duties, and functions. The office is headed by a State Court Administrator appointed by and serving at the pleasure of the Chief Judge of the Court of Appeals. The Administrative Office provides staff support to the Chief Judge of the Court of Appeals and assists the Chief Judge in carrying out the duties of administrative head of the judicial system. The Office attempts to aid in improving the business methods of the courts of the State and enhance efficiency in performing judicial functions. The Administrative Office is establishing improved methods of gathering and reporting information through automated data processing; expanding programs of education and training for judicial and non-judicial personnel; and formalizing a planning process for the judicial system by identifying potential problem areas, developing feasible solutions for the problems, developing strategies for implementation of those solutions, and then implementing them.

C00A00.07 Court Related Agencies

Program Description

The Standing Committee on Rules of Practice and Procedure and staff are appointed by the Court of Appeals, Sections 13-301 through 13-303 of the Courts and Judicial Proceedings Article, in order to aid in the exercise of the rulemaking power of the Court. The State Reporter is appointed by the judges of the Court of Appeals under Section 13-201 of the Article. In accordance with the provisions of Section 13-203, it is a duty of the State Reporter to prepare for publication the official reports known as Maryland Reports and Maryland Appellate Reports, of cases decided in the Court of Appeals of Maryland or in the Court of Special Appeals and designated by the respective court to be reported. The program provides for the purchase of copies of each volume of the Maryland Reports and copies of each volume of the Maryland Appellate Reports as specified in the contract. The Commission on Judicial Disabilities was created by Article IV, Sections 4A and 4B of the Maryland Constitution to receive complaints, investigate, hold formal hearings if necessary, and file a report and recommendation with the Court of Appeals of Maryland with respect to the censure, retirement or removal of judges. The State Board of Law Examiners operates pursuant to the Business Occupations and Professions Article, Sections 10-201 through 10-203, and the Rules Governing Admission to the Bar of Maryland. The Board registers law students, checks their pre-legal and legal education, has character investigations made, and administers examinations twice a year to those qualified to take them. It has authority to recommend the admission to the bar of qualified attorneys from other jurisdictions upon proof of good moral character.

C00A00.11 Family Law Division

Program Description

Consistent with the expressed interest of the General Assembly, in 1998 the Maryland Judiciary established family divisions, as supported by Maryland Rule 16-204, within the State's five largest jurisdictions. These were established in Anne Arundel County, Baltimore City, Baltimore County, Montgomery County, and Prince George's County. The family divisions have jurisdiction over all civil matters related to the family: divorce, custody, child support, visitation, domestic violence, paternity, adoption, guardianship, involuntary commitments, CINA/CINS, and juvenile delinquency. Those counties without separate family divisions are provided with a family support coordinator and a budget for services to establish a spectrum of services and to reorient case management processes to ensure the comprehensive and holistic treatment of families. Funds provided by the General Assembly are used to operate Maryland's family law system, which represents 48% of the circuit court caseload. Funds are provided to local jurisdictions in the form of grants. Additional funds are used to provide special project grants to provide access to the family justice system in both the District and Circuit courts. Family law hotlines, domestic violence legal services, high conflict custody representation projects, and other projects that improve the ability of families and children to participate in the family justice system are also provided.

Office of the Public Defender

MISSION

The mission of the Office of the Public Defender (OPD) is to provide superior legal representation to indigent defendants in the State of Maryland by safeguarding fundamental individual rights and ensuring access to the guaranteed protections afforded by the United States Constitution, the Bill of Rights, the Maryland Constitution and Declaration of Rights, and the laws of Maryland.

VISION

The vision of the OPD is to have an attorney available and present at each critical stage of all criminal proceedings in order to provide superior legal representation for all indigent persons charged with incarcerable crimes.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. The OPD will provide sufficient and balanced resource distribution throughout the Agency.

Obj. 1.1 Full time attorneys in the Appellate Division will handle no more than 30 cases annually, which is the Case Weighting Study standard for appellate attorneys.

Obj. 1.2 Full time attorneys in the Post Conviction Defenders Division will handle no more than 111 cases annually, which is the Case Weighting Study standard for collateral review attorneys.

Obj. 1.3 Full time attorneys in the Mental Health Division will handle no more than 843 cases annually, which is the Case Weighting Study standard for mental health attorneys.

C80B00.03 Appellate and Inmate Services

Program Description

The Appellate Division litigates appeals involving public defender clients. It also provides educational and research support for staff and panel attorneys. The Appellate Division provides representation through the use of staff and panel attorneys in appellate cases, files appropriate petitions for writs of certiorari, conducts continuing education seminars, publishes legal updates and provides quick reference and specialist expertise to staff attorneys statewide. Inmate Services, also known as the Post-Conviction Defenders Division, provides assistance to indigent inmates for post-conviction, parole violation, habeas corpus, extradition, and other miscellaneous hearings. This Division operates statewide and provides counsel in collateral criminal proceedings throughout the twelve Districts of the OPD system.

C81C00.09 Medicaid Fraud Control Unit

Program Description

The Maryland Medicaid Fraud Control Unit (MFCU) of the Office of the Attorney General investigates and prosecutes instances of Medicaid provider fraud and the abuse and neglect of vulnerable adults. The MFCU has statewide authority to prosecute such cases and utilizes the grand juries of the various counties to this end. The MFCU serves the people of Maryland through the enforcement actions it undertakes. The MFCU seeks to deter the criminal behavior that comes under its purview by bringing enforcement actions, seeking restitution where appropriate, and by seeking appropriate sentences for those individuals or entities that violate the laws pertaining to fraud and abuse and neglect. The MFCU also advises the Attorney General and his constituents, as well as the Medicaid program, on Medicaid fraud matters and policy issues surrounding the abuse and neglect of vulnerable adults.

Office of the State Prosecutor

C82D00.01 General Administration

Program Description

The Office of the State Prosecutor (OSP) is an independent agency within the executive branch. The State Prosecutor investigates and, where warranted, prosecutes criminal offenses affecting the honesty and integrity of our governmental officials and institutions and the electoral process. Specifically, the prosecutor is authorized to investigate and prosecute criminal offenses under the State election laws and Public Ethics law, as well as the bribery laws and offenses constituting criminal malfeasance, misfeasance or nonfeasance in office. These investigations are conducted either upon the initiative of the OSP or upon the request of the Governor, the Attorney General, the General Assembly, the State Ethics Commission, or a State's Attorney. In addition, upon the request of the Governor, the Attorney General, the General Assembly, the State Ethics Commission, or a State's Attorney, the State Prosecutor may investigate and prosecute any offense which takes place in more than one county within the State or in more than one State including Maryland.

Public Service Commission

MISSION

The mission of the Public Service Commission is to promote adequate, safe, reliable, and efficient delivery of services to Maryland consumers by public service companies subject to the Commission's statutory mandates. We accomplish this by ensuring just and reasonable rates; supervising, monitoring, and regulating all public service companies; educating the public about utility issues; and promoting competition where appropriate. We conduct proceedings in an open, fair, and nondiscriminatory manner, taking into account the interests of consumers, utilities, businesses, and other affected parties. In our decisions, we weigh the importance of public safety, economy of the State, natural resource availability, and environmental quality. We are committed to building an organization marked by its sense of teamwork, accountability, innovation, and diversity. We recruit, train, and retain quality personnel by providing good working conditions, effective leadership, and opportunities for personal and professional development.

VISION

We will be recognized as a national leader in regulatory excellence and innovation. We will demonstrate our commitment to the public, the companies we regulate, and our colleagues by building an environment of mutual respect, professionalism, and diversity.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Public Service Commission

C90G00.01 General Administration and Hearings

Program Description

The Public Service Commission regulates electric, natural gas, water and sewage, and telecommunications companies, as well as electric and natural gas suppliers, and passenger-for-hire services. In addition, the Commission establishes water vessel pilotage and docking services rates. The Commission hears matters about rate adjustments, applications to exercise franchises, approval of issuance of securities, promulgation of rules and regulations, and quality of utility and common carrier service. It also has the authority to issue a Certificate of Public Convenience and Necessity to construct new generating stations or transmission lines of a certain capacity. It establishes policies, sets priorities, provides support for operating units to achieve success, and communicates on behalf of the Commission. Support services include legal, fiscal, budget, personnel, information technology, communications, consumer assistance, and a variety of special projects. The Commission is a Special Fund agency with revenues equivalent to its operating expenses raised through assessments of the public service companies that it regulates.

C90G00.10 Energy Analysis and Planning Division

Program Description

The Energy Analysis and Planning Division provides analysis of the short-term and long-term energy resources available to the State of Maryland. The Division reviews applications for the construction of small and emergency generator facilities (CPCN exemptions). The Division manages and monitors the State's renewable portfolio standards program, the licensing of electric and natural gas suppliers and brokers, various purchased power contracts (such as those resulting from the Standard Offer Service electricity procurements), and emissions disclosure activities. The Division also works with electric companies to develop cost effective energy efficiency, conservation, demand reduction, and other related programs. The Division provides testimony in formal proceedings before the Commission and assists the Staff Counsel Division in conducting cross-examination of witnesses and preparing legal briefs. The Division monitors electricity issues in national and regional forums such as the Federal Energy Regulatory Commission (FERC) and PJM Interconnection (the regional electric grid operator) and environmental matters affecting generating plants promulgated by U.S. Environmental Protection Agency, and provides the Commission with summary reports from these forums.

Office of the People's Counsel

MISSION

The Office of the People's Counsel (OPC) strives to provide effective and zealous representation for Maryland's residential utility ratepayers. In addition, it is our mission to identify systemic issues that impact ratepayers and pursue solutions that will preserve the safety and reliability of consumer utility service, while advocating for the lowest possible costs to utility consumers. Finally, OPC is committed to educating residential consumers on issues pertinent to their utility service and changes in the energy markets.

VISION

A State in which all residential utility customers have equal access to advocacy, education and resources concerning their utility service, regardless of income.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1 To advocate for safe, reliable and fairly priced utility service for residential consumers of energy, telecommunications and other regulated utility services.

Obj. 1.1 To advocate yearly through litigation on behalf of residential ratepayers before the Federal Communications Commission (FCC), Federal Energy Regulatory Commission (FERC), the Maryland Public Service Commission (PSC) and Maryland State circuit and appellate courts.

Obj. 1.2 To advocate yearly for safe, reliable and fairly priced utility service for residential consumers of energy, telecommunications and other regulated utility services in other non-litigated forums.

Obj. 1.3 Annually increase the number of successful resolutions or referrals.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.

Office of the People's Counsel

C91H00.01 General Administration

Program Description

The Office of the People's Counsel (OPC) is an independent State agency that represents Maryland's residential consumers of electricity, natural gas, telephone and private water services. The OPC litigates on behalf of consumers and their interests in regulatory and court proceedings, helps resolve problems with utility services and locates financial assistance for ratepayers who have difficulty paying their bills. OPC advocates on both State and Federal levels for legislation that provides protection for residential ratepayers. In addition to monitoring the changes in competitive energy markets in the areas of gas, electricity and telephone services, the OPC also serves as a resource to the community by providing education, referrals and training.

Subsequent Injury Fund

MISSION

The Subsequent Injury Fund works to provide workers' compensation benefits to disabled workers who have combined effects from a pre-existing disability and an accidental work-related injury.

VISION

A State which has removed the disincentive to hire disabled workers due to employers' concerns of potentially larger workers' compensation claims.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To efficiently defend the Fund's resources against inappropriate use, and to provide monetary benefits to qualified disabled workers injured on the job in accordance with awards passed by the Workers' Compensation Commission.

Obj. 1.1 All new cases will be promptly reviewed and prepared for legal defense.

Obj. 1.2 All ordered claimant payments will begin on time, and periodic payments will follow a standard bi-weekly schedule.

Goal 2. To maintain the adequacy and integrity of the Fund balance.

Obj. 2.1 To ensure that adequate funds are available from which to pay claims, the ratio of total Fund expenditures to total collections will remain less than 1:1.

Subsequent Injury Fund

C94I00.01 General Administration

Program Description

The Subsequent Injury Fund reviews and investigates workers' compensation claims that involve pre-existing health conditions that substantially increase the disability of injured workers. The liability of employers' insurers is limited to compensation for the damages caused by the current injury, and the Subsequent Injury Fund incurs all additional liability from the combined effects of all injuries and/or conditions. The Fund derives its income from assessments of insurance companies on awards of compensation for permanent disability.

Uninsured Employers' Fund

MISSION

The Uninsured Employers' Fund (UEF) strives to promptly pay awards ordered by the Workers' Compensation Commission in favor of injured workers against non-insured employers who default on payments, and to maintain an adequate fund balance from which to pay claims through the collection of applicable fines, assessments, and benefit recoveries.

VISION

A State that ensures that all injured workers awarded benefits by the Workers' Compensation Commission are promptly and correctly paid.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To efficiently investigate and defend and monitor all designated non-insured cases.

Obj. 1.1 All new cases will be promptly reviewed, investigated, and prepared for legal defense as required.

Obj. 1.2 All claims will be monitored for investigation, coverage and activity for purposes of monitoring their status and insuring accurate processing and management.

Average number of open claims	N/A	N/A	N/A	N/A	1,270	1,200	1,200

Goal 2. To monitor awards and follow established procedures to ensure prompt payment to claimants and health care providers.

Obj. 2.1 By the use of active case monitoring, the agency will promptly initiate the appropriate benefit payments for each case following the determination of the Fund's legal obligation.

Goal 3. To track and collect fines, assessments, and awards benefits paid by the Fund, and to maintain the adequacy and integrity of the Fund balance.

Obj. 3.1 The agency seeks to maximize its collections from non-insured employers utilizing all legal processes including, as a last resort, Central Collections.

Obj. 3.2 To ensure that adequate funds are available from which to pay claims, the ratio of total Fund expenditures to total collections will remain less than 1:1. (Maryland law permits increasing the one percent permanency award assessment rate if required. Funds from this source are reliable as the payers are primarily insurance companies.)

Uninsured Employers' Fund

C96J00.01 General Administration

Program Description

The Uninsured Employers' Fund (UEF) reviews and investigates claims filed by employees or, in the case of death, by their dependents. If the employer does not pay what is due the claimant, the Fund will directly pay the compensation benefits and medical expenses, and attempt to recover all benefits paid plus certain assessments from the uninsured employer. The cost of administering the Uninsured Employers' Fund and providing benefits to the claimants is wholly specially funded, principally derived from assessments placed upon awards of compensation.

Workers' Compensation Commission

MISSION

The Maryland Workers' Compensation Commission seeks to secure the equitable and timely administration of the provisions of the Maryland Workers' Compensation Law on behalf of its customers, the injured workers and their employers, by providing an efficient and effective forum for the resolution of individual claims.

VISION

The Maryland Workers' Compensation Commission envisions a State wherein injured workers and employers are empowered to create an equitable partnership to facilitate prompt and fair resolution of workers' compensation matters.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Improve the effectiveness and timely delivery of services provided to customers of the Workers' Compensation Commission.

- Obj. 1.1** Maintain setting 90 percent or more of all non-permanency hearings within 60 days of the date when issues are filed.
- Obj. 1.2** Maintain a conformance rate of at least 95 percent for the issuance of Commission Orders within 30 days after the conclusion of a hearing.
- Obj. 1.3** Maintain an average of no more than 10 days between the hearing date and the first award issued by the Commission.

Workers' Compensation Commission

C98F00.01 General Administration

Program Description

The Workers' Compensation Commission receives, processes, and adjudicates claims for injured employees, and refers those claimants who need rehabilitation to the appropriate vocational rehabilitation service providers. All expenditures of the Workers' Compensation Commission and the Department of Labor, Licensing, and Regulation's Occupational Health and Safety Program are recovered from insurance companies and self-insurers through an annual maintenance assessment.

Board of Public Works

MISSION

In order to protect and enhance the State's fiscal integrity, the Board of Public Works ensures that significant State expenditures are necessary, appropriate, fiscally responsible, fair, and lawful. In reviewing and approving capital projects, procurement contracts, impacts to the State's tidal wetlands, and the acquisition, use and transfer of State assets, the Board assures Maryland citizens, legislators, government contractors, bond-rating houses, and Federal funding partners that executive decisions are made responsibly and responsively.

VISION

A State in which Maryland citizens are confident that government actions concerning the stewardship of State assets and State's tidal wetlands, and the expenditure of General, Special, Federal, and General Obligation Bond funds are taken in a prudent, open, and fiscally responsible manner.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Ensure that procurement expenditures are necessary and appropriate, fiscally responsible, fair, and lawful.

Obj. 1.1 Ensure all contract actions brought to the Board comply with procurement laws and policies.

Obj. 1.2 Strive to ensure that control agencies provide members with timely and accurate information on contracts before the Board.

Obj. 1.3 Ensure that control agencies are using appropriate procurement methods to achieve broad-based competition and fair and equitable treatment of all persons who deal with the State procurement system.

Executive Department - Governor

D10A01.01 General Executive Direction and Control - Executive Department – Governor

Program Description

The Executive power of the State is vested in the Governor who as Chief Executive exercises supervision over the agencies of the Executive Branch. Annually, he presents his work program and financial requirements for the ensuing year to the Legislature in the annual budget and reports to the Legislature on the condition of the State. There is also a Lieutenant Governor whose duties are delegated by the Governor. The office provides executive oversight, guidance, and coordination to the various State agencies and provides the public with information about the Governor's policies, his goals and core functions of State government generally. Core values and guiding principles include uncompromising attention to a broad range of citizen services and a commitment to moving the State forward through the use of technology.

Maryland Department of Disabilities

MISSION

The Maryland Department of Disabilities advances the rights and interests of people with disabilities so they may fully participate in their communities.

VISION

All Marylanders are valued and respected and have the knowledge, opportunity, and power to make a difference in their lives and the lives of others.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Note: Measures for the Maryland Department of Disabilities (MDOD) come from the Maryland State Department of Education (MSDE), the Department of Labor, Licensing and Regulation (DLLR), the Maryland Department of Health - Developmental Disabilities Administration (MDH - DDA), the Behavioral Health Administration (MDH - BHA), the Medical Care Programs Administration (MDH - Medicaid), the Department of Housing and Community Development (DHCD), the Maryland Transit Administration (MTA), Maryland Department of Transportation (MDOT), and the Washington Metropolitan Area Transit Authority (WMATA).

Goal 1. Persons with disabilities have access to integrated training and competitive employment options in the community.

Obj. 1.1 Increase the number of people with disabilities receiving training that leads to competitive employment.

Department of Disabilities

D12A02.01 General Administration

Program Description

The Department of Disabilities is the principal State agency responsible for developing, maintaining, revising and enforcing statewide disability policies and standards throughout the units of State government. The Department works to increase the capacity of Maryland communities to provide services in inclusive settings; create a citizen-centered delivery system in which consumers can exercise meaningful choice and maintain control of their lives; infuse the service delivery system with elevated expectations about the capacities of people with disabilities; incorporate accessible and universal design into Maryland's communities and technologies; and construct a seamless, responsive and coordinated service delivery system. To this end, the Department directs the development and implementation of the Statewide Disability Plan designed to improve, consolidate, coordinate, modify and unify services for people with disabilities. In addition, the Department provides information on programs and services available to Marylanders with disabilities, provides expertise regarding law and State compliance issues, and helps citizens with disabilities to access resources, information and technology. The Department also administers the Constituent Services Program, the Access Maryland Program, the Technology Assistance Program, and the Attendant Care Program.

Maryland Energy Administration

MISSION

The mission of the Maryland Energy Administration is to promote affordable, reliable and cleaner energy for the wellbeing of all Marylanders.

VISION

For all Maryland entities to have access to and benefit from affordable, clean, reliable, and resilient energy.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Increase Maryland's energy efficiency and energy conservation.

Obj. 1.1 Reduce per capita peak electricity demand and electricity consumption.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Est.	2018 Est.	2019 Est.	2020 Est.
Cumulative change in per capita peak demand (kW/person) compared to the 2007 baseline (0.0026 MW)	-0.4887	-0.1925	-0.1688	-0.3467	-0.3509	-0.3779	-0.3900

Goal 3. Local governments, non-profits and businesses will improve their energy efficiency.

Obj. 3.1 Provide loans through the Jane E. Lawton Conservation Loan Program that will result in \$85,000 in energy cost savings annually, over the life of the project.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.
Annual energy savings from Jane Lawton projects (\$)	49,738	297,558	160,803	12,950	197,760	85,000	85,000
Annual energy savings (MMBTUs)	1,793	6,193	22,731	348	8,104	2,700	2,700

Goal 4. Increase electricity generation fuel diversity through the increased use of in-state renewable energy.

Obj. 4.1 In support of the State's Renewable Portfolio Standard (RPS), increase the in-state generation of clean, renewable energy by six million megawatt-hours (MWH) by 2020 through grants, tax credits, education, and outreach.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Est.	2019 Est.	2020 Est.

D15A05.01 Survey Commissions

Program Description

The Survey Commissions program provides funds for special commissions appointed to investigate and make recommendations concerning problems affecting the administration and welfare of the State, as well as other on-going non-departmental programs. The State Commission on Uniform State Laws (SCUSL) was created in 1896 to recommend measures to the General Assembly to promote uniform laws within the states for the benefit of Maryland citizens. Maryland's Commissioners represent the State at the National Conference of Commissioners on Uniform State Laws, participate in drafting recommended uniform state legislation and promote the adoption of uniform laws within the states. They have recommended and the General Assembly has approved uniform or model legislation dealing with such diverse matters benefiting Maryland residents as gifts to minors, estate tax apportionment, facsimile signatures of public officials and interstate family support. A relatively small state such as Maryland also gains a substantial overall economic benefit when companies in the process of selecting a site for a new distribution center, factory or other money generating activity recognize Maryland's laws as being uniform with those of the company's home state. The Judicial Nominating Commission System was established to recommend to the Governor the names of persons for appointment to the appellate and trial courts of Maryland. The Commissions are charged with evaluating the extent to which candidates have the following qualifications for judicial office: integrity, maturity, temperament, diligence, legal knowledge, intellectual ability, professional experience and community service, as well as the importance of having a diverse judiciary. The Commissions submit to the Governor the names of those persons found to be legally and most fully professionally qualified to fill a vacancy. Their reports are released to the public concurrently with submission to the Governor. Under the State Publications Depository and Distribution Program, the State has designated sixteen libraries across Maryland and the Library of Congress in Washington D.C. to serve as Depository Libraries for State documents. The expenses of this program included in the Survey Commissions appropriation are primarily for updates to the Annotated Code of Maryland provided to the Depository Libraries.

D15A05.05 Governor's Office of Community Initiatives

Program Description

The Governor's Office of Community Initiatives (GOCI) coordinates community and volunteer activities statewide and advises the Governor on policies to enhance and improve community programs. The Office oversees the work of the Governor's Office on Service and Volunteerism (GOSV) and Volunteer Maryland. The GOSV coordinates volunteer recognition programs of the State and administers the federal grant portfolio from the Corporation for National and Community Service. Volunteer Maryland places trained volunteer coordinators in nonprofit agencies, schools and other governmental agencies for one-year national service assignments. GOCl also is responsible for carrying out Emergency Support Function 15 - Donations and Volunteer Management for the State of Maryland. GOCl serves as the State government's principal liaison to the faith-based community. The Office of Community Initiatives includes responsibility for outreach to cultural and ethnic communities across Maryland. GOCl oversees the activities of the State's Banneker-Douglass Museum, a museum dedicated to showcasing and preserving Maryland's African American history and culture. GOCl coordinates the activities of nine appointed Commissions: the Governor's Commissions on Hispanic, Asian Pacific American, South Asian, Native American, Middle Eastern American, African, and Caribbean Affairs in addition to the Maryland Commission on African American History and Culture (MCAAHC) and the Governor's Commission on Service and Volunteerism. The State's ethnic commissions work to implement initiatives to ensure equal access for all Marylanders to the State's civic, social, economic, health and political affairs and the Governor's Commission on Service and Volunteerism makes funding recommendations for the State's AmeriCorps programs. The MCAAHC makes funding recommendations for the Maryland Historic Trust's African American Heritage grants.

D15A05.06 State Ethics Commission

Program Description

The State Ethics Commission is an independent agency of State government. The Commission administers the Maryland Public Ethics Law, which primarily includes disclosure and standards of conduct programs covering officials, employees and regulated lobbyists. The Commission renders advisory opinions and informal advice concerning the Law's application, investigates complaints, and receives and reviews financial disclosure statements and lobbyist registration and activity reports. The Commission provides training and education to those covered by the Law's requirements and non-confidential information to the public. The Commission also assists and monitors the activity of local governments and boards of education in implementing local public ethics laws/regulations by reviewing the contents of local laws/regulations for compliance with State law and approving the content of those local laws/regulations.

Executive Department - Health Care Alternative Dispute Resolution Office

MISSION

The Health Care Alternative Dispute Resolution Office (HCADRO) works to offer an expedient alternative resolution process for medical malpractice claims. The Office serves as the State's only accurate and accessible information source for health care facilities and the general public regarding medical malpractice complaints against physicians and other health care providers.

VISION

To further decrease the number of medical malpractice cases requiring trial at the Circuit and U.S. District Court Systems.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To alleviate the Circuit and U.S. District Courts' caseload by lowering the number of cases waiving the arbitration process.

Obj. 1.1 Follow cases closely, closing as many as possible by promptly ruling on Motions to Dismiss or Dismissals for Lack of Prosecution or arbitration.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.

D15A05.07 Health Care Alternative Dispute Resolution Office

Program Description

The Health Care Alternative Dispute Resolution Office (HCADRO) provides a system of mandatory arbitration filings for all medical malpractice claims in excess of \$30,000. The powers and duties of the Health Care Alternative Dispute Resolution Office are: (1) the selection of arbitration panels from a list of qualified persons prepared by the Director, or the appointment of a mediator; (2) the elimination of a specific dollar amount in pleadings; (3) the determination of liability and the awarding of damages and costs for each claim filed; (4) the opportunity for an appeal of a panel decision to the Courts; (5) the review of attorney fees when requested; (6) the provision that insurers may settle claims without restriction and repay certain costs of claimants; (7) the opportunity to waive the arbitration process and proceed at the Circuit Court level; and (8) the reporting of all claims against physicians to the Board of Physicians, the Maryland State Medical Society and, upon request, to health care facilities and the general public.

D15A05.16 Governor's Office of Crime Control and Prevention

Program Description

The Governor's Office of Crime Control and Prevention (GOCCP) administers numerous Federal and State grant programs and serves as a clearinghouse for information, research, analysis and other materials necessary for formulating crime control and prevention policy. GOCCP assists in the development of legislation, policies, plans, programs and budgets relating to the reduction and prevention of crime, violence, delinquency and substance abuse; the coordination of activities among relevant State and local agencies; the improvement of the administration of justice; and other public safety issues. GOCCP is charged with the tasks of more effectively managing Maryland's criminal justice resources, developing more collaborative approaches to juvenile delinquency and crime issues, and providing for a deliberative planning process for the use of those resources. The Office also operates the Maryland Statistical Analysis Center (MSAC) which serves as a repository for knowledge and tools pertaining to crime and the criminal justice systems of Maryland. MSAC examines local policies and practices that will inform the policies and practices of the Governor and the State of Maryland. GOCCP also administers the State Aid for Police Protection Fund and the Local Law Enforcement (LLE) Grants.

Executive Department - State Commission on Criminal Sentencing Policy

MISSION

The State Commission on Criminal Sentencing Policy serves the citizens of Maryland by promoting fair and proportional criminal sentences without unwarranted disparity for all offenders with similar criminal histories committing similar offenses within a voluntary guidelines system providing judges probation, prison or corrections options. It also serves Maryland citizens by assisting understanding of actual time to be served by offenders and by protecting public safety through prioritizing the incarceration of violent and career offenders. In establishing the Commission, the General Assembly stated its intent that unwarranted sentencing disparities should be reduced; truth-in-sentencing policies should be promoted; prison capacity and usage should give priority to the incarceration of violent and career offenders; meaningful judicial sentencing discretion should be preserved; and sentencing judges should be able to impose the most appropriate criminal penalties for offenders.

VISION

A State where sentences are considered just by offenders and victims, well understood by the public and consistent with the State's voluntary guidelines; and individuals and communities possess knowledge and are empowered concerning crime and its effects on them.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Minimal disparity in sentences of similar offenders sentenced for similar offenses.

Obj. 1.1 The Commission will review all guidelines for offenses to ensure proportionality and fairness in the ranking and classification of offenses.

D15A05.20 State Commission On Criminal Sentencing Policy

Program Description

Established in 1999, the State Commission on Criminal Sentencing Policy (the Commission) was created to oversee criminal sentencing policy in Maryland. The Commission consists of 19 members, including members of the judiciary, representatives of the criminal justice system, members of the State Senate and House of Delegates, and members of the general public. The Commission assumes primary responsibility for the Maryland voluntary sentencing guidelines for Circuit Courts by distributing, collecting and compiling sentencing guidelines worksheets, and maintaining the sentencing guidelines database. The Commission conducts training and orientation for trial court judges, attorneys, probation officers and other interested parties as may be required. In addition, the Commission monitors judicial compliance with the guidelines, studies the factors driving judicial departures from the guidelines and adopts changes to the sentencing guidelines, if necessary. In addition to overseeing the application of the sentencing guidelines, the Commission is expected to integrate corrections options programs into the sentencing guidelines system and to establish guidelines to identify appropriate candidates for participation in corrections options programs. The Commission uses a correctional population simulation model to provide estimates of the impact of proposed legislation or policy changes on State and local correctional resources.

Executive Department - Governor's Grants Office

MISSION

The mission of the Governor's Grants Office is to help State government meet its policy priorities by measuring and increasing the flow of Federal funds coming into Maryland, while improving the level of coordination on grants issues between State agencies, local governments, non-profits and foundations.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Maintain or increase Federal funding to State agencies and other organizations.

Obj. 1.1 Increase Federal grant dollars received by State agencies and throughout Maryland.

Executive Department - State Labor Relations Boards

MISSION

Maryland's three independent Labor Relations Boards ensure that employees eligible for collective bargaining have a full and fair opportunity to determine whether they will elect an exclusive representative through fair election processes. The Boards assist the parties through staff, regulations, voluntary support and impartial decisions on disputes that may arise under the regulations governing fair and effective implementation of the statute.

VISION

The Boards will ensure that State employers, County Public School Boards, Higher Education management, employees, and any elected representative unions have a fair and positive environment in which to carry out their rights under the laws the Boards are charged with enforcing.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Provide efficient, fair and accurate employee elections regarding exclusive representation.

Obj. 1.1 Certify election candidates, meet with all candidates and employer representatives to establish election rules and procedures, issue Election Orders, conduct secret ballot elections within 90 days of first petition submission, encourage high percentage of employee participation in elections and certify results.

D15A05.23 State Labor Relations Board

Program Description

The State Labor Relations Board (SLRB) and the Higher Education Labor Relations Board (HELRLB) administer §3-101 through 3-602, Title 3, of the State Personnel and Pensions Article, which permits certain State employees and employees of State higher education institutions to determine whether they wish to elect an exclusive representative and enter into collective bargaining with their employers. Both Boards conduct representation elections, certify results and elected exclusive representatives adopt regulations for same and for unfair labor practices, receive petitions and hear complaints under the statute and regulations. On a voluntary basis the Boards may assist parties in pursuing memoranda of understanding through negotiations. In addition, the SLRB also certifies employee units. There are approximately 30,000 State employees who fall under SLRB jurisdiction, while there are approximately 10,000 higher education employees who fall under SLRB jurisdiction. The Boards retain separate jurisdictions and authorities but share a common administrative support staff and budget. The Public School Labor Relations Board (PSLRB) was established in 2010 as an independent agency of the State Government to administer and enforce the labor relations laws for local boards of education and their employees. The PSLRB's authority over these matters was transferred from the State Board of Education, State Superintendent of Schools and local boards of education effective July 1, 2010, and will terminate on June 30, 2015. The Boards support State employers, State institutions of higher education, public school systems throughout the state, and employees and labor organizations in achieving high quality relationships through the processes of considering and possibly engaging in collective bargaining. In so doing, the Boards recognize widely accepted and historically practiced principles of labor law, such as those embodied in the Wagner Act (National Labor Relations Act) and the policies and decisions of the National Labor Relations Board and other private and public sector statutes and regulations. At the same time, the Boards observe and respect special circumstances that pertain to State employers and public higher education institutions and environments in Maryland, and craft regulations and decide cases with that sensitivity. The Boards seek to minimize disputes and maximize appropriate but timely responses to inquiries, needs and petitions under the law while being fully respectful of due process for all parties. The Boards' staff obtains information, educational materials, consulting services and training in order to provide effective professional service to institutions and unions under the law.

Historic St. Mary's City Commission

MISSION

The mission of the Historic St. Mary's City Commission (HSMC) is to preserve and protect the archaeological and historical record of Maryland's first colonial capital, and to appropriately develop and use this historic and scenic site for the education, enjoyment and general benefit of the public.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Cultural Resource Preservation, Research and Museum Development, and Collection Stewardship. Ensure that the archaeological sites, collections, and landscapes of Maryland's most important historic site are safeguarded, consistent with its status as a National Historic Landmark District (NHLD). Quality research and museum exhibits are produced.

Obj. 1.1 Consult on projects that have potential to impact cultural resources on state lands under the control of Historic St. Mary's City and St. Mary's College of Maryland. Perform mitigation as necessary on these lands, process and curate artifacts, and prepare professional reports on the results.

Obj. 1.2 Research the archaeology and history of St. Mary's City, interpret these findings through exhibit development, publications, presentations, and digital media.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.
New archaeological artifacts curated and accessible for research	23,141	14,215	6,524	88,073	88,590	10,000	10,000

Goal 2. Education and Interpretation. Engage large and diverse audiences of every age level, giving special attention to the school children of Maryland, through interpretive and educational programs that bring to life the history of St. Mary's City and its relevance to our current society.

Obj. 2.1 Achieve or exceed an annual visitation level of 10,000 paid general admissions, 23,000 paid school tours and 50,000 total site usage.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.

Governor's Office for Children

D18A18.01 Governor's Office for Children

Program Description

The Governor's Office for Children (GOC) provides a coordinated, comprehensive, interagency approach to the development of integrated systems of care that are child and family focused and driven; emphasizes prevention, early intervention and community based services for all children and families; and pays special attention to at-risk populations. Building upon a background of the systems reform initiative, the work of the Local Management Boards (LMBs) and utilizing the Results Accountability framework, GOC informs and supports the collective and specific work of the Children's Cabinet; collaborates with LMBs to plan, coordinate and monitor the delivery of integrated services along the full continuum of care; oversees the use of monies from the Children's Cabinet Interagency Fund in accordance with policies and procedures established by the Children's Cabinet; and assists the Children's Cabinet in the allocation of any funds assigned for distribution as grants. Funding for GOC moves to the Governor's Office of Crime Control and Prevention in FY 2020.

Department of Aging

D26A07.01 General Administration

Program Description

The Maryland Department of Aging (MDoA) advocates for older Marylanders, individuals with disabilities, and their caregivers by ensuring access to information, programs, and services. The Department's key foci include information and empowerment, community wellness, long term services and supports, and elder rights protection. As the federally designated State unit on Aging, the Department administers the federal Older Americans Act programs which help fund home and community based services such as information and assistance, senior centers, nutrition services, community living assistance, caregiving support and elder rights protection. Through Maryland Access Point (MAP), the Department of Aging works with multiple state and local partners to provide trusted visible places to access information and assistance for long term supports and services, and serves as an enrollment hub into Medicaid Long Term Services and Supports. The Department further strives to empower individuals to remain healthy as they age through health education programs, health insurance assistance, senior employment opportunities, and community based care programs.

Maryland Commission on Civil Rights

MISSION

The mission of the Maryland Commission on Civil Rights is to ensure equal opportunity and promote better Civil Rights for all who work in, live in or visit Maryland.

VISION

Our vision is a State free of any traces of unlawful discrimination.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Improve equal opportunity in Maryland through the use of effective, creative and efficient case processing activities and reduce, eliminate or resolve instances of unlawful discrimination.

Obj. 1.1 Each year, increase number of complaints filed for processing through education and outreach efforts and maintain the average time to process complaints below the Federal processing time standard.

Maryland Commission On Civil Rights

D27L00.01 General Administration

Program Description

The Commission resolves allegations of discrimination based on race, color, creed, ancestry, religion, sex, age, sexual orientation, national origin, marital status, familial status, genetic information and physical or mental disability. Resolution occurs via conciliation, mediation, investigation and litigation in the areas of employment, housing and public accommodations. In addition, the Commission enforces the State of Maryland's Commercial Non-Discrimination Policy, which prohibits the State from contracting with business entities, both public and private, that discriminate in the solicitation, selection, hiring, or treatment of vendors, suppliers, subcontractors, or commercial customers. The Commission also, through its educational and outreach efforts, improves community relations and fosters a better understanding of the law, thus reducing the potential number of complaints generated. Efforts in fair employment practices and fair housing are supplemented by work sharing arrangements and contracts with the U.S. Equal Employment Opportunity Commission and the U.S. Department of Housing and Urban Development. The Commission engages in cooperative efforts with Federal, State, local and private agencies having comparable interests and/or legal authority.

Program Description

Under the terms of a Memorandum of Understanding ("MOU") between the Baltimore City Department of Housing and Community Development (the "City") and the Maryland Department of Housing and Community Development (the "Department"), the Maryland Stadium Authority (the "MSA") will oversee the demolition of blighted structures located throughout Baltimore City as part of Project C.O.R.E, or Creating Opportunities for Renewal and Enterprise. As part of the project, up to \$75 million over the next four years will be invested for demolition, stabilization and deconstruction of structures which have been jointly identified by the City and the Department.

D30N00.42 Maryland Wholesale Produce Market

Program Description

The Maryland Wholesale Produce Market opened in 1976 and operates as an integral component of the Maryland Food Center Complex. The Produce Market consists of two buildings with approximately 330,000 square feet of space. The 101 individual units in the buildings continue to be leased by privately owned firms engaged in the wholesale distribution of fresh produce. Many of the companies are second and third generations of the same family-owned business. The produce dealers own and operate highly specialized companies and lease their offices, storage and dock facilities from the Maryland Food Center Authority (MFCA). Receiving/shipping terminals, handling, storage, refrigeration, and processing functions for produce are centralized in a single location. These units have had to broaden their business; several companies include value added services that necessitated changes in their facility design.

Maryland Food Center Authority

D30N00.47 Maryland Market Center

Program Description

The Maryland Food Center Authority commenced a comprehensive redevelopment project to divide the Maryland Wholesale Seafood Market into two distinct sections – the seafood section and the non-seafood section. The consolidation of existing seafood companies to one section of the market allowed food companies other than seafood to occupy the non-seafood section of the market. The building was rebranded the Maryland Market Center to better describe the tenant mix following the consolidation of the existing seafood companies. The Maryland Market Center operates in a similar method to the Maryland Wholesale Produce Market, consolidating all of the specialized storage, refrigeration, shipping/receiving, and processing functions into one main facility expressly designed for the food industry. The 36 individual units in the building are intended to be leased by privately owned firms engaged in the wholesale distribution of fresh, frozen, and dry food products.

State Board of Elections

MISSION

The State Board of Elections' (SBE) mission is to administer the process of holding democratic elections in a manner that inspires public confidence and trust.

VISION

The State Board of Elections envisions an election management system in which: all persons served by the election system are treated fairly and equitably; all qualified persons may register and vote and those who are not qualified do not vote; those who administer elections are well-trained, they serve both those who vote and those who seek votes, and they put the public interest ahead of partisan interests; full information on elections is provided to the public, including disclosure of campaign finance information; citizen convenience is emphasized in all aspects of the election process; and security and integrity are maintained in the voter registration process, casting of ballots, canvass of votes, and reporting of election results.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

NOTE: Most SBE data are based on election year cycles, which run from December of the previous year through November of each general election - Gubernatorial (G) and Presidential (P). When comparing election-related statistics, it is important to compare gubernatorial elections to gubernatorial elections and presidential elections to presidential elections. SBE's performance measures reflect increased voter participation in presidential elections. Other data is fiscal year data.

Goal 1. To ensure all eligible Maryland citizens have the opportunity to register to vote.

Obj. 1.1 By the 2020 Presidential election, increase the response rate from a mailing to individuals identified through Electronic Registration Information System (ERIC) who are eligible but not registered to vote.

Performance Measures	2012 (P)	2014 (G)	2016 (P)	2018 (G)	2020 (P)	2022 (G)	2024 (P)
Percentage of individuals who initiated a new voter registration application as a result of the ERIC mailing	N/A	1.00%	1.00%	0.02%	1.00%	1.30%	1.30%

Goal 2. To provide a voting process that is convenient and accessible.

Obj. 2.1 Retain and increase SBE's social media presence.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.

D38I01.02 Help America Vote Act

Program Description

The Federal Help America Vote Act (HAVA), passed in October 2002, imposed new election requirements on states and provided incentives to upgrade voting systems. In compliance with HAVA, SBE uses this program to appropriately account for expenditures related to improving election administration in the State. In partnership with the 24 local election boards in Maryland, SBE develops and reviews the HAVA State Plan, manages a statewide voting system, and improves election administration in the State.

D40W01.11 Historic Preservation - Capital Appropriation

Program Description

The Maryland Historical Trust Revolving Loan Fund provides loans to nonprofit organizations, local jurisdictions, business entities, and individuals to assist in the protection of historic property. Loan funds can be used to acquire, rehabilitate, or restore historic property listed on or eligible for the National Register of Historic Places. Loan funds may be used to refinance historic properties if it can be demonstrated that this is in the best interest of the property for proper preservation. Loan funds may be used for short-term financing of studies, surveys, plans and specifications, and architectural, engineering, or other special services directly related to preconstruction work required or recommended by the Trust or the State Historic Preservation officer on projects being funded with Federal or State monies. Successful applicants must convey a perpetual historic preservation easement to the Trust.

Military Department

MISSION

The Military Department has three missions: our State mission is to provide highly trained personnel, equipment, and facilities capable of protecting life and property and preserving peace, order, and public safety; our Federal mission is to be prepared to defend the nation and its vital national security interest; and our Community mission is to add value to communities by providing highly trained and skilled citizen-soldiers and citizen-airmen whose military skills and discipline accrue to the benefit of employers and civic organizations.

VISION

The Military Department comprises quality people, equipment, facilities and systems to enhance our partnerships with communities and local, State, and federal governments.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

D50H01.03 Army Operations and Maintenance - Military Department Operations and Maintenance

Program Description

This program operates and maintains 31 readiness centers in 16 counties and Baltimore City. These readiness centers are used by the Maryland Army National Guard, represented by units of the 58th Expeditionary Military Intelligence Brigade, the 58th Troop Command and the Joint Force Headquarters. Support facilities include the United States Property and Fiscal office located in Havre de Grace; one Airbase and three Army Aviation Facilities; various vehicle, equipment and aircraft maintenance facilities; and four training sites to include its major facility, Camp Fretterd, in Reisterstown. These facilities are comprised of more than 298 buildings and 3,921 acres of land, with a Real Property Replacement Value of \$1.1 billion and staffed with over 280 Military Department employees. These employees support the operations, training and readiness for over 4,700 Maryland Army National Guard members who perform humanitarian and national security missions (federally underwritten) and response for State and local support request, including responses to man-made and natural disasters.

Maryland Institute for Emergency Medical Services Systems

MISSION

Consistent with Maryland law and guided by the Emergency Medical Services (EMS) Plan, to provide the resources (communications, infrastructure, grants, and training), leadership (vision, expertise, and coordination), and oversight (medical, regulatory, and administrative) necessary for Maryland's statewide emergency medical services system to function optimally and to provide effective care to patients by reducing preventable deaths, disability, and discomfort.

VISION

To be a state EMS system acknowledged as a leader for providing the highest quality patient care and sought out to help other EMS systems attain the same level of quality care.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Provide high quality, systematic medical care to individuals receiving emergency medical services.

Obj. 1.1 Maryland will maintain its trauma patient care performance above the national norm at a 95 percent or higher statistical level of confidence.

Performance Measures (Calendar Year)	2013 Act.	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Est.	2019 Est.
Trauma care outcomes exceed national norm with at least 95 percent statistical level of confidence	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Survivability rate for Trauma Center admissions	96.3%	96.7%	96.4%	96.3%	96.2%	95.0%	95.0%

Goal 2. Maintain a well-functioning emergency medical services system.

Obj. 2.1 Annually transport at least 89 percent of seriously injured patients directly to a designated trauma center.

Performance Measures (Calendar Year)	2013 Act.	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Est.	2019 Est.
Percent of seriously injured patients transported directly to designated trauma center	85.5%	85.1%	84.0%	84.9%	85.3%	89.0%	89.0%

Department of Veterans Affairs

MISSION

The Maryland Department of Veterans Affairs (MDVA) delivers services and programs to assist veterans, their families and survivors in obtaining Federal, State and local benefits provided by law in recognition of their service to state and country. MDVA enhances public awareness and communication with veterans, their families and other stakeholders to encourage and increase statewide participation in addressing problems faced by Maryland veterans. Charlotte Hall Veterans Home provides an Assisted Living and Skilled Nursing care facility for eligible Maryland veterans and their non-veteran spouses who are unable to take care of themselves due to disability, advancing age, or who have requirements for nursing home care. The Memorials and Monuments Program assures quality maintenance of the memorials honoring Maryland veterans. The Veterans Cemetery Program offers a final resting place for Maryland veterans and their eligible dependents.

VISION

The Department is an advocate of veterans' issues and will dedicate itself to the preservation and enhancement of benefits, rights, and entitlements to ensure those veterans and their families live productive and successful lives. Charlotte Hall Veterans Home is dedicated to serving Maryland's veterans who have earned special recognition through their sacrifices in protecting our country's freedoms and individual rights. The superior appearance of our veterans' memorials will place Maryland at the forefront of honoring the military history and contributions of its men and women who served and sacrificed for their state and nation. We envision a State that improves the economic well-being of its veterans and their families by providing quality benefits information and counseling.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Promote awareness of services and benefits available to veterans, their dependents, and survivors.

Obj. 1.1 Increase the number of client contacts above the average of the prior two fiscal year actuals.

Maryland Automobile Insurance Fund

D70J00.47 Uninsured Division

Program Description

The purpose of the Uninsured Program is to administer and pay claims when no other insurance recovery is available. Only Maryland residents involved in Maryland accidents with uninsured or unidentifiable motorists, or hit and run incidents are eligible to collect from the Uninsured Program. Payments issued by the Uninsured Program may be recovered from the uninsured at-fault party in any manner provided by the law. Sources of income to operate the Uninsured Program are investment income, uninsured motorist fines, and collections on notes and judgements.

Maryland Health Benefit Exchange

D78Y01.01 Maryland Health Benefit Exchange

Program Description

The Maryland Health Benefit Exchange (MHBE) was established as a public corporation and independent unit of state government in 2011. The MHBE has a nine member Board of Trustees that includes the Secretary of Maryland Department of Health, the Maryland Insurance Commissioner, the Executive Director of the Maryland Health Care Commission, three members appointed by the Governor representing employers and individual consumer interests, and three other board members appointed by the Governor. Working with the Maryland Department of Health (MDH), Department of Human Services (DHS), and the Maryland Insurance Administration (MIA), the MHBE has created a marketplace called Maryland Health Connection. Through Maryland Health Connection, Maryland residents can shop for health insurance plans, compare rates, and determine their eligibility for tax credits, cost sharing reductions and public assistance programs such as Medicaid and the Maryland Children's Health Insurance Program. Once an individual, family or small business selects one of the many Qualified Health Plans or available programs, they enroll in that program directly through Maryland Health Connection. This "no wrong door" approach ensures access to affordable health insurance, continuity of care, and seamless transitions for individuals and small businesses.

Canal Place Preservation and Development Authority

MISSION

The Canal Place Preservation and Development Authority's mission is to be the catalyst for the preservation, development, and management of the lands adjacent to the Chesapeake and Ohio (C&O) Canal in Cumberland, to be the coordinator of activities and programs and partner with various agencies and organizations to present a variety of events at the Canal Place festival area, and to be the advocate for preservation and development within the Canal Place Preservation District and the greater Cumberland area, for the purpose of enhancing heritage tourism in Western Maryland.

VISION

The City of Cumberland, Allegany County, and the tri-state area will continue to benefit from the development of the Canal Place Heritage Area and the C&O Canal's western terminus as a source of tourism-based economic revitalization and community pride for the City, region, and the State of Maryland.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Develop and implement educational and interpretive programs that will enhance visitorship to the Canal Place Heritage Area.

Obj. 1.1 In cooperation with the National Park Service (NPS), conduct regular interpretive tours of the Canal Boat replica "The Cumberland," the NPS C&O Canal Museum, the C&O Canal Towpath, the Great Allegheny Passage, and the Western Maryland Scenic Railroad (WMSR); and develop historical, educational, interpretive, and environmental program opportunities with the local county school districts.

Comptroller of Maryland

E00A06.01 Field Enforcement Administration - Field Enforcement Division

Program Description

The Field Enforcement Division is the enforcement arm of the Comptroller of Maryland. It is comprised of five sections – the Enforcement Agents; the Inspectors; Motor fuel, Alcohol, and Tobacco Tax regulators; the State License Bureau; and the Motor Fuel Testing Lab. The Enforcement Agents and Inspectors are responsible for the detection and enforcement of the revenue laws relating to alcoholic beverages, tobacco taxes, motor fuel (including International Fuel Tax Agreement (IFTA) and motor carriers) and sales and use taxes. The tasks performed to complete this function include conducting investigations, arresting violators, and performing compliance inspections for proper licenses. The regulatory function of the Division assists the businesses engaged in the motor fuel and lubricant industry, motor carrier industry (IFTA), the alcohol industry, and the tobacco industry. The State License Bureau is responsible for monitoring over 96,000 business licenses, updating the records of those businesses, enforcing the use of business licenses, and coordinating license issues with all of the Clerks of the Court, statewide. The Motor Fuel Lab is responsible for testing motor fuel to ensure the quality and safety of the fuel sold to consumers across the state. They are also responsible for testing alcohol when needed.

State Treasurer's Office

MISSION

The State Treasurer is responsible for the management and protection of State funds and property. In this capacity, the Treasurer selects and manages the depository facilities for State funds, issues or authorizes agents to issue payments of State funds, invests excess funds, safekeeps all State securities and investments, and provides insurance protection against sudden and unanticipated damage to State property or liability of State employees. The State Treasurer plans, prepares, and advertises State of Maryland General Obligation bond issues, and through the Capital Debt Affordability Committee reviews the size and condition of State tax-supported debt and other debt of State units on a continuing basis. The State Treasurer annually reviews the total amount of State debt that prudently may be authorized for the next fiscal year.

VISION

To make Maryland a state that maximizes its personnel and technology as complementary resources to efficiently and effectively manage cash and investments, minimize potential risks and unexpected losses, and manage debt in order to confidently plan for the future and maintain the State's AAA bond rating.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Accurately reconcile all Treasury State bank accounts.

State Treasurer's Office

E20B01.01 Treasury Management - Treasury Management

Program Description

The Treasury Management Program includes the administrative and operating functions for two principal operating divisions: Treasury Management and Information Technology. The Treasury Management Division oversees all areas related to banking services and investment functions. With respect to banking services, the Division reconciles the State's principal depository and disbursement accounts as well as the income tax and payroll disbursement accounts. The Division resolves errors and claims associated with these accounts. Proper reconciliation assures that all receipt and disbursement transactions are authorized and processed appropriately. The Division also ensures adequate collateralization of State funds on deposit and monitors agencies' working fund accounts to ensure that interest remitted to the State is credited to the General Fund. The Division serves as the banking and financial transaction resource for all banking requirements of State agencies. With respect to investment functions, the Division focuses on the short-term investment of State funds, and oversees securities lending operations. The Division determines the disbursement requirements to be funded on a daily basis, and monitors balance levels at the State's main depository and disbursement banks. The Division ensures that portfolio tracking software and cash flow management techniques are utilized to maintain adequate control of all funds. The Information Technology Division provides the data processing and technology infrastructure needed to operate the State Treasurer's Office. This includes the operation of all internal network and mainframe applications, as well as links to external systems. The Division also provides check printing and electronic payment services for all vendor payments, State Retirement Agency payments to retirees, printing of child support checks, and the processing of all payroll direct deposits.

State Department of Assessments and Taxation

MISSION

To promote fairness in taxation for Maryland property owners by uniformly appraising all taxable property at market value, certifying property values to local governments, and offering programs of property tax relief and business services in a manner that is courteous and convenient.

VISION

A State in which the public has confidence that assessments uniformly reflect current market values and that provides convenient access to services through modern technology.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Administer a property valuation system that annually attains recognized standards of uniformity and assessment levels statewide.

Obj. 1.1 Annually maintain average level of assessments for taxable properties between 90 to 110 percent of market value.

Obj. 1.2 Process personal property tax returns accurately and promptly.

E50C00.08 Property Tax Credit Programs

Program Description

The Department reimburses local governments for tax credits against State and local property taxes due on the homeowner's principal residence and reimburses renters directly for tax credits against property taxes included in rent. The amounts of the two credits are based upon formulas comparing gross household income to the property taxes paid.

Maryland Lottery and Gaming Control Agency

MISSION

The mission of the Maryland Lottery and Gaming Control Agency (MLGCA) is to provide revenue through the sale of entertaining lottery and gaming products to support programs and services benefiting the citizens of Maryland. We administer and promote the sale of lottery and gaming products in a secure and responsible manner. This is achieved in partnership with a network of licensed lottery retailers and casino operators.

VISION

We envision ourselves as an innovative, adaptive, and responsible business that will continue to provide a reliable source of revenue for State government operations well into the future. We will utilize the latest technological tools and resources to provide a range of entertaining products and access opportunities that appeal to a broad player base.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Support State government operations and good causes by maximizing traditional lottery sales and revenues (profits).

- Obj. 1.1 Maximize lottery revenues (profits) through sales growth in all game categories.
- Obj. 1.2 Maximize lottery revenues (profits) through effective marketing and advertising spending.
- Obj. 1.3 Ensure MLGCA operations are efficient, cost-effective, and adequate to grow lottery sales.

Property Tax Assessment Appeals Boards

MISSION

To provide a process for every property owner in the State to appeal the valuation established for tax purposes by the State Department of Assessments and Taxation.

VISION

Every appeal filed will be heard in a timely manner and every decision rendered will be accurate and fair based on the evidence presented at the hearings. Within 30 days, a written decision that states the Board's findings as well as the basis for the findings shall be sent to the petitioner in writing. All of these actions will be accomplished on-line through e-government.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To conduct appeals in a timely and efficient fashion.

Obj. 1.1 To hear every appeal and render a decision for every appeal filed during the appeal cycle year.

Department of Budget and Management

MISSION

The Department of Budget and Management (DBM) helps the Governor and State agencies provide effective, efficient, and fiscally sound government to the citizens of Maryland through the use of effective budgeting and resource management. DBM supports agency efforts to achieve results by helping them obtain the fiscal, capital, procurement, and personnel resources needed to provide services to Maryland citizens. The Department is dedicated to providing advice and assistance with professionalism, modern management techniques, and teamwork. DBM ensures effective budgeting by allocating State resources in ways that provide the most benefit at the least cost to the citizens of the State. The Department ensures a fair and equitable personnel system in which State employees are able to pursue their careers without discrimination or harassment, job applicants have an equal opportunity to compete for State employment, and individuals requesting services from the State are provided those services without discrimination.

VISION

DBM will advance the interests of the citizens of Maryland in a State government that is well regarded, responsive, and contributes to environmentally sound communities whose residents are well-educated, healthy, safe, and gainfully employed. The Department's success depends on its employees. The recognition DBM gives to individual effort and teamwork will make the agency a desirable place to work. DBM's advice and assistance will be actively sought. DBM will emphasize getting the job done with utmost professionalism.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Executive branch and independent agencies retain a high quality workforce that reflects the diversity of the State.

Obj. 1.1 Annually, 50 percent of the protected groups in the State's workforce will reflect their proportional composition in Maryland's Civilian Labor Force.

Obj. 1.2 Annually, at least 88 percent of Equal Employment Opportunity (EEO) complaints will be resolved with the agency and/or with the Office of the Statewide Equal Employment Opportunity (EEO) Coordinator.

F10A02.01 Executive Direction - Office of Personnel Services and Benefits

Program Description

The Office of Personnel Services and Benefits (OPSB) provides policy direction for the human resources system established by the State Personnel and Pensions Article. The Executive Director manages OPSB and administers State personnel policies and health benefit programs. The Executive Director functions as the State's Chief Negotiator in collective bargaining, overseeing the administration of seven Memoranda of Understanding (MOUs) between the State and various exclusive representatives. The Employee and Labor Relations Division (ELRD) holds settlement conferences in grievance and disciplinary appeals, and provides advice and assistance on the interpretation of State personnel law and policies and the collective bargaining MOUs. The ELRD represents the Department in contested case hearings at the Office of Administrative Hearings and handles complaints filed under the various MOUs. The ELRD is responsible for training agencies in various aspects of employee and labor relations including employee supervision, leave issues, the PEP process, the disciplinary process, and changes to MOUs. Mediation services are provided to employees in conflict through the Shared Neutrals Mediation Program. OPSB coordinates the State's Employee Assistance Program. OPSB houses the Statewide Social Security Administrator function responsible for administering the agreement between the State and federal government by which State and local government employees receive social security benefits. The Shared Services Division oversees management of the Statewide Personnel System and performs a variety of tasks relating the administration of the system, including integrations management, reporting, security, change management, and responding to the needs of users via a help desk ticket system. The Division manages the day-to-day operations of the State's Learning Management System (the Hub) and handles the technical aspects of the State's online recruitment tool, JobAps.

F10A02.02 Division of Employee Benefits - Office of Personnel Services and Benefits

Program Description

The Employee Benefits Division administers the State Employee and Retiree Health and Welfare Benefits Program (the Program) for State employees, retirees and their eligible dependents. Benefits administration extends to satellite agencies, certain continuation of coverage participants, contractual employees and those on various forms of leave. The Program offers eight medical plans, two dental plans and one prescription plan. In addition, the Program offers employee paid coverage for flexible spending accounts, life, accidental death and dismemberment, and long term care insurance. The State's share of the estimated fiscal year cost of the health benefits programs is appropriated in the various agency budgets.

F10A02.04 Division of Personnel Services - Office of Personnel Services and Benefits

Program Description

The Division of Personnel Services acts as the human resources office for the Department of Budget and Management and 19 other State agencies. The Division provides guidance Statewide on personnel matters and coordinates related legislative duties such as drafting and reviewing proposed legislation and researching and writing fiscal notes and testimony. The Division processes gross payroll for all SPMS employees (approximately 52,000 employees). The Division also manages Statewide programs such as telework, Military Administrative Leave, PEP, tuition reimbursement, and the Leave Bank, as well as managing contracts for medical services, specimen collection and testing, the Employee Assistance Program, and the contract for the Hub and Workday. The DBM Consolidated Payroll services all SPMS agencies and ensures gross payroll amounts are processed correctly for the Central Payroll Bureau and that these payments comply with the law. The office processes overpayment recoveries, settlement payments due to employees, and retroactive adjustments for all SPMS agencies.

F10A02.09 SmartWork - Office of Personnel Services and Benefits

Program Description

Maryland SmartWork will offer Maryland state employees working in specified shortage areas – such as correctional officers, nurses, and IT workers – the opportunity to receive state assistance to repay their student loans. Current state employees working in those areas that are paying down their children's student loans also qualify for this benefit. To enact this program, the governor signed Executive Order 01.01.2018.17, Student Loan Repayment Benefits to Relieve State Workforce Shortages.

Department of Budget and Management

F10A05.01 Budget Analysis and Formulation - Office of Budget Analysis

Program Description

The Office of Budget Analysis (OBA) analyzes State agency and department programs, expenditures, revenues, and performance, and recommends funding allocations to the Secretary of Budget and Management and the Governor. OBA develops the annual operating budget in accordance with both legal requirements and the Governor's priorities. The annual operating budget is presented to the General Assembly for consideration and enactment. OBA manages the automated budget system, provides support to Departmental staff and State agencies that use the system, and is responsible for printing the State Budget and Fiscal Digest. In addition, the Office maintains master position control documentation for all authorized State positions with position, classification, and salary information for the annual State Budget.

Department of Information Technology

MISSION

The mission of the Department of Information Technology (DoIT) is to provide information technology leadership to the Executive Branch agencies and commissions of State government so that key State information technology resources may be effectively managed. This leadership encompasses the establishment and management of: technology standards, long range target technology architecture, best practices for program management, business case processes for determining the viability of programs, efficacious procurement of information technology services and products, cross agency collaboration for the mutual benefit of all agencies, and industry liaison. It is also the mission of DoIT to identify and promulgate opportunities for State agencies to become more efficient, reduce costs and better serve the citizens of Maryland. DoIT has identified two key outcomes: effective resource management, and having State agency information technology systems meet the State Information Technology Master Plan objectives of consolidation, interoperability and standardization.

VISION

DoIT applies best business practice principles to evolve information technology (IT) systems, projects and contracts that assist all State agencies to improve constituent services and operational efficiencies.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Provide leadership and support to State agencies in areas of cybersecurity policy, risk and vulnerability assessment, technology implementation, awareness training and incident response as to raise the security posture of State government.

Obj. 1.1 Reduce the risk of, and improve the potential response to, cyber attacks and/or data breaches.

Obj. 1.2 Increase inter- or intra-agency alignment of IT to State business functions.

Performance Measures		2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.

F50A01.01 Major Information Technology Development Project Fund - Major Information Technology Development Project Fund

Program Description

This program identifies a non-lapsing fund administered by the Secretary of the Department of Information Technology. The Fund was established on June 1, 2002, replacing the Information Technology Investment Fund. The Fund is used for two main purposes: (1) to fund State Major Information Technology Development Projects, and (2) to fund educationally related State Information Technology projects, application service provider initiatives, or other Information Technology projects such as pilots and prototypes.

F50B04.04 Infrastructure - Office of Information Technology

Program Description

The Infrastructure Division is responsible for the State telecommunications high-speed network, a shared resource providing affordable and cost effective high-speed bandwidth to public sector entities in all geographical areas of the State. In addition, the Division is responsible for the administration of State capital investments in wireless telecommunications and voice systems. Program resources coordinate joint network build-outs and consolidation of services, and provide oversight for proper network growth in the State public sector.

Department of Information Technology

F50B04.07 Radio - Office of Information Technology

Program Description

The Radio Division (also known as the Statewide Interoperable Communications Division) conducts operations and maintenance of the Statewide Public Safety Interoperability Radio System, also known as Maryland FIRST. The System is a 700 MHz land mobile radio (LMR) system that connects Maryland's first responders on one secure radio system. The Division promotes compatibility between radio systems, evaluates and promotes the sharing of resources where appropriate, and procures wireless systems. The Division also advises State agencies on planning, acquisition, and operation of radio systems; and provides radio frequency coordination assistance to State and local government. The Division also supports the Statewide Interoperability Radio Control Board, and interacts with the Federal FirstNet National Public Safety Broadband Network on behalf of the State of Maryland.

RETIREMENT AND PENSION SYSTEMS ADMINISTRATION

Maryland State Retirement and Pension Systems

Teachers and State Employees Supplemental Retirement Plans

State Retirement Agency

MISSION

To administer the survivor, disability, and retirement benefits of the System's participants, and to ensure that sufficient assets are available to fund the benefits when due.

VISION

A state that provides a fully-funded retirement system that is affordable to all participating employees and provides guaranteed adequate disability, survivor, and retirement benefits.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To invest prudently System assets in a well-diversified manner to optimize long-term returns, while controlling risk through excellence in execution of the investment objectives and strategies of the System.

Obj. 1.1 By the end of each fiscal year meet the Board of Trustees' total return objective of achieving a nominal rate of return that equals or exceeds the actuarial return assumption set by the Board of Trustees.

Obj. 1.2 Over the long term (5-year rolling periods) meet or exceed both median peer performance, where peers are defined as other public pension funds with assets in excess of \$25 billion, and policy benchmark performance, where benchmarks are defined by the Board of Trustees.

Teachers and State Employees Supplemental Retirement Plans

G50L00.01 Maryland Supplemental Retirement Plan Board and Staff

Program Description

The State Personnel and Pension Article establishes the Teachers and State Employees Supplemental Retirement Plans and a Board of Trustees to administer them. Operating expenses are provided from an assessment against the managed assets of participants. As a reform component for the State Employees' Pension System, an optional defined contribution system was established effective July 1, 1999.

H00E01.01 Real Estate Management - Office of Real Estate

Program Description

The Real Estate Management Program acquires and disposes of real property interests. The Program consists of three units: Lease Management and Procurement, Land Acquisition and Disposal, and Valuation and Appraisal. Lease Management and Procurement acquires lease space on behalf of State agencies, oversees the construction and modification of leased space, and enforces lease terms. Land Acquisition and Disposal evaluates property to be purchased or sold, coordinates program requirements for capital projects, and negotiates contract terms and conditions. Valuation and Appraisal appraises property for State agencies, provides valuation services for State agencies and organizations that receive State grants and loans, provides value recommendations, and maintains a list of approved appraisers.

MISSION

The Maryland Department of Transportation (MDOT) is a customer-driven leader that delivers safe, sustainable, intelligent, and exceptional transportation solutions in order to connect our customers to life's opportunities.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Additional Performance Measures, Key Initiatives, Performance Discussions and Strategies:

2018 Annual Attainment Report on Transportation System Performance: <http://www.mdot.maryland.gov/AR>

MDOT Quarterly Performance Report, MDOT Excelerator: www.mdot.maryland.gov/MDOTExcelerator

Goal 1. Ensure a Safe, Secure, and Resilient Transportation System – Enhance the safety and security of Maryland's multimodal transportation system and provide a transportation system that is resilient to natural or man-made hazards.

Obj. 1.1 Reduce the number of lives lost and injuries sustained on Maryland's transportation system.

Obj. 1.2 Provide for the secure movement of people, goods, and data.

Obj. 1.3 Provide a resilient multimodal system by anticipating and planning for changing conditions, and hazards whether natural or man-made.

Obj. 1.4 Improve roadway clearance times and facilitate efficient and coordinated responses to emergency and disaster events throughout the transportation system.

Goal 6. Ensure Environmental Protection and Sensitivity – Deliver sustainable transportation infrastructure improvements that protect and reduce impacts to Maryland’s natural, historic, and cultural resources.

Obj. 6.1 Protect and enhance the natural, historic and cultural environment through avoidance, minimization and mitigation of adverse impacts related to transportation infrastructure, including support for broader efforts to improve the health of the Chesapeake Bay.

Obj. 6.2 Employ resource protection and conservation practices in project development, construction, operations, and maintenance of transportation assets.

Obj. 6.3 Implement initiatives to reduce fossil fuel consumption, mitigate greenhouse gases, and improve air quality.

MDOT’s Environmental Stewardship Performance Measures and Key Initiatives are detailed in the Environmental Stewardship Goal portion of the MDOT Annual Attainment Report on Transportation System Performance:

<http://www.mdot.maryland.gov/AR>

Goal 7. Promote Fiscal Responsibility – Ensure responsible investment and management of taxpayer resources to add value and deliver quality transportation improvements through performance based decision-making and innovative funding mechanisms and partnerships.

Obj. 7.1 Accelerate project completion through improved and efficient use of alternative project delivery methods and strategic partnerships.

Obj. 7.2 Provide transportation services and solutions that maximize value.

NOTES

¹ "Estimates" are derived from the Strategic Highway Safety Plan (SHSP) and are not estimations/projections but rather targets set using an exponential trend line for an overall reduction by 2020 with yearly interim targets based on five-year rolling averages.

² 2018 data is estimated.

³ The methodology for the calculation of the data changed. Data reported for FY 2017 and prior is not comparable to data reported for FY 2018 and after.

J00B01.03 County and Municipality Capital Funds - State Highway Administration

Program Description

Under Title 8, Section 507, the State Highway Administration (SHA) may allocate funds to a "County Highway Construction Fund" from the Transportation Trust Fund. The allocation is determined by the amount of Federal Secondary Highway Funds and Urban System Funds that may be allocated to the counties and that may be subsequently released by them to the SHA for use on the State Highway System. The County Highway Construction Fund is apportioned to the counties and matching construction funds are required of each participating county.

J00H01.06 Statewide Programs Operations - Maryland Transit Administration

Program Description

This program provides technical assistance, operating grants, and federal grants-in-aid for local jurisdictions with primary emphasis on small urban and rural areas and elderly and disabled individuals. The program also includes the Statewide Commuter Bus program in which private bus companies under contract to the Maryland Transit Administration provide service along corridors into the Washington, DC area. Finally, a freight operating agreement supports maintenance of state-owned rail lines operated by the Maryland and Delaware Railroad in Caroline, Dorchester, Kent, and Queen Anne's counties.

J00100.03 Airport Facilities and Capital Equipment - Maryland Aviation Administration

Program Description

This program provides funds to develop and maintain the facilities at Baltimore/Washington Thurgood Marshall (BWI Marshall) Airport and Martin State Airport. The capital program for BWI Marshall will improve airport facilities to meet the commercial and general aviation needs for both passengers and cargo activities. Development of Martin State Airport requires facilities improvements to support the Maryland Air National Guard, Aviation Division of the Maryland State Police, and general aviation. The program also includes development grants for public use airports located throughout the State. Eligible projects may be financed with State grants which are matched with Federal and local funds. Certain projects ineligible for Federal funds are financed entirely by State and local funding or a combination of State grants and loans. The Maryland Aviation Administration is authorized by the Federal Aviation Administration to collect Passenger Facility Charges (PFC) for capital projects in accordance with Federal Aviation Safety and Capacity Expansion Act of 1990. Projects funded partially or entirely with PFC revenue must preserve or enhance safety, security or capacity of the national air transportation system, reduce noise or mitigate noise impact resulting from an airport, or furnish opportunities for enhanced competition among carriers.

Department of Transportation

J00J00.41 Operating Program (Including Debt Service) - Non-Budgeted - Maryland Transportation Authority

Program Description

All powers, authority, obligations, functions, duties, and discretion relating to the financing, construction, operation, maintenance, and repair of Maryland's toll facilities and any other revenue project authorized and provided under Title 4 of the Transportation Article have been vested exclusively in the Maryland Transportation Authority (MDTA). The MDTA Board, consisting of eight members and the Secretary of Transportation serving as Chairman, meets regularly to discuss business and establish policy for projects and facilities under its jurisdiction. Facilities under jurisdiction of the MDTA include: the Susquehanna River Bridge (Thomas J. Hatem Memorial Bridge); the Potomac River Bridge (Harry W. Nice Memorial Bridge); the Bay Bridge (William Preston Lane, Jr. Memorial Bridge); the Baltimore Harbor Tunnel, including the Harbor Tunnel Thruway connecting I-95; the Baltimore Harbor Outer Crossing (Francis Scott Key Bridge); the John F. Kennedy Memorial Highway (including the I-95 Express Toll Lanes); the Fort McHenry Tunnel; and the Intercounty Connector. The MDTA also issues transportation facility revenue bonds to finance projects on behalf of the Maryland Department of Transportation, various improvements at BWI Thurgood Marshall Airport, Calvert Street parking garage (Annapolis); and Washington Metropolitan Area Transit Authority (WMATA) parking garages.

MISSION

The Department of Natural Resources leads Maryland in securing a sustainable future for our environment, society, and economy by preserving, protecting, restoring, and enhancing the State's natural resources.

VISION

In a sustainable Maryland, we recognize that the health of our society and our economy are dependent on the health of our environment. Therefore, we choose to act both collectively and individually to preserve, protect, restore, and enhance our environment for this and future generations.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Healthy Terrestrial Ecosystems.

- Obj. 1.1** Establish scientifically supported sustainable harvest strategies for game species populations through a variety of survey methods.
- Obj. 1.2** Restore 2,000 acres of critical plant and wildlife habitat by June 30, 2018.
- Obj. 1.3** Preserve and protect Maryland's aquatic and wildlife habitats and populations by increasing the number of conservation inspections conducted to 150,000 by 2017.
- Obj. 1.4** Restore 2,000 miles of riparian forest buffers (RFBs) in Maryland by 2025.
- Obj. 1.5** Provide multiple ecosystem benefits by annually achieving integrated resource management covering 25,000 acres of non-industrial private forest lands and guiding 700 forest landowners in natural resources management that meets their needs.

Department of Natural Resources

Goal 2. Healthy Aquatic Ecosystems.

- Obj. 2.1** Utilizing the Chesapeake and Atlantic Coastal Bays 2010 Trust Fund, annually reduce coastal non-point source pollution from entering Chesapeake, coastal, and ocean waters. Report on the status of key Chesapeake Bay resources as government, commercial, and citizen efforts to restore water and habitat quality of the Bay and its watershed continue through 2025.
- Obj. 2.2** Annually produce technical assessments on Harmful Algal Bloom (HAB) distribution and prevalence for Maryland's waters, develop new management strategies, and provide timely information to the public and agencies charged with protecting public health.
- Obj. 2.3** Assess ecosystem components within non-tidal waters to evaluate critical fisheries and habitat elements for protection and/or restoration.

K00A10.01 Critical Area Commission - Critical Area Commission

Program Description

The purpose of the Commission is to foster more environmentally protective development activity in sensitive shoreline areas on the Chesapeake and Atlantic Coastal Bays and to minimize damage to water quality and the natural habitat. The law establishing the Commission provides for the implementation of a resource protection program on a cooperative basis between the State and affected local governments, with local governments establishing and administering their programs in a consistent and uniform manner, subject to State criteria and oversight. The primary activities of the Commission are: reviewing local development proposals; providing technical planning assistance to local governments; promoting water quality and habitat protection; approving amendments to local programs; and providing grants to local governments for implementation of their local Critical Area Programs.

MISSION

To provide leadership and support to agriculture and the citizens of Maryland by conducting regulatory, service, and educational activities that ensure consumer confidence, protect the environment, and promote agriculture.

VISION

To achieve excellence in programs and services that preserve and protect agricultural resources and the environment, promote profitable agriculture and consumer confidence, and enhance the quality of life for all Marylanders.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To promote profitable production, use, and sale of Maryland agricultural products.

Obj. 1.1 Create new markets and support existing market opportunities for Maryland farmers and agribusinesses.

Obj. 1.2 Increase international sales by Maryland agribusinesses and the export of Maryland agricultural products to international markets.

Obj. 1.3 Continued recognition by the United States Department of Agriculture of Maryland's highest official status in all Cooperative Animal Disease Control/Eradication or other programs in which the Animal Health Program participates.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Act.	2019 Est.	2020 Est.
Number of producers participating in Maryland Department of Agriculture (MDA) activities	380	400	464	522	421	400	400
Number of producers participating in Farmers' Market Nutrition Program (FMNP)	411	417	400	342	261	300	300
Amounts of FMNP checks redeemed by producers	\$532,159	\$530,684	\$579,688	\$530,000	\$468,905	\$500,000	\$500,000
Number of reported international sales	45	27	37	40	89	35	35

Goal 2. To protect the health of the public, plant, and animal resources in Maryland.

Obj. 2.1 Maintain robust laboratory output and timely reporting results.

Obj. 2.2 Successfully complete gypsy moth and hemlock woolly adelgid pest management activities where economically and environmentally feasible.

Obj. 2.3 Successfully deploy monitoring/survey traps for various forest pests (pine beetle, sirex natchilio, walnut twig beetle, emerald ash borer, etc.).

L00A11.04 Maryland Agricultural Commission - Office of the Secretary

Program Description

The Maryland Agricultural Commission is composed of 30 members, representing a variety of agricultural commodities and agribusiness (poultry, dairy, livestock, crop protection, nursery, etc.). One of the members serves as ex officio, principal administrative official for Agricultural Affairs at the University of Maryland. The Maryland Agricultural Commission advises the Maryland Secretary and Deputy Secretary of Agriculture on matters affecting Maryland's agricultural community, particularly proposed laws, policies and regulations, and their impact on the agriculture industry. The Commission conducts public meetings and tours to different regions of the State to gain a better understanding of the agricultural problems, and gives the stakeholders and others present an opportunity to interact and directly express their concerns to the Commission members. The Commission also promotes agricultural products and cooperatives with other State agencies and local jurisdictions in the preparation of educational and promotional exhibits. The Executive Director serves as a departmental liaison with farms, commodity groups, youth organizations and environmental groups, as well as one of the Special Assistants to the Secretary/Deputy Secretary. This office is also responsible for providing staff support to the Young Farmers Advisory Board.

L00A11.05 Maryland Agricultural Land Preservation Foundation - Office of the Secretary

Program Description

The Maryland Agricultural Land Preservation Foundation's (MALPF) intent is to preserve productive farmland and woodland to provide for continued production of food and fiber, curb the extent of random urban development, and protect farmland and woodland as open space land. MALPF offers to buy permanent easements on agricultural land that meets certain criteria to restrict development and keep land in agricultural production. The program is voluntary on the part of landowners and is dependent upon cooperation of local governments, which appoint five-member Agricultural Land Preservation Advisory Boards. MALPF co-administers the Certification of Local Agricultural Land Preservation Programs with Maryland Department of Planning. This cooperative effort certifies local preservation programs that are successful and effective in preserving agricultural land.

L00A12.02 Weights and Measures - Office of Marketing, Animal Industries and Consumer Services

Program Description

The Weights and Measures Section maintains and safeguards the State's primary standards as well as secondary standards and equipment for the enforcement of Maryland's Weights and Measures Law. It maintains supervision over weighing and measuring devices, weights and measures and packaged commodities offered for sale, sold or in use in the State. This supervision extends to the methodology employed in obtaining accurate measurement and providing a means for value comparisons. It administers and enforces State laws designed to ensure accuracy, equity and the prevention of fraud in the sale and measurement of commodities and similar transactions involving quantities.

L00A12.03 Food Quality Assurance - Office of Marketing, Animal Industries and Consumer Services

Program Description

The Food Quality Assurance Program is composed of four subprograms that perform a variety of certification, inspection and audit activities related to quality, wholesomeness, and production practices of agricultural food commodities. Grading Services employees certify agricultural commodities such as eggs, poultry, meat, grain, fruits and vegetables for grade, size, weight, sanitation, good agricultural practices, food security practices and/or compliance with buyer specifications. Producers and packers of agricultural commodities request certification to meet customer specifications or export requirements. Egg Inspection employees enforce the quality, size, labeling, record keeping, registration and public health requirements established by the Maryland Egg Law to provide consumer protection and fair trading practices for the industry. Employees of this section also conduct audits to verify compliance with Maryland Egg Quality Assurance Program requirements designed to reduce the risk of microbial contamination of eggs. The Grain Laws program licenses facilities obtaining grain from producers and inspects their records for compliance with financial and insurance requirements. The costs incurred in furnishing these programs are paid for by the regulated industry. The Organic Program inspects farms and facilities to certify compliance with standards established by the organically produced commodities regulations and the National Organic Program.

L00A12.04 Maryland Agricultural Statistics Services - Office of Marketing, Animal Industries and Consumer Services

Program Description

The Maryland Agricultural Statistics Service (MASS) generates data necessary for effective production, marketing and economic activities related to agriculture. MASS is a field office of the United States Department of Agriculture (USDA), National Agricultural Statistics Services (NASS). Responsibility for the quinquennial census of agriculture programs, which provides comprehensive information about agriculture in the nation, was transferred from the Department of Commerce to USDA in 1997. NASS thereby assumed responsibility for the 1997 Census of Agriculture and subsequent censuses and special studies.

L00A12.05 Animal Health - Office of Marketing, Animal Industries and Consumer Services

Program Description

The Agriculture Article authorizes the Secretary to conduct a wide variety of activities "to protect the health of the domestic animals of the State" including the creation of the position of State Veterinarian, whose duties are performed by the Chief of the Animal Health Program. The program's major activities are regulatory, emergency response and service oriented. They include health certification of animals imported to or exported from the State; licensing and/or inspection of livestock auctions, dealers, fairs, exhibitions, hatcheries, and farms by field staff; and operations at two veterinary diagnostic laboratories strategically located near the highest concentrations of livestock and poultry in the State to support agency field staff, the private veterinarian, and animal producers. Both laboratory and field programs receive administrative support from Headquarters. The Program participates in several State-Federal-Industry Cooperative Disease Eradication Programs audited by the United States Department of Agriculture (USDA). It also works closely with several units of the University of Maryland including the Virginia-Maryland Regional College of Veterinary Medicine, with other States, and with numerous local, regional, and national animal industry and animal health organizations.

L00A12.07 State Board of Veterinary Medical Examiners - Office of Marketing, Animal Industries and Consumer Services

Program Description

The Board sets minimum standards by which veterinarians, registered veterinary technicians, and veterinary hospital owners shall comply through legislative and regulatory adoptions and amendments. The Board licenses and registers veterinarians annually, licenses veterinary hospitals annually and inspects veterinary hospitals biennially, registers veterinary technicians triennially, licenses animal control facilities annually, provides disciplinary information to other state veterinary boards and the public, and submits licensure verification to other state veterinary boards upon request. The Board investigates consumer complaints, initiates its own investigations, and determines whether disciplinary action shall be taken against veterinarians, registered veterinary technicians, and owners of veterinary hospitals and animal control facilities.

L00A12.10 Marketing and Agriculture Development - Office of Marketing, Animal Industries and Consumer Services

Program Description

The Marketing Program assists Maryland farmers and other agricultural entrepreneurs to develop markets for their products. The Program provides market research, identifies marketing opportunities and provides a centralized source of business development information for farmers, small agribusinesses and large agriculture-related businesses. The program's outreach focuses on raising demand for local agriculture, thus increasing employment opportunities and helping to sustain agricultural communities throughout Maryland. The Marketing Program also promotes Federal crop insurance as a risk management tool and administers the United States Department of Agriculture (USDA) Certified Agricultural Mediation Program for Maryland to provide citizens with an effective, low-cost, rapid means of resolving disputes related to agricultural production. Marketing also serves as a platform for Maryland's companies to raise local and global concerns relating to trade and agricultural profitability. The Spay/Neuter program is intended to provide financial resources and information to low income dog and cat owners to help defray the cost to spay and neuter pets. The program manages a voucher and grant program to achieve the objective of decreasing the population of breeding cats and dogs residing in low income households.

L00A14.02 Forest Pest Management - Office of Plant Industries and Pest Management

Program Description

The program is the lead agency for forest pest management for the State of Maryland. Primary program responsibilities include detecting, monitoring and assessing forest insect and disease situations relevant to the diverse forest and landscape tree resources of Maryland. Likewise, training and educational programs are conducted for other State and local agencies and citizen groups. Furthermore, this program is responsible for protecting forest and landscape trees from severe insect infestations, particularly gypsy moth. Pest management actions are undertaken in accordance with Maryland's Plant Disease Control Law. This program has proactively conducted a cooperative gypsy moth suppression program since 1982. There are five Regional Field Offices located in Forest Hill, Cheltenham, Cumberland, Easton and Frederick.

L00A14.03 Mosquito Control - Office of Plant Industries and Pest Management

Program Description

This program is responsible for administering and implementing mosquito control services throughout Maryland. Mosquitoes are vectors of disease, and noxious pests which decrease the quality of life and can depress real estate value and local economies based on outdoor tourism. The Maryland Department of Agriculture (MDA) has cooperative mosquito control agreements with 22 Maryland counties and 10 municipalities. Program activities include mosquito-borne disease surveillance, mosquito surveillance, biological control, ground and aerial application of insecticides, source reduction and public education.

L00A14.06 Turf and Seed - Office of Plant Industries and Pest Management

Program Description

This program conducts regulatory activities to ensure that seed and sod marketed in the State are labeled in accordance with the Maryland Seed Law and the Maryland Turf Grass Law. The program also performs services to assure the availability of sufficient quantities of certified turf and seed. It directs and conducts certification programs by which turf and seed are produced to meet standards of purity, variety, germination and other quality factors. The seed testing laboratory supports these functions and provides seed testing services for farmers, seed dealers, and participants in the Maryland Agricultural Cost Share Cover Crop Program.

L00A15.02 Program Planning and Development - Office of Resource Conservation

Program Description

The State Soil Conservation Committee serves as an advisory committee to the Secretary of Agriculture on matters pertaining to agricultural soil conservation and water quality. It is charged with the appointment of four of five supervisors to each of Maryland's Soil Conservation Districts (SCDs); coordination of SCD programs; provision and exchange of information between SCDs; and acting as a forum for SCDs to address mutual goals, resolve conflicts and coordinate programs with local, State and Federal agricultural and natural resource agencies working in Maryland. The Information and Education Program provides unit-wide support to the Office of Resource Conservation, promoting technical and financial assistance programs, producing and distributing educational and informational materials, and acting as a public relations liaison with the agricultural community and general public to disseminate information and respond to information requests.

L00A15.04 Resource Conservation Grants - Office of Resource Conservation

Program Description

The Conservation Grants Program includes the Maryland Agricultural Water Quality Cost-Share (MACS) Program. The MACS program provides cost-share grants to farmers installing Best Management Practices (BMPs) on agricultural land to control erosion and manage animal waste while improving water quality. The Water Quality Improvement Act of 1998 provides funds for two additional cost-share programs: the Manure Transport Program and the Nutrient Management Cost Share Program. The Manure Transport Program provides grants for the transportation and handling of manure from farms with excess manure or potential nutrient problems. The Nutrient Management Cost Share Program provides grants to farmers who want their nutrient management plans developed by a nongovernmental consultant. The Chesapeake Bay Restoration Fund funds the Cover Crop Program which provides grants to farmers for planting cover crops in the fall to control soil erosion and absorb unused nitrogen and phosphorus remaining in the soil.

L00A15.06 Nutrient Management - Office of Resource Conservation

Program Description

This program develops nutrient management plans and administers the Turf Grass Nutrient Management program. It also trains, certifies, and licenses nutrient management consultants. Nutrient management law and regulations are focused on the development of nutrient management plans by certified consultants and the management of nutrient sources and implementation of plans by farmers. The program is responsible for implementation of nutrient management and enforcement of the law. It also provides support to the University of Maryland Cooperative Extension (MCE) to administer the development of plans by the consultants in the public sector and educational programs. Cost-share incentives are also provided for development of plans by the private sector. Education and outreach are key elements in the program's strategy plan and its efficient implementation. The program provides educational and certification programs for farmers and consultants, conducts site visits and inspects the development of plans by consultants and the implementation of plans and application of nutrients by operators; and tracks, evaluates and prepares annual progress reports on program implementation to the Governor and General Assembly.

L00A15.07 Watershed Implementation - Office of Resource Conservation

Program Description

The Watershed Implementation Program provides direction and leadership in developing and evaluating the agricultural sector's strategy in achieving the implementation program as required by the Chesapeake Bay Agreement. The program also provides oversight and management of Maryland's Certainty and Nutrient Trading programs. The Maryland Certainty Program offers certainty that Maryland's agricultural operations are actually reducing pollution on their farms and also gives those operations certainty once they meet all water quality standards. The Maryland Nutrient Management Trading Program provides a public marketplace for buying and selling of nutrient (nitrogen and phosphorous) credits. The purpose of the program ranges from being able to offset new or increased discharges to establishing incentives for reductions from all sources within a watershed and achieving greater environmental benefits than through existing regulatory programs. In addition, the Watershed Implementation Program reviews and evaluates emerging technologies for potential environmental benefits through research and/or special grant funding projects in collaboration with various research and academic institutions.

MDH - Regulatory Services - Health Professional Boards and Commissions

MISSION

The mission of the health occupations boards is to protect the citizens of Maryland through the promotion of quality healthcare. This is achieved through maintenance of efficient licensure systems for healthcare professionals; promotion of disciplinary practices that contribute to an overall culture of accountability; education of clients and other stakeholders; and enforcement of applicable laws and statutes.

VISION

Maryland is a state where healthcare professionals are well qualified, where healthcare professionals want to live and practice, and where citizens are informed about the qualifications of their healthcare practitioners.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. To protect the public and promote quality healthcare by providing an effective and efficient licensure system for health professionals regulated by the State.

Obj. 1.1 By June 30, 2020, to issue initial licenses to 95 percent of qualified applicants within ten days of receipt of the last qualifying document, or to improve upon that standard if it has already been met.

Program Description

The Department operates 17 health professional boards and two health commissions. HEALTH PROFESSIONAL BOARDS: Board of Acupuncture; Board of Examiners for Audiologists, Hearing Aid Dispensers and Speech-Language Pathologists; Board of Chiropractic Examiners; Board of Dental Examiners; Board of Dietetic Practice; Board of Environmental Health Specialists; Board of Massage Therapy Examiners; Board of Morticians and Funeral Directors; Board of Examiners of Nursing Home Administrators; Board of Occupational Therapy Practice; Board of Examiners in Optometry; Board of Pharmacy; Board of Physical Therapy Examiners; Board of Podiatric Medical Examiners; Board of Professional Counselors and Therapists; Board of Examiners of Psychologists; State Board for the Certification of Residential Child Care Program Professionals; Board of Social Work Examiners. Each board and The Commission on Kidney Disease is mandated to protect the public by licensing qualified health care professionals and/or establishments, establishing fees, maintaining a current roster of all licensees and certified centers, administering licensing examinations, enforcing current statutes and regulations, adopting new regulations and suggesting changes to statute provisions to keep abreast of trends and practice issues, adopting standards of professional practice, verifying credentials of health care providers, establishing requirements for and verifying compliance with the medical and physical standards required for certification and completion of continuing education, investigating complaints based on alleged violations of regulations and statutes, routinely inspecting or otherwise monitoring practice sites, formal and informal disciplining of licensees and centers, and creating committees as deemed appropriate to advise the boards and commission. With the exceptions of the Board of Examiners of Nursing Home Administrators and the State Board for the Certification of Residential Child Care Program Professionals, which are 100% supported by general funds, each board is 100% special funded and supported by revenue generated by licensing fees. HEALTH COMMISSIONS: The Commission on Kidney Disease is the certifying authority of dialysis and transplant centers in the State of Maryland. The Commission is supported exclusively by revenues generated by the certification of centers. The Natalie M. LaPrade Medical Cannabis Commission develops policies, procedures, and regulations to implement programs to make medical Cannabis available to qualifying patients in a safe and effective manner. It develops and issues identification cards for qualifying patients; maintains a Web site that provides information on all aspects of medical cannabis; licenses growers, dispensers, and processors; registers qualifying physicians, independent testing laboratories, grower agents, dispensary agents, and processor agents; establishes fees for registration and licensing, transfer of ownership, and renewals; sets standards for licensure and registrations; inspects all parties to ensure compliance with regulations and statutes; establishes a Fund for donations; develops policies, procedures, and regulations for the approval of new conditions, treatments, or diseases to be included in the list of conditions for which certifying physicians may issue certifications; and, formally and informally disciplines or terminates registrants or licensees found to be not in compliance.

MDH - Public Health Services

MISSION

To protect, promote and improve the health and well-being of all Marylanders and their families through provision of public health leadership and through community-based public health efforts in partnership with local health departments, providers, community based organizations, and public and private sector agencies, giving special attention to at-risk and vulnerable populations.

VISION

A future in which all Marylanders and their families enjoy optimal health and well-being.

NOTES

¹ Data for 2016 is estimated.

² Data for 2011 to 2014 is from the previous scoring metric used by CDC. CDC's new system will only report sections as Early, Intermediate, Established and Advanced.

³ The performance measures for OBJ 1.1 was changed from PFGE to WGS because the CDC is in the process of discontinuing PFGE testing technology.

M00F02.49 Local Health - Office of Population Health Improvement

Program Description

Each political subdivision in Maryland operates a local health department with funding provided by State grants and human service contracts, local funds for required match, and 100% local funds, and fees generated by the program. The local health departments are responsible for operating these programs within available funding. This program reflects disbursements made by the Comptroller for local health departments and State positions utilized by the local health departments. Local health departments also disburse funds through the local subdivisions, and employ staff in local positions. Those local expenditures and positions are not included in this program.

M00F03.01 Infectious Disease and Environmental Health Services - Prevention and Health Promotion Administration

Program Description

The Prevention and Health Promotion Administration (PHPA) protects, promotes, and improves the health and well-being of all Marylanders through partnerships with local health departments and public and private sector agencies through efforts focusing in part on the prevention and control of infectious diseases, investigation of disease outbreaks, protection from food related and environmental health hazards, and helping impacted persons live longer, healthier lives. Additionally, the Administration works to assure the availability of quality primary, prevention and specialty care health services, with special attention to at-risk and vulnerable populations. Finally, the Administration aims to prevent and control chronic diseases, engage in disease surveillance and control, prevent injuries, provide health information and promote healthy behaviors. The Administration was formed from the integration of the former Infectious Disease and Environmental Health Administration and the Family Health Administration.

M00F06.01 Office of Preparedness and Response - Office of Preparedness and Response

Program Description

The Office of Preparedness and Response (OP&R) is an office under the Deputy Secretary for Public Health Services that oversees programs to enhance the preparedness activities for Emergency Support Function 8 (ESF8): Public Health and Medical on the State and local levels for the State of Maryland. Projects in this Office are designed to establish a process for strategic leadership, direction, coordination, and assessment of activities to ensure state and local readiness. Further, interagency collaboration and preparedness for bioterrorism and other health threats and emergencies are key aspects of the work conducted under the leadership of OP&R. All of the projects in this office are federally funded. Federal resources include: the Centers for Disease Control and Prevention (CDC) Public Health Emergency Preparedness (PHEP) Cooperative Agreement; the CDC Cities Readiness Initiative (CRI); and the Department of Health and Human Services, Hospital Preparedness Program (HPP).

MDH - Services and Institutional Operations - Deer's Head Hospital Center and Western Maryland Center

MISSION

Deer's Head Hospital Center: Be a thriving, person centered healthcare organization, providing individualized care for the community through a multidisciplinary team approach.

Western Maryland Center: Provide patient-centered, comprehensive healthcare and rehabilitation services for the clinically complex patient and resident.

VISION

Deer's Head Hospital Center: To be an innovative community full of vitality in which all are welcomed and empowered to contribute their ideas and talents. DHHC envisions a collaborative healing environment where each of us is known, respected, valued, and has purpose: a place where patients, residents, families, volunteers and employees want to be.

Western Maryland Center: Our exceptional people and healing environment will provide high quality care and comfort in mind, body, and spirit to those whose lives we touch.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

DEER'S HEAD HOSPITAL CENTER (DHHC)

Goal 1. To operate with a "Culture of Safety," free from accidents and injuries for all who reside and/or those who rehabilitate at Deer's Head Hospital Center.

Obj. 1.1 During Fiscal Year 2020, DHHC estimates that the percentage of patients/residents with one or more falls will be .01 percent.

Obj. 1.2 During Fiscal Year 2020, DHHC will maintain a medication error rate of less than 0.02.

MDH - Behavioral Health Administration

MISSION

The Maryland Department of Health Behavioral Health Administration (BHA) will, through publicly-funded services and support, promote recovery, resiliency, health and wellness for individuals who have or are at risk for emotional, substance related, addictive, and/or psychiatric disorders to improve their ability to function effectively in their communities.

VISION

The vision of BHA is improved health, wellness, and quality of life for individuals across their life span through a seamless and integrated behavioral health system of care.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

DEPUTY SECRETARY FOR BEHAVIORAL HEALTH

Goal 1. The Resident Grievance System (RGS) will conduct timely interviews and referrals (Information/Assistance), thorough investigations (Grievances), and assist residents who refuse medication (Clinical Review Panels) in the ten State-run facilities (seven mental hygiene and three developmental disabilities).

Obj. 1.1 At least 95 percent of all grievances will be resolved within 65 working days.

Performance Measures	2014 Act.	2015 Act.	2016 Act.	2017 Act.	2018 Est.	2019 Est.	2020 Est.

M00L01.01 Program Direction - Behavioral Health Administration

Program Description

The Behavioral Health Administration (BHA), in conjunction with local core service agencies and local addictions authorities, operates the Public Behavioral Health System (PBHS) to provide mental health and substance-related disorder (SRD) services to the citizens of Maryland. These services are delivered through private community-based providers (profit and non-profit), local health department clinics, and State operated facilities. The Behavioral Health Administration (BHA) is charged with the responsibility for treatment and rehabilitation of individuals with mental illness and for the establishment and support of a comprehensive substance-related disorder (SRD) service delivery system. BHA develops, establishes, regulates, promotes, monitors, and supports programs for prevention, treatment, and rehabilitation related to behavioral health disorders. BHA also promotes and conducts education, training, data collection, and research related to behavioral health disorders.

M00L01.02 Community Services - Behavioral Health Administration

Program Description

This program provides funding for grants-based community behavioral health programs. Community-based services are financed through a combination of grants and contracts with vendors and direct fee-for-service reimbursements. The fee-for-service system is operated by an administrative service organization which, under contract to the Behavioral Health Administration, provides access to services, utilization management, eligibility determination based on medical necessity, claims processing, and evaluation services. Services include inpatient hospital and residential treatment facility stays, outpatient treatment, psychiatric rehabilitation, counseling, and targeted case management. Grants and contracts are administered primarily through local Core Service Agencies (CSAs), Local Addiction Authorities (LAAs), and Local Behavioral Health Authorities (LBHAs).

M00L11.01 John L. Gildner Regional Institute for Children and Adolescents - John L. Gildner Regional Institute for Children and Adolescents

Program Description

John L. Gildner Regional Institute for Children and Adolescents (RICA) is a residential and day treatment center providing mental health treatment, education and rehabilitative services to children and adolescents and their families from counties throughout the State of Maryland and Baltimore City. The overall goal of the program is to allow adolescents to return to an appropriate living environment and academic or vocational setting. Dedicated staff, both in support and treatment disciplines, work together with a common goal to provide a therapeutic environment which will help students become successfully functioning individuals. As the only State of Maryland facility in Region V for Emergency Preparedness, the John L. Gildner-RICA collaborates with the MDH Office of Preparedness and Response, Montgomery County Health Department, local hospitals, and Fire and EMS to assist State Officials, Montgomery County Officials and Region V, ESF 8 Partners in the event of a large scale emergency.

MDH - Developmental Disabilities Administration

MISSION

The mission of the Developmental Disabilities Administration is to provide leadership to ensure the full participation of individuals with developmental disabilities and their families in all aspects of community life and to promote their empowerment to access quality supports and services necessary to foster personal growth, independence, and productivity.

VISION

The Developmental Disabilities Administration takes the leadership role in building partnerships and trust with families, providers, local and State agencies, and advocates to ensure that individuals with developmental disabilities and their families have access to the resources necessary to foster growth, including those resources available to the general public. Because of our inherent belief in the rights and dignity of the individual, we are committed to: the empowerment of all individuals with developmental disabilities and their families to choose the services and supports that meet their needs; the integration of individuals with developmental disabilities into community life to foster participation; the provision of quality supports, based on consumer satisfaction, that maximizes individual growth and development; and the establishment of a fiscally responsible, flexible service system that makes the best use of the resources that the citizens of Maryland have allocated for serving individuals with developmental disabilities.

M00M01.01 Program Direction - Developmental Disabilities Administration

Program Description

The Developmental Disabilities Administration (DDA) is mandated to implement a Statewide plan for training and habilitation services. This is accomplished through the provision of direct services to individuals with intellectual disability in institutions operated by the DDA and through funding of a coordinated service delivery system supporting individuals with developmental disabilities in the community. The focus of both models of service is on individuals receiving appropriate, needed services oriented to the goal of integration into the general community. The term "developmental disability" may mean a wide range of disabling conditions including, but not limited to: autism, cerebral palsy, epilepsy, intellectual disability, and multiple sclerosis.

M00M07.01 Potomac Center - Potomac Center

Program Description

Potomac Center is a 24-hour state residential center located in Hagerstown, Maryland that serves individuals with intellectual disabilities under the direction of the Developmental Disabilities Administration. Services are provided through Person-Centered Planning with self-direction and the use of Applied Behavior Analysis as the therapeutic model with the goal of discharge to the community. Beginning July 15, 2009, Potomac Center opened the Transitions Program to admit individuals with intellectual disabilities and mental illness from the mental health system and to provide a therapeutic habilitation model before discharge to the community. Potomac Center is a licensed Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID).

MDH - Medical Care Programs Administration

MISSION

The mission of the Medical Care Programs Administration is to improve the health and well-being of low-income Marylanders by assuring access to medically necessary and appropriate health care services. In striving to meet this mission, we serve both customers and taxpayers by ensuring quality services are provided in a cost-effective and timely manner.

VISION

The Medical Care Programs Administration will provide leadership to promote equal access and high quality health care services for all Marylanders.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Improve the health of Maryland's children.

Obj. 1.1 By calendar year (CY) 2019, 82 percent of HealthChoice children will receive necessary immunizations at age two.

Obj. 1.2 By CY 2019, the percentage of HealthChoice children aged 12 through 23 months who received a lead test during the year will reach 63 percent.

Obj. 1.3 By CY 2019, the percentage of HealthChoice children aged 12 through 23 months in Baltimore City who received a lead test during the year will reach 67 percent.

Obj. 1.4 By CY 2019, the percentage of HealthChoice children aged 0-20 years who received at least one ambulatory care service during the year will increase by 1.3 percentage points.

Obj. 1.5 By CY 2019, the number of avoidable hospital admissions among HealthChoice children ages 6-17 years will be 157 per 100,000 enrollees.

Obj. 1.6 By CY 2019, no more than 1.3 percent of newborns in HealthChoice will have very low birth weight during the year.

Obj. 1.7 By CY 2019, the percentage of Medicaid children aged 4-20 years who receive dental services during the year will increase by 2 percentage points.

M00Q01.01 Deputy Secretary for Health Care Financing - Medical Care Programs Administration

Program Description

The Medical Care Programs Administration serves children, pregnant women, the elderly, and the disabled, as well as income eligible adults. In comparison to the general public, the population eligible for Medical Care Programs is characterized by poorer health and lower income. The health and economic status of the eligible population creates a greater need for services while presenting greater challenges to providing services. In addition to serving the most vulnerable populations, Medical Care Programs Administration benefits all Marylanders by sustaining the health care system in the State. The Office of the Deputy Secretary for Health Care Financing administers the Maryland Medicaid Program, the Kidney Disease Program, and the Maryland Children's Health Program. In addition, the Office of Planning is housed in the Office of the Deputy Secretary. The Office of Planning assists the Medicaid program managers in the development and implementation of priority projects and provides information to program managers and policy makers on issues related to health care services, financing and regulation. It provides for the analysis and evaluation of existing programs and coordinates State and Federal legislative activities for the Medicaid programs.

M00Q01.02 Office of Systems, Operations and Pharmacy - Medical Care Programs Administration

Program Description

This program develops and maintains a federally certified Medicaid Management Information System (MMIS) to promptly and efficiently pay claims submitted by enrolled providers for health care services. This program strives to minimize costs by exploring and pursuing possible third party liability sources for recovery of Medicaid payments or to "cost avoid" Medicaid payments and eliminate the need for recovery actions. The program also assures that recipients covered under the Kidney Disease Program receive the benefits to which they are entitled.

M00Q01.03 Medical Care Provider Reimbursements - Medical Care Programs Administration

Program Description

The statewide Maryland Medical Assistance Program provides a broad range of medical services to low income persons and to those with catastrophic illness who are unable to pay for care. There are two main classifications of needy persons: (1) the categorically needy and (2) the medically needy. The categorically needy classification includes persons who receive Temporary Cash Assistance (TCA) from the Department of Human Services as well as those individuals receiving Supplemental Security Income (SSI) grants from the federal Social Security Administration. Categorically needy persons are enrolled automatically under the Medical Assistance Program. Several other populations that do not receive public assistance grants are included in the categorically needy classification. These include children, pregnant women, elderly and disabled Medicare beneficiaries with income above the standard Medicaid limit but below certain percentages of the poverty level. As of January 1, 2014, this program also covers adults with income at or below 138 percent of the federal poverty level. The medically needy are those who cannot meet the cost of needed medical care but who are self-supporting in other respects. Medically needy individuals must apply to the local departments of social services for eligibility determination under established criteria for income and assets in relation to need and size of family. The program covers physician services in office and in home, hospice, hospital inpatient, hospital outpatient, pharmacy services, personal care services, day care services and many others. Each person enrolled under the program may select the provider of his/her choice. Payments are made on the basis of allowable fees, or usual and customary charges that are declared reasonable for specific services rendered, or on the basis of prepaid monthly capitation payment. This program provides the funding which reimburses providers under the Medical Care Programs.

M00Q01.04 Office of Health Services - Medical Care Programs Administration

Program Description

The Office of Health Services (OHS) manages the policy and compliance functions for the Medical Care Programs Administration, including HealthChoice managed care, the Rare and Expensive Case Management (REM) program, acute care, nursing and community services, and Home and Community Based Services waiver programs. Policy and compliance functions are integrated through a variety of activities, including the development and implementation of regulations to define covered services, provider qualifications, and provider payment rates. This office maintains the Medicaid State Plan and waiver agreements, which are required in order to obtain federal matching funds from the Centers for Medicare and Medicaid Services. Other OHS functions include performing preauthorization, fraud and abuse prevention activities, improvement initiatives, and program evaluations. The office also resolves provider and recipient complaints and participates in appeals.

M00Q01.10 Medicaid Behavioral Health Provider Reimbursements - Medical Care Programs Administration

Program Description

The Behavioral Health Administration, in conjunction with local core service agencies, operates the Public Mental Health System (PMHS) to provide mental health services to the citizens of Maryland. These services are delivered through private community based providers (profit and non-profit); local health department clinics and State operated facilities. This program provides funding for the community mental health programs for individuals eligible for Medicaid. Community based services are financed through direct fee for service reimbursements. The fee for service system is operated by an administrative service organization, which under contract to the Behavioral Health Administration, provides access to services, utilization management, eligibility determination based on medical necessity, claims processing and evaluation services. Services include inpatient hospital and residential treatment facility stays, outpatient psychiatric rehabilitation, counseling and targeted case management. Starting with fiscal year 2015, the Medical Care Programs Administration contains the budget for the Public Mental Health Services Medicaid Services previously being reported in M00L01.03. The information is now reported under M00Q01.10, and titled "Medicaid Behavioral Health Provider Reimbursements." State Funded Services to Medicaid Eligible Consumers will continue to be reported in Program M00L01.03.

MDH - Health Regulatory Commissions - Maryland Health Care Commission, Health Services Cost Resource Commission, and the Maryland Community Health Resources Commission

MISSION

The mission of the Maryland Health Regulatory Commissions is to plan for health system needs, constrain costs, improve quality and access, and encourage informed decision-making. The Commissions promote an equitable and efficient health care system for all Maryland residents by providing timely and accurate information, enforcing accountability, improving Maryland's system of rate regulation, and the developing strategies to deliver comprehensive health care regardless of ability to pay.

VISION

The Commissions envision a state in which all residents hold the health care system accountable and have access to affordable, high quality, and integrated health care services through programs that serve as national models.

KEY GOALS, OBJECTIVES, AND PERFORMANCE MEASURES

Goal 1. Improve quality of care in the healthcare industry.

Obj. 1.1 By the end of calendar year 2020, at least 75% of eligible Maryland acute general hospitals shall perform at or better than the nation on the prevention of surgical site infections for hip procedures, knee procedures, Coronary Artery Bi-Pass Graft (CABG), Central Line Associated Bloodstream Infection (CLABSI) in Intensive Care Units (ICUs), Clostridium difficile Infections (C.diff), and Catheter Associated Urinary Tract Infection (CAUTIs).

M00R01.02 Health Services Cost Review Commission - Health Regulatory Commissions

Program Description

The Health Services Cost Review Commission was established to contain hospital costs, maintain fairness in hospital payment, provide for financial access to hospital care, provide incentives for hospitals to provide high quality care and disclose information on the operation of hospitals in the State. The Commission further concerns itself with the resolution of financial problems that may threaten the solvency of efficiently run institutions. It assures all purchasers of hospital health care services that the costs of said institutions are reasonable, that the rates are set in reasonable relationship to aggregate cost, and that rates and revenues are set without undue discrimination. The Commission is focused on meeting the requirements of Maryland's new All-Payer Model agreement entered into beginning January of 2014 with the Center for Medicare and Medicaid Innovation (CMMI).

M00R01.03 Maryland Community Health Resources Commission - Health Regulatory Commissions

Program Description

This eleven-member Commission's purpose is to strengthen the safety net for low-income, uninsured and underinsured Marylanders (target population). The safety net consists of "community health resources" which could range from Federally Qualified Health Centers to local health departments, smaller community-based clinics, and providers. The Commission is charged with awarding and monitoring operating and information technology grants to community health resources as well as developing, supporting and monitoring strategies to strengthen viability and improve efficiency. If certain conditions are met, additional funding will become available for the Commission to develop a specialty care network to complement the services offered by community health resources.
